Love** Liu Jianmei, 2003-09-30 In the aftermath of the May Fourth movement a growing expectation of revolution raised
important intellectual issues about the position of the individual within a society in turmoil and the shifting boundaries of
political and sexual identities The theme of revolution plus love a literary response to the widespread insurrections and
upheaval was first popularized in the late 1920s In her examination of this popular but understudied literary formula Liu
Jianmei argues that revolution and love are culturally variable entities their interplay a complex and constantly changing
literary practice that is socially and historically determined Liu looks at the formulary writing of revolution plus love from the
1930s to the 1970s as a case study of literary politics Favored by leftist writers during the early period of revolutionary

literature it continued to influence mainstream Chinese literature up to the 1970s By drawing a historical picture of the articulation and rearticulation of this theme Liu shows how changes in revolutionary discourse force unpredictable representations of gender rules and power relations and how women s bodies reveal the complex interactions between political representation and gender roles Revolution Plus Love is a nuanced and carefully considered work on gender and modernity in China unmatched in its broad use of literary resources It will be of considerable interest to scholars and students of modern Chinese literature women s studies cultural studies and comparative literature
