Risks and Implications of AIDS-HIV Testing in Nontraditional Laboratories and in the Home United States. Congress. House. Committee on Small Business. Subcommittee on Regulation, Business Opportunities, and Energy, 1989 Abstract This hearing examines the potential and the risks of testing for the AIDS HIV virus in nontraditional laboratories settings The licensing of AIDS home tests is the central topic considered at this hearing These kits have a place in the health care industry today They can be used by blood banks by emergency medical technicians and by physicians in their professional offices However government and private industry must guard against their misuse by persons interested primarily in making a quick profit The questions of reliability of the home tests and the use by unqualified personnel are discussed
