experienced practitioner in this field It will provoke much needed thought and discussion Dr Gary Manders Lecturer in Criminology and Sociology University of Bedfordshire Jaswant has executed an excellent contribution towards understanding the current concerns of extremism affecting children and young people A good read for all professionals working in these sectors Mohammed Saleem Director of CMS est 1981 A superb read at last a tangible document that gives those working at the front line with vulnerable young people real insight and knowledge of how serious the issue has become and the impact on keeping our young people safe Christine Matthews Harvey Safeguarding Gang Culture Trainer Registered Children s Home Manager Keys Group      Social Roots of Violent Extremism Liana Maria Daher,Francesco Antonelli,Valeria Rosato,2025-08-02 This volume examines the environments that enable radicalization and extremism today drawing from extensive European research based on the Horizon 2020 project PARTICIPATION Examining theoretical and practical studies the book analyzes how the erosion of institutional integration social participation and political stability among marginalized groups can lead to feelings of deprivation alienation and self victimization In these environments individuals often from disadvantaged or immigrant backgrounds rebuild their identities through extremism finding a sense of belonging in radical and sometimes violent ideas that are easily accessible online The book further sheds light on this paradox of modern extremism while extremists embrace technological tools like digital platforms they reject core modern values such as personal freedom and cultural diversity This volume argues for innovative approaches to radicalization emphasizing prevention through the creation of inclusive social environments and critical dialogue on the role of digital technology in radical movements      **The Challenge of Radicalization and Extremism** ,2022-10-04 This interdisciplinary volume on The Challenge of Radicalization and Extremism Integrating Research on Education and Citizenship in the Context of Migration addresses the need for educational researchers to place their work in a broader social and political context by connecting it to the current and highly relevant issue of extremism and radicalization It is just as important for researchers of extremism and radicalization to strengthen their conceptual links with educational fields especially with education for democratic citizenship as for researchers in education to get more familiar with issues of migration This book meets a current shortage of research that addresses these issues across subjects and disciplines to inform both scientific and professional stakeholders in the educational and social sectors The volume is divided into three parts The first part Foundations provides fundamental research on radicalization and the rejection of democratic values In the second part Analysis of Preconditions within the Educational Context key risk and protective factors against radicalization for young people are explored Finally the third part Approaches for Prevention and Intervention offers concrete suggestions for prevention and intervention methods within formal and informal educational contexts The contributions show how new avenues for prevention can be explored through integrating citizenship education s twofold function to assimilate and to empower      *Domestic Extremist* Peachy Keenan,2023-06-06 Spot on often satirical always insightful contributing editor of The American Mind and mother of a brood

Young People and the Far Right Pam Nilan, 2021-05-10 This book looks at how young people get attracted to the Far Right especially young white men We may never know why a young individual ends up there yet two things are obvious First Far Right propaganda appeals to the fantasy imagination and to the emotions Second supporting the Far Right is a decision often made by digitally networked 15 25 year olds looking for answers and wanting to express their anger However many later become aware of a yawning gulf between the ideal future they envisioned and what happens in the here and now Accounts of the Far Right often focus on terrorist events plots or extreme acts of violence However the emphasis here is on rather ordinary young people and how they get involved in a social movement that promises adventure and belonging The aim is to better understand how their hate practices are framed and channeled by the persuasive discourse of the Far Right

### **Integrating Islam**

Jonathan Laurence, Justin Vaisse, 2007-02-01 Nearly five million Muslims call France home the vast majority from former French colonies in North Africa While France has successfully integrated waves of immigrants in the past this new influx poses a new variety of challenges much as it does in neighboring European countries Alarmists view the growing role of Muslims in French society as a form of reverse colonization they believe Muslim political and religious networks seek to undermine European rule of law or that fundamentalists are creating a society entirely separate from the mainstream Integrating Islam portrays the more complex reality of integration s successes and failures in French politics and society From intermarriage rates to economic indicators the authors paint a comprehensive portrait of Muslims in France Using original research they devote special attention to the policies developed by successive French governments to encourage integration and discourage extremism Because of the size of its Muslim population and its universalistic definition of citizenship France is an especially good test case for the encounter of Islam and the West Despite serious and sometimes spectacular problems the authors see a French Islam slowly replacing Islam in France in other words the emergence of a religion and a culture that feels at home in and is largely at peace with its host society Integrating Islam provides readers with a comprehensive view of the state of Muslim integration into French society that cannot be found anywhere else It is essential reading for students of French politics and those studying the interaction of Islam and the West as well as the general public

**We can!** Agata de Latour, Nina Perger, Ron Salag, Claudio Tocchi, Paloma Viejo Otero, 2017-05-23 Combating hate speech offline and online a new tool to help young people and educators to confront dismantle and replace hateful narratives Online hate speech has become a major form of human rights abuse with serious sometimes tragic consequences

both online and offline Hate speech cannot be allowed to proliferate without being challenged and exposed in its nature prejudicial views on social groups combined with fake news which feed phobias and fears seem attractive as narratives Narratives give a meaning to information presented because they connect with what people believe or want to believe in Their widespread presence online accredits their claims for legitimacy But narratives are rarely the truth and never the whole truth When they are used to oppress people as in hate speech the fundamentals of a pluralistic and democratic society are undermined and the lives and dignity of people are at risk Counter narratives are thus needed to discredit and deconstruct the narratives on which hate speech is based Alternative narratives are also needed to reinforce positive values and perspectives which support human rights and democratic citizenship such as solidarity respect for diversity freedom and equality Young people need to occupy online public space with positive narratives based on hope and love This manual presents communicative and educational approaches and tools for youth and other human rights activists to develop their own counter and alternative narratives to hate speech It is designed for working with young people from the age of 13 and is based on the principles of human rights education and youth participation Anyone can take action against speech By providing insights into hate speech and human rights and a methodology for producing counter narratives We Can makes that action easier more effective and positive The Council of Europe launched the No Hate Speech Movement campaign to mobilise young people for human rights online and to combat hate speech Education plays a central role in the campaign This manual complements Bookmarks A manual for combating hate speech online through human rights education also published by the Council of Europe
