Edward Lear James Williams, James Atherton Williams, 2018 James Williams s account the first book length critical study of the poet since the 1980s sets out to re introduce Lear and to accord him his proper place as a major Victorian figure of continuing appeal and relevance and especially as a poet of beauty comedy and profound ingenuity Prague Olly Komenda-Soentgerath, 1996 Olly Komenda Soentgerath's dramatic story of her experiences as a young woman in post World War II Prague where she was interned because of her German heritage Young Poets of Germany Uli Becker, 1994 Though there was a wall between East and West German literature on the eastern side where only a limited amount of West German writing was available on the western side there was a market for East German literature and it has long been the practice in the West to include East German writing in anthologies of contemporary German literature This anthology presents a kind of photo finish around the time of unification Reverie and Reality Yanning Wang, 2013-12-18 This is a study of Chinese gentry women s poems on the theme of travel written during the late imperial period ca 1600 1911 when Chinese women's literature and culture flourished as never before It challenges the clich d image of completely secluded and immobile women anxiously waiting inside their prescribed feminine space the so called inner quarters for the return of traveling husbands or other male kin The travel poems discussed in this book while not necessarily representative of all of the women writers of this period point to the fact that many of them longed to explore the world through travel as did so many of their male counterparts Sometimes they were able to actualize this desire for travel and sometimes they were forced to resort to imaginary armchair travel In either case women writers often used poetry as a means of recording their experiences or delineating their dreams of traveling outside the inner quarters and indeed sometimes far away from the inner quarters With its promise of adventure and fulfillment and above all a broadening of one s intellectual and emotional horizons travel was an important and until now understudied theme of late imperial women's poetry The Cumulative Book Index ,1992 A world list of books in the English language **Only when the Messengers Come** Olly Komenda-Soentgerath, 1995 Poetics of the Elements in the Human Condition: The Sea Anna-Teresa Tymieniecka, 2012-12-06 Global Romanticism Evan Gottlieb, 2014-12-18 For several decades interest in the British Romantics theorizations and representations of the world beyond their national borders has been guided by postcolonial and more recently transatlantic paradigms GlobalRomanticism Origins Orientations and Engagements 1760 1820 charts a new intellectual course by exploring the literature and culture of the Romantic era through the lens of long durational globalization In a series of wide ranging but complementary chapters this provocative collection of essays by established scholars makes the case that many British Romantics were committed to conceptualizing their world as an increasingly interconnected whole In doing so moreover they were both responding to and shaping early modern versions of the transnational economic political sociocultural and ecological forces known today as globalization The British National
