Butterfly McQueen Remembered Stephen Bourne, 2008 From her memorable role in *Gone With the Wind* to her last big screen appearance opposite Harrison Ford in *The Mosquito Coast* the details of McQueen's life are captured in this book *The Call of the Heart* Bruce Babington, Charles Barr, 2018-11-07 A study of an important but neglected director that fills many gaps and updates our knowledge of a major filmmaker of the silent period and beyond Positif The profusion of research on film history means that there are now few Hollywood filmmakers in the category of Neglected Master but John M Stahl has been stuck in it for far too long His strong association with melodrama and the woman's film is a key to this neglect those

mainstays of popular cinema are no longer the object of critical scorn or indifference but Stahl has until now hardly benefited from this welcome change in attitude His remarkable silent melodramas were either lost or buried in archives while his major sound films such as *Imitation of Life* and *Magnificent Obsession* equally successful in their time have been overshadowed by the glamour of the 1950s remakes by Douglas Sirk Sirk is a far from neglected figure Stahl's much longer Hollywood career deserves attention and celebration in its own right as this book definitively shows Drawing on a wide range of film and document archives scholars from three continents come together to cover Stahl's work as director and also producer from its beginnings during World War I to his death as a still active filmmaker in 1950 Between them they make a strong case for Stahl as an important figure in cinema history and as author of many films that still have the power to move their audiences

At Home and Abroad Elizabeth Shakman Hurd,Winnifred Fallers Sullivan,2021-03-02 From right to left notions of religion and religious freedom are fundamental to how many Americans have understood their country and themselves Ideas of religion politics and the interplay between them are no less crucial to how the United States has engaged with the world beyond its borders Yet scholarship on American religion tends to bracket the domestic and foreign despite the fact that assumptions about the differences between ourselves and others deeply shape American religious categories and identities *At Home and Abroad* bridges the divide in the study of American religion law and politics between domestic and international bringing together diverse and distinguished authors from religious studies law American studies sociology history and political science to explore interrelations across conceptual and political boundaries They bring into sharp focus the ideas people and institutions that provide links between domestic and foreign religious politics and policies Contributors break down the categories of domestic and foreign and inquire into how these taxonomies are related to other axes of

discrimination asking questions such as What and who counts as home or abroad how and by whom are these determinations made and with what consequences Offering a new approach to theorizing the politics of religion in the context of the American nation state *At Home and Abroad* also interrogates American religious exceptionalism and illuminates imperial dynamics beyond the United States
