defeated They proved the benefit of technique over physical prowess So what is this miracle of the training pitch which has so transformed the game of soccer The beauty of the rondo is its simplicity It is a drill where the objective is to retain possession As rondo drills become more complex this aim might develop It might be about keeping possession in transition or maintaining possession to create a goal scoring opportunity However at its heart is the objective of one side keeping hold of the ball A second key element of a rondo is that the sides are uneven One team has extra players It can take a form as exaggerated as 10 v 1 or as close as 5 v 4 However the point is that some pressure is applied but not so much as to make the drill difficult to perfect Thus confidence grows and in turn touch and vision A rondo is usually a drill that takes place in a limited space typically a circle square or rectangular grid Thus first and second touches are perfected because there is not much time to take many touches Finally and crucially rondos are drills that are fast and fun They involve lots of touches for the players in possession and a real sense of achievement on the rare occasions that the smaller side actually wins back the ball So simple Yet so effective This coaching book celebrates the rondo and offers drills tactics and coaching techniques to help soccer players at any level from the unbounded enthusiasm of Under 6s to the worldly view of veteran teams From the pub side who turn out on a Sunday morning cooked breakfast weighing heavily on their hangover infused stomachs to the champion youth team of the region We can all improve as coaches and players The rondo is the system that enables progress to happen more quickly and efficiently than any other soccer coaching strategy Even if you haven't heard of Rondos before you'll gain a lot from this book Order Now *Coaching Methods in Soccer* - Wayne Harrison Wayne Harrison, Raed Thaher, 2017-04-19 To be effective with their players a coach should be able to change to different coaching methods Whilst we all have our own style some do it quietly some are more demonstrative some are more vocal as long as they do it in a positive manner and create positive results in their players all styles can be effective <https://www.bonanza.com/booths/onsidesoccer> Coaching Style is based on personality temperament our philosophies on how the game should be played and on the ages and abilities of the players we are working with there is no one universal style every coach is different Coaching Method is different the methods you use to coach are important in getting the best out of your players and you should be able to base your coaching around three different methods which can be implemented in various degrees at different times
