**Language**

**as a Local Practice** Alastair Pennycook, 2010-04-05 Language as a Local Practice addresses the questions of language locality and practice as a way of moving forward in our understanding of how language operates as an integrated social and spatial activity By taking each of these three elements language locality and practice and exploring how they relate to each other Language as a Local Practice opens up new ways of thinking about language It questions assumptions about languages as systems or as countable entities and suggests instead that language emerges from the activities it performs To look at language as a practice is to view language as an activity rather than a structure as something we do rather than a system we draw on as a material part of social and cultural life rather than an abstract entity Language as a Local Practice draws on a variety of contexts of language use from bank machines to postcards Indian newspaper articles to fish naming in the Philippines urban graffiti to mission statements suggesting that rather than thinking in terms of language use in context we need to consider how language space and place are related how language creates the contexts where it is used how languages are the products of socially located activities and how they are part of the action Language as a Local Practice will be of interest to students on advanced undergraduate and post graduate courses in Applied Linguistics Language Education TESOL Literacy and Cultural Studies

Terry Smith, 2012-08-10 Who gets to say what counts as contemporary art Artists critics curators gallerists auctioneers collectors or the public Revealing how all of these groups have shaped today's multifaceted definition Terry Smith brilliantly shows that an historical approach offers the best answer to the question What is Contemporary Art Smith argues that the most recognizable kind is characterized by a return to mainstream modernism in the work of such artists as Richard Serra and Gerhard Richter as well as the retro sensationalism of figures like Damien Hirst and Takashi Murakami At the same time Smith reveals postcolonial artists are engaged in a different kind of practice one that builds on local concerns and tackles questions of identity history and globalization A younger generation embodies yet a third approach to contemporaneity by investigating time place mediation and ethics through small scale closely connective art making Inviting readers into these diverse yet overlapping art worlds Smith offers a behind the scenes introduction to the institutions the personalities the biennials and of course the works that together are defining the contemporary The resulting map of where art is now illuminates not only where it has been but also where it is going      *Uncommissioned Art* Christine Dew, 2007 Combining beautiful color images from Australia's thriving graffiti and street art culture with analysis of the history and evolution of the scene this illustrated guide discusses the complex issues raised by graffiti's presence in public spaces Increasingly gaining currency as a potent and respected art form worldwide the immediacy and ephemeral nature of street art comments on political and social change and the shape of the urban landscape itself and this collection contributes to the local national and international conversations about art and design popular culture and urban planning      *Space Invaders* Jaklyn Babington, 2010 Off the street and into the gallery this book surveys the past 10 years of Australian street art Playful edgy clever satirical and political street art has significantly altered Australian visual culture over the past decade and has heralded the arrival of a new generation of contemporary artists      **A chi appartiene la città? Sulla dialettica fra street art e diritto** Nicola Alessandro Vecchio, 2017 L'incremento di iniziative festival mostre esposizioni dimostra come il fenomeno della street art abbia raggiunto anche in Italia una portata diffusiva e soprattutto la sua significativa ascesa al rango di arte ufficiale Ma quali sono le caratteristiche di questa forma espressiva che si fonde con il contesto urbano e sociale Quali sono i suoi rapporti con il diritto Quale può essere il contributo del giurista al discorso in oggetto L'autore ci accompagna in un'analisi molto dettagliata in cui si fondono arte comunicazione questioni sociali e istanze giuridiche alle quali cercherò di fornire risposte utilizzando un metodo prevalentemente comparatistico      **Junk** Gillian Whiteley, 2010-11-30 Trash garbage rubbish dross and detritus in this enjoyably radical exploration of Junk Gillian Whiteley rethinks art's historical and present appropriation of junk within our

eco conscious and globalised culture She does this through an illustrated exploration of particular materials key moments and locations and the telling of a panoply of trash narratives Found and ephemeral materials are primarily associated with assemblage object based practices which emerged in the mid 1950s and culminated in the seminal exhibition The Art of Assemblage in New York in 1961 With its deployment of the discarded and the filthy Whiteley argues assemblage has been viewed as a disruptive transgressive artform that engaged with narratives of social and political dissent often in the face of modernist condemnation as worthless kitsch In the Sixties parallel techniques flourished in Western Europe the US and Australia but the idiom of assemblage and the re use of found materials and objects with artist as bricoleur is just as prevalent now This is a timely book that uncovers the etymology of waste and the cultures of disposability within these economies of wealth
