

Social Change And The Life Course

Walter R. Heinz, Victor W. Marshall

Social Change And The Life Course:

Social Structures and Human Lives Matilda White Riley, Bettina J. Huber, Beth B. Hess, 1988-09 Social Structures and Human Lives consists of papers from the 1986 American Sociological Association annual meeting selected to reflect the rich and diverse array of conceptual methodological and substantive reports presented there Leading academics and researchers in the field offer information about aging over the life course the relationship between aging and the changing structure of families firms state and society as a whole and implications for equality of opportunity for people of differing age gender race and socioeconomic status A final chapter links selected topics from previous chapters to established sociological concerns and clarifies the broad scope of the book s central theme *Social Change and the Life Course* Matilda W. Riley, 1988-06

Social Change and the Life Course: Sociological lives American Sociological Association. Meeting, 1988 **Social Change and the Life Course** Matilda White Riley, 1988 *Social Dynamics of the Life Course* Walter R. Heinz, Victor W. Marshall, In the last two decades research on the life course has successfully combined and integrated different and rather isolated fields of social concerns such as the labor market family solidarity education employment retirement and social policy It has also developed a special focus on crucial problems of sociological research which includes the understanding of micromacro phenomena the dynamics of social change and international comparisons Contributors to this volume take an international comparative approach in applying the life course theoretical framework to issues of work and career Life course research focuses on the relationship between institutions and individuals across the life span and illuminates the impact of modernization on the shaping of biographies Industrial service societies are characterized by historically new contingencies of living arrangements and biographies These contingencies differ according to the extent to which life course patterns are regulated by social institutions In the continental European context institutional frameworks continue to define the timing and sequencing of transitions across the life course In less regulated market societies like the United States and Great Britain biographies and living arrangements are shaped more by the interaction of markets social networks and individual decisions In active welfare states institutional resources and rules continue to mediate the effects of social change on the life course What the editors and contributors to this fine compendium anticipate is a change on the cultural level toward more equality This trend supports young people and women in particular in their expectations concerning an egalitarian relationship This expectation is not taken for granted from the point of view of the male partner but has to be negotiated in decisionmaking processes as an issue that concerns the couple as a unit Thus the way in which people interact is profoundly impacted by the values and goals of equity demands Walter R Heinz is professor of sociology and social psychology and director Graduate School of Social Sciences University of Bremen Victor W Marshall is professor of sociology and director of the Institute on Aging University of North Carolina at Chapel Hill Carolina *Families, History And Social Change* Tamara K Hareven, Barbara Trepagnier, 2018-03-05 One of the prevailing myths about the American family is that there once existed a

harmonious family with three generations living together and that this ideal family broke down under the impact of urbanization and industrialization. The essays in this volume challenge this myth and provide dramatic revisions of simplistic notions about change in the American family. Based on detailed research in a variety of sources including extensive oral history interviews of ordinary people, these essays examine major changes in family life, dispel myths about the past, and offer new directions in research and interpretation. The essays cover a wide spectrum of issues and topics ranging from the organization of the family and household to the networks available to children as they grow up, to the role of the family in the process of industrialization, to the division of labor in the family along gender lines, and to the relations between the generations in the later years of life. While discussing family relations in the past and revising prevailing notions of social change, these interdisciplinary essays also provide important perspectives on the present.

Social Change and the Life Course Matilda White Riley, 1988

Handbook on Demographic Change and the Lifecourse Jane Falkingham, Maria Evandrou, Athina Vlachantoni, 2020-06-26

This innovative Handbook offers a deeper understanding of the causes and consequences of demographic change across the lifecourse. Chapters highlight major theoretical and methodological advances and present research that sheds light on family dynamics, health, and mobility over the lifecourse, illustrating the implications of lifecourse research for policy and reform.

Social Dynamics of the Life Course Walter R. Heinz, Victor W. Marshall, 2003

In the last two decades, research on the life course has successfully combined and integrated different and rather isolated fields of social concerns, such as the labor market, family, solidarity, education, employment, retirement, and social policy. It has also developed a special focus on crucial problems of sociological research, which includes the understanding of micromacro phenomena, the dynamics of social change, and international comparisons. Contributors to this volume take an international comparative approach in applying the life course theoretical framework to issues of work and career. Life course research focuses on the relationship between institutions and individuals across the life span and illuminates the impact of modernization on the shaping of biographies. Industrial service societies are characterized by historically new contingencies of living arrangements and biographies. These contingencies differ according to the extent to which life course patterns are regulated by social institutions. In the continental European context, institutional frameworks continue to define the timing and sequencing of transitions across the life course. In less regulated market societies like the United States and Great Britain, biographies and living arrangements are shaped more by the interaction of markets, social networks, and individual decisions. In active welfare states, institutional resources and rules continue to mediate the effects of social change on the life course. What the editors and contributors to this fine compendium anticipate is a change on the cultural level toward more equality. This trend supports young people and women in particular in their expectations concerning an egalitarian relationship. This expectation is not taken for granted from the point of view of the male partner but has to be negotiated in decision-making processes as an issue that concerns the couple as a unit. Thus, the way in which

people interact is profoundly impacted by the values and goals of equity demands Walter R Hein is professor of sociology and social psychology and director Graduate School of Social Sciences University of Bremen Victor W Marshall is professor of sociology and director of the Institute on Aging University of North Carolina at Chapel Hill Carolina *Social Change and Human Development* Rainer K Silbereisen,Xinyin Chen,2010-05-26 Today s world is characterized by a set of overarching trends that often come under the rubric of social change In this innovative volume Rainer K Silbereisen and Xinyin Chen bring together for the first time international experts in the field to examine how changes in our social world impact on our individual development Divided into four parts the book explores the major socio political and technological changes that have taken place around the world from post from the rapid upheavals in 1990s Europe to the gradual changes in parts of East Asia and explains how these developments interplay with human development across the lifespan Human Development and Social Change is a useful resource for students and researchers involved in all areas of human development including developmental psychology sociology and education Social Relations and the Life Course G. Allan,G. Jones,2016-01-28 This collection of essays represents some of the most important recent research into changing patterns of family household and community life It brings together some of the leading sociologists in the field to explore how these informal social relationships change over time and the life course It will be essential reading on courses concerned with the family and youth sociology **The Life Course** Stephen J. Hunt,2017-09-16 Dramatic social transformation in Western society over recent decades has had a profound impact on the way the life course is studied While people continue to experience the implications of class gender ethnicity and of course age they are more than ever able to take personal control of their own lives The Life Course considers how in a diverse and uncertain world the previously predictable stages of life are no longer fixed but increasingly open to change Focusing on continuities and change this book looks not only at the different phases of life but also at the transformation of a number of closely related social institutions such as the family education and the workplace Recognising that the established cradle to grave view is now outdated the trajectory from infancy and youth to later and end of life is followed not as a stable object of study but as a starting point for critical analysis This second edition offers an essential overview of the sociology of the life course incorporating both contemporary and conventional perspectives It calls upon current theorising around the life course as well as on up to date empirical research data This thought provoking text is relevant to researchers and students of life course studies and sociology as well as to those in nursing social work and related caring professions Social Change and the Life Course Matilda W. Riley,Bettina J. Huber,Beth B. Hess,1988 *Crime and the Lifecourse* Michael L. Benson,2013 First Published in 2012 Routledge is an imprint of Taylor Francis an informa company **Civil Society Through the Lifecourse** Sally Power,2022-04-14 Challenging conventional thinking leading academics explore how individuals relationships with civil society change over time as different lifecourse events and stages trigger and hinder civic engagement and political participation and highlight the implications for those promoting

greater civic and political engagement **Handbook of the Life Course** Jeylan T. Mortimer, Michael J. Shanahan, 2006-05-30 Mortimer sociology U of Minnesota and Shanahan sociology U of North Carolina at Chapel Hill present a handbook that overviews the theoretical perspectives concepts and methodological approaches that animate life course studies in social psychology Thirty four chapters are organized into sections that discuss variability in life course across historical and cross national settings normative age grading of the life course as reflective of social structures the way life courses reflect social institutions and individual level processes of motivation in the life course Annotation c 2003 Book News Inc Portland OR booknews com *Sociological Lives* Matilda White Riley, 1988-09 Sociological Lives gives the reader a glimpse into the sociology of sociology by presenting autobiographical accounts dealing with varied aspects of the interplay between social structures and human lives The contributors reveal something of how their own sociological lives have been influenced by changing social structures and how in turn their lives are variously located in the structure and history of sociology and marked by societal and intellectual trends spanning nearly a century The introspection and retrospection give the reader rare access to the inner experiences of some of the field's leading scholars as well as their appraisal of sociological trends and their ideas of the shape of future trends The c **Handbook of the Life Course** Michael J. Shanahan, Jeylan T. Mortimer, Monica Kirkpatrick Johnson, 2015-10-26 Building on the success of the 2003 Handbook of the Life Course this second volume identifies future directions for life course research and policy The introductory essay and the chapters that make up the five sections of this book show consensus on strategic next steps in life course studies These next steps are explored in detail in each section Section I on life course theory provides fresh perspectives on well established topics including cohorts life stages and legal and regulatory contexts It challenges life course scholars to move beyond common individualistic paradigms Section II highlights changes in major institutional and organizational contexts of the life course It draws on conceptual advances and recent empirical findings to identify promising avenues for research that illuminate the interplay between structure and agency It examines trends in family school and workplace as well as contexts that deserve heightened attention including the military the criminal justice system and natural and man made disaster The remaining three sections consider advances and suggest strategic opportunities in the study of health and development throughout the life course They explore methodological innovations including qualitative and three generational longitudinal research designs causal analysis growth curves and the study of place Finally they show ways to build bridges between life course research and public policy **Social Change and the Family in Taiwan** Arland Thornton, Hui-Sheng Lin, 1994 Until the 1940s social life in Taiwan was generally organized through the family marriages were arranged by parents for example and senior males held authority In the following years as Taiwan evolved rapidly from an agrarian to an industrialized society individual decisions became less dependent on the family and more influenced by outside forces Social Change and the Family in Taiwan provides an in depth analysis of the complex changes in family relations in a society undergoing

revolutionary social and economic transformation This interdisciplinary study explores the patterns and causes of change in education work income leisure time marriage living arrangements and interactions among extended kin Theoretical chapters enunciate a theory of family and social change centered on the life course and modes of social organization Other chapters look at the shift from arranged marriages toward love matches as well as changes in dating practices premarital sex fertility and divorce Contributions to the book are made by Jui Shan Chang Ming Cheng Chang Deborah S Freedman Ronald Freedman Thomas E Fricke Albert Hermalin Mei Lin Lee Paul K C Liu Hui Sheng Lin Te Hsiung Sun Arland Thornton Maxine Weinstein and Li Shou Yang Handbook of the Life Course Jeylan T. Mortimer, Michael J. Shanahan, 2007-12-14 This comprehensive handbook provides an overview of key theoretical perspectives concepts and methodological approaches that while applied to diverse phenomena are united in their general approach to the study of lives across age phases In surveying the wide terrain of life course studies with dual emphases on theory and empirical research this important reference work presents probative concepts and methods and identifies promising avenues for future research

Getting the books **Social Change And The Life Course** now is not type of inspiring means.
