Slang and Its Analogues Past and Present William Ernest Henley, 1903 *Slang and Its Analogues Past and Present* John Stephen Farmer, 1903 *The Smithfield Bargain* Rachelle Edwards, 1980-01-01 ***Lean's Collectanea*** Vincent Stuckey Lean, 1902 *The Smithfield Bargain* Jo Ann Ferguson, 2015-03-17

Romayne Smithfield knows she is acting out of hand when she agrees to elope with her admirer Bradley Montcrief. But how could she have guessed their carriage would be attacked as soon as they crossed the Scottish border. Sure Bradley is dead, she is shocked to be rescued from the highwaymen by Major James MacKinnon who has his own reasons for being out on a moonless night. He is pursuing a traitor who has sold out Britain to the French. He turns his attention to Romayne and takes her to where she can be safe, his home. When her maid arrives to take Romayne home, she insists that a duke's granddaughter cannot return from an elopement without a husband. James must marry her. After all they spent a night together when he rescued her. When he agrees, Romayne is astounded until he tells her that he has arranged for a fake ceremony. He needs to go to England to catch his prey and taking her home to her grandfather gives him the excuse he needs. Now it is her turn to agree, but nothing goes as they plan. Neither of them guessed someone wants Romayne dead in a plot that began when she was only a baby or that a marriage of convenience can become very inconvenient when true love gets in the way.

Women, Work And Sexual Politics In Eighteenth-Century England Bridget Hill, 2005-08-04. The author offers a reassessment of how women's experience of work in 18th century England was affected by industrialization and other elements of economic, social, and technological change. This study focuses on the household, the most important unit of production in the 18th century. Hill examines the work done by the women of the household, not only in housework but also in agriculture and manufacturing, and explains what women lost as the household's independence as a unit of economic production was undermined. Considering the whole range of activities in which women were involved, including many occupations unrecorded in censuses which have therefore been largely ignored by historians, Hill charts the increasing sexual division of labour and highlights its implications. She also discusses the role of service in husbandry and apprenticeship as sources of training for women and the consequences of their decline. The final part of the book considers how the changing nature of women's work influenced courtship, marriage, and relations between the sexes. Among the topics discussed are the importance of the women's contribution to setting up and maintaining a household, labouring women's attitudes to marriage and divorce, and the customary alternatives to them, and the role of spinsters and widows. The author concludes by asking to what extent the industrial revolution improved the overall position of women and the opportunities open to them. This series aims to re-establish women's history and to challenge the assumptions of much mainstream history. Focusing on the modern period and encouraging perspectives from other disciplines, it seeks to concentrate upon areas of focal importance in the history of Britain and continental Europe. Bridget Hill is the author of *Eighteenth Century Women: An Anthology* and *The First English Feminist*.
