Snake Other Stories:

Snake Sisters and Ghost Daughters Cathy Yue Wang, 2023-08-29 Politics and paradigm shifts underlying contemporary retellings of fantastic traditional Chinese tales Contemporary Chinese film and literature often draw on time honored fantastical texts and tales which were founded in the milieu of patriarchy parental authority heteronormativity nationalism and anthropocentrism Author Cathy Yue Wang examines the processes by which modern authors and filmmakers reshape these traditional tales to develop new narratives that interrogate the ingrained patriarchal paradigm Through a rigorous analysis Wang delineates changes in both content and narrative that allow contemporary interpretations to reimagine the gender politics and contexts of the tales retold With a broad transmedia approach and a nuanced understanding of intertextuality this work contributes to the ongoing negotiation in academic and popular discourse between past and present traditional and contemporary and text and reality in a globalized and postmodern world *Snake Sisters and Ghost Daughters* offers an engaging interdisciplinary investigation of issues at the heart of these traditional tales such as gender and status hierarchy marriage and family life and in group out group distinction Beyond the content of these individual stories Wang ties these narratives together across time using cognitive literary criticism especially affective narratology to shed new light on the adaptation of literary and cultural texts and their sociopolitical contexts Bulletin of the Public

The American Bookseller, 1878 **64 Questions & Answers About Dangerous Animals** Seymour Simon, 2014-06-30 Answers to 64 more questions about the habits and behavior of a variety of wild animals considered to be dangerous and describes the most dangerous animal of all Newly revised and photo illustrated

Snakes, People, and Spirits, Volume One Robert Hazel, 2019-11-05 This two volume publication offers an in depth analysis of ophidian symbolism in Eastern Africa while setting the topic within its regional and historical context namely with regards to the rest of Africa ancient Egypt and Mesopotamia the Greek world ancient Palestine Arabia India and medieval and pre Christian Europe Through the ages most of those areas have connected with Eastern Africa in a broad sense where ophidian symbolism was as rampant and far reaching if not more so as anywhere else on the continent and perhaps in past civilisations Much as in the wider context snakes were held to be long lived closely related to holes caverns trees and water life and death and credited with a liking for milk Even though ophidian symbolism has always been developed out of the outstanding biological and ethological features of snakes the process of symbolisation which plays a crucial role in the elaboration of cultural systems and the shaping of human experience was inevitably at work This first volume deals with snakes as a zoological category snake symbolism as perceived by encyclopaedists and psychologists and ophidian symbolism as it occurred in ancient civilisations It explores the traditional African scene in general with a view to set the scene for a more proximate baseline for comparison The divide between animals and humans was porous and snakes had a more or less equal footing in both the animal realm and the spiritual world Key features of snake symbolism in traditional Eastern Africa are then examined in detail especially phantasmagorical snakes the rainbow serpent snake totems and snake related witches and ritual leaders among others In Eastern Africa the meanings attributed to snakes were multifaceted and paradoxical

Overall the two volumes of this publication show that African snake symbolism broadly echoed the diverse representations of ancient civilisations. The widely acknowledged assimilation of snakes to death and Evil is therefore unrepresentative both historically and culturally.

Snakemaster Austin Stevens, 2019-05-21 Known as the original Snakemaster from his various television shows Austin Stevens is one of the most famous herpetologists in the world. From his show Austin Stevens Snakemaster on Animal Planet to his many appearances in the media Stevens is known as an incredibly smart yet incredibly insane animal lover. In Snakemaster Austin Stevens tells incredible stories of his many run ins with dangerous animals and reptiles. From wrestling with a reticulated python to panicking after being bitten by the infamous Gaboon viper Stevens brings you into his world of wildlife and tells the story of how a boy from Pretoria South Africa became one of the most widely known herpetologists in the world. With incredible photographs taken by Stevens himself you will be able to place yourself in his world from the deserts of Africa to the jungles of Borneo. Sharing incredible stories of his love of animals and nature this one of a kind collection of stories will make you laugh cry and shiver with fear.

National Character in South African English Children's Literature Elwyn Jenkins, 2006 This is the first full length study of South African English youth literature to cover the entire period of its publication from the late nineteenth century to the early twenty first century. What gives this book particular strength is its coverage of literature up to the 1960s which has until now received almost no scholarly attention. Not only is this earlier literature a rewarding subject for study in itself but it also throws light on subsequent literary developments. Jenkins also makes comparisons with American Canadian and Australian children's literature. This book is essential reading for anyone seeking to understand children's literature in the context of adult South African literature and South African cultural history.

In the Land of Tigers and Snakes Huaiyu Chen, 2023-03-21 Animals play crucial roles in Buddhist thought and practice. However many symbolically or culturally significant animals found in India where Buddhism originated do not inhabit China to which Buddhism spread in the medieval period. In order to adapt Buddhist ideas and imagery to the Chinese context writers reinterpreted and modified the meanings different creatures possessed. Medieval sources tell stories of monks taming wild tigers detail rituals for killing snakes and even address the question of whether a parrot could achieve enlightenment. Huaiyu Chen examines how Buddhist ideas about animals changed and were changed by medieval Chinese culture. He explores the entangled relations among animals religions the state and local communities considering both the multivalent meanings associated with animals and the daily experience of living with the natural world. Chen illustrates how Buddhism influenced Chinese knowledge and experience of animals as well as how Chinese state ideology Daoism and local cultic practices reshaped Buddhism. He shows how Buddhism Confucianism and Daoism developed doctrines rituals discourses and practices to manage power relations between animals and humans. Drawing on a wide range of sources including traditional texts stone inscriptions manuscripts and visual culture this
