Stevens And The Interpersonal:

Stevens and the Interpersonal Mark Halliday, 2014-07-14 With Wallace Stevens emerging as a father figure for American poetry of the late twentieth century Mark Halliday argues that it is time for this poet of ideas to undergo an ethical critique In this bold accessible reconsideration of Stevens work he insists on the importance of interpersonal relations in any account of human life in the modern world Although Stevens outwardly denies aspects of life that center on such relations as those between friends lovers family members and political constituents Halliday uncovers in his poetry an anxious awareness of the importance of these relations Here we see the difficulties Stevens made for himself in wanting to offer a thoroughly satisfying version of secular spiritual health in the modern world without facing up to the moral and psychological implications of his own interpersonal needs problems and responsibilities The final chapter reveals however an unusually encouraging avuncular attitude toward the reader of the poetry which may be felt to redeem Stevens from the alienation observed earlier Halliday develops his views by way of comparisons between Stevens and other poets especially Thomas Hardy Emily Dickinson Robert Frost and John Ashbery Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Affect, Psychoanalysis, and American Poetry John Steen, 2018-07-12 Poetry has often been defined by its closure its condensation of meaning and value into discrete self referential textual objects Affect Psychoanalysis and American Poetry challenges the dominant metaphor of poetic containers by turning to recent poetic texts that represent the contagious and uncontainable feelings of anxiety grief shame and rage From modernists Wallace Stevens to mid century poets Randall Jarrell Robert Creeley and Ted Berrigan and finally to contemporary practitioners Aaron Kunin and Claudia Rankine John Steen argues that new poetic techniques arise from the poetic productivity of negative affects and that a new model of poetic value can be found in poems that are instead of containers permeable social spaces of intimacy attachment and withdrawal Drawing from object relations psychoanalysis queer theory and affect theory Affect Psychoanalysis and American Poetry finds poetry's singularity in its unique capacity to represent anew the transmissible relational and uncontainable valences of feeling that structure and destabilize social life

Enjoyment Anna-Teresa Tymieniecka, 2013-03-14 Philosophy art criticism and popular opinion all seem to treat the aesthetics of the comic as lightweight while the tragic seems to be regarded with greater seriousness Why this favouring of sadness over joy Can it be justified What are the criteria by which the significance of comedy can be estimated vis vis tragedy Questions such as these underlie the present selection of studies which casts new light on the comic the joyful and laughter itself This challenge to the popular attitude strikes into new territory relating such

matters to the profundity with which we enjoy life and its role in the deployment of the Human Condition In her Introduction Tymieniecka points out that the tragic and the comic might be complementary in their respective sense bestowing modes as well as in their dynamic functions they might both share in the primogenital function of promoting the self individualising progress of human existence For the first time in philosophy laughter mirth joy and the like are revealed as the modalities of the essential enjoyment of life being brought to bear in an illumination of the human condition *The American Love Lyric After Auschwitz and Hiroshima* B. Estrin, 2016-04-30 Citing the massive horrors of the Nazi death camps and the domestic violence behind a woman's suicide Adrienne Rich challenges a fellow poet would it relieve you to decide Poetry doesn't make this happen In this provocative reassessment of the modern American love lyric Barbara L Estrin chronicles the return of three major American poets Wallace Stevens in the late forties and fifties Robert Lowell in the Seventies and Adrienne Rich in the nineties to the mid century catastrophes that gave rise to such thorny questions Through close readings of individual poems and drawing upon the gender and genre theories of Jean Fran ois Lyotard Judith Butler Melanie Klien and Jacques Lacan Estrin counters the usual presuppositions that the lyric remains sequestered in a political isolation and offers a new revisionist critique of American poetry **Interpersonal Behavior in Small Groups** Richard Ofshe, 1887 *Poetry of the Possible* Joel Nickels, 2012 The abstractions of modernism reimaged as figurations of collective self organization

Reader's Guide to Literature in English Mark Hawkins-Dady, 2012-12-06 Reader's Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study **Beautiful Enemies** Andrew Epstein, 2006-09-21 Although it has long been commonplace to imagine the archetypal American poet singing a solitary Song of Myself much of the most enduring American poetry has actually been preoccupied with the drama of friendship In this lucid and absorbing study Andrew Epstein argues that an obsession with both the pleasures and problems of friendship erupts in the New American Poetry that emerges after the Second World War By focusing on some of the most significant postmodernist American poets the New York School poets John Ashbery Frank O Hara and their close contemporary Amiri Baraka Beautiful Enemies reveals a fundamental paradox at the heart of postwar American poetry and culture the avant garde's commitment to individualism and nonconformity runs directly counter to its own valorization of community and collaboration In fact Epstein demonstrates that the clash between friendship and nonconformity complicates the legendary alliances forged by postwar poets becomes a predominant theme in the poetry they created and leaves contemporary writers with a complicated legacy to negotiate Rather than simply celebrating friendship and poetic community as nurturing and inspiring these poets represent friendship as a kind of exhilarating maddening contradiction a site of attraction and repulsion affinity and rivalry Challenging both the reductive critiques of American individualism and the idealized heavily biographical

celebrations of literary camaraderie one finds in much critical discussion this book provides a new interpretation of the peculiar dynamics of American avant garde poetic communities and the role of the individual within them By situating his extensive and revealing readings of these highly influential poets against the backdrop of Cold War cultural politics and within the context of American pragmatist thought Epstein uncovers the collision between radical self reliance and the siren call of the interpersonal at the core of postwar American poetry

On Interpretation Andrew D. Weiner, Leonard V. Kaplan, 2002 This title looks at post structuralist theory to re examine methods of textual interpretation developed in past millennia to understand sacred philosophical cultural legal literary and artistic texts

Unravelling Tort and Crime Matthew Dyson, 2014-07-17 Tort law and criminal law are closely bound together but their relationship rarely receives sustained and rigorous scrutiny This is the first significant project in England and Wales to address that shortcoming Building on growing interest amongst both academics and practitioners in the relationship between tort and crime it draws together leading experts to chart the field and explore key points of interest It uses a range of perspectives from legal theory doctrine legal history and comparative law to address some of the most important and interesting links between tort and crime Examples include how the illegality defence operates to avoid stultification of the law the difference between criminal and civil causation how the Motor Insurers Bureau not only insures but acts to enforce laws and alter behaviour and why civil law only very rarely restores specific property but the criminal law does it daily

New Developments in Goal Setting and Task Performance Edwin A. Locke, Gary P. Latham, 2013 This book concentrates on the last twenty years of research in the area of goal setting and performance at work The editors and contributors believe goals affect action and this volume will have a lineup of international contributors who look at the recent theories and implications in this area for IO psychologists and human resource management academics and graduate students

Diversity Issues in Substance Abuse Treatment and Research Sana Loue, 2007-06-02 Although the term diversity is widely used there is often no agreement as to its meaning or how attention to diversity should be operationalized within the context of programming or research This text provides a foundation for the examination of such issues with suggestions for the integration of various approaches into substance use treatment programs and research The impetus for this work derived from multiple interactions over a period of several years with colleagues students research participants and community based providers who noted the frequent inattention paid to such concerns in the context of treatment and research often despite an acknowledgment of a group's particular historical legacy in the United States and the impact of that history on the initiation and prolongation of substance use within a specific community or the barriers to treatment that may have resulted

Chapter 1 defines what is meant by diversity through an examination of related terms such as culture ethnicity race sex gender and sexual orientation Clearly this discussion does not and cannot reflect all possible permutations of human existence that reflect diversity For instance although the text does make mention of considerations related to religious differences and

cognitive capacity neither is highlighted as a separate topic. Additionally, the emphasis on specific groups is not meant to imply that other groups such as Euro Americans or heterosexual men do not have concerns that may differ from those of other communities and that deserve consideration in the development and implementation of programs and research endeavors. However, trite it may seem, one text cannot do it all.

International Review of Industrial and Organizational Psychology 2006 Gerard P. Hodgkinson, J. Kevin Ford, 2006-05-01 This is the twenty first in the most prestigious series of annual volumes in the field of industrial and organizational psychology. The series provides authoritative and integrative reviews of the key literature of industrial psychology and organizational behaviour. The chapters are written by established experts and topics are carefully chosen to reflect the major concerns in both the research literature and in current practice. Reflecting the ethos of the series as a whole, this twenty first volume provides a scholarly state of the art overview of developments across a diverse range of areas including attribution theory, performance appraisal, women at work, international management, task analysis and qualitative research methods. Each chapter offers a comprehensive and critical survey of the chosen topic and each is supported by a valuable bibliography. For advanced students, academics and researchers as well as professional psychologists and managers, this remains the most authoritative and current guide to new developments and established knowledge in the field of industrial and organizational psychology.

Incredible Modernism John Attridge, 2016-05-23 With the twentieth century came a new awareness of just how much an individual was obliged to accept on trust, and this heightened awareness of social trust in turn prompted new kinds of anxiety about fraudulence and

deception Beginning with the premise that the traditional liberal concept of trust as a bond of society entered a period of crisis around the turn of the twentieth century this collection examines the profound influence of this shift on a wide range of modernist writers including James Joyce Marcel Proust Gertrude Stein Ezra Pound Wyndham Lewis H D Ford Madox Ford Samuel Beckett Ralph Ellison and Wallace Stevens In examining the importance of trust and fraudulence during the period the contributors take up a diverse set of topics related to reception the institutions of modernism the history of authorship the nature of representation authenticity genre social order and politics Taken as a whole *Incredible Modernism* provides concrete historical coordinates for the study of twentieth century trust while also arguing that a problem of trust is central to the institutions and formal innovations of modernism itself *Modern American Literature: P-Z* Joann Cerrito, Laurie DiMauro, 1999 Presents critical excerpts and analyses from a variety of sources that combine to provide overviews of the work of 138 of the most significant authors of the modern period in American literature arranged alphabetically with bibliographies Postwar British Literature and Postcolonial Studies Graham MacPhee, 2011-06-08 Examines the legacy of imperialism and decolonisation globalisation and national identity Graham MacPhee explains how postwar writers blended the experimentalism of prewar modernism with other cultural traditions to represent both the pain and the pleasures of multiculturalism He discusses a wide range of writers from Auden Orwell T S Eliot and Larkin to Linton Kwesi Johnson Tony Harrison Kazuo Ishiguro and Ian McEwan Key Features Explores concepts and critical terms such as British national literature new ethnicities migrancy and hybridity Case studies of postwar texts include Sam Selvon's *The Lonely Londoners* John Arden's *Serjeant Musgrave's Dance* Linton Kwesi Johnson's *Dread Beat an Blood* Tony Harrison's *V* Kazuo Ishiguro's *The Remains of the Day* Leila Aboulela's *Minaret* and Ian McEwan's *Saturday* **Distancing English** Page Richards, 2009 How did fears of cultural inadequacy play out in the English language after American independence and the War of 1812 Like many of his nineteenth century contemporaries essayist Walter Channing suggests that the country's perceived deficiency in literature is due to a crucial overlap with England that is having the same language with a nation totally unlike it in almost every relation In *Distancing English* Page Richards shows how these concerns of language are historically interwoven with the inexpressible Often overlooked the topos of the inexpressible redirects the ventriloquism of the English language From its beginning this topos combines the hyperbole of high expectations with the failure of inadequate words In Charles Brockden Brown or George Tucker it can register deficiency of character on and off the page establishing important strategies of decenteredness also associated with modernism In writers such as Nathaniel Hawthorne Wallace Stevens and John Berryman the inexpressible seizes advantage from disadvantage It runs through literary framing strategies and flexible shaggy dog humor An opening to the 1855 *Leaves of Grass* Walt Whitman's Preface remaps the topos and emerges as a distinguished moment in the articulation of the inexpressible What is it Then Between Us? Eric Murphy Selinger, 1998 What Is It Then between Us marks the appearance of a bright new star in the poetry criticism firmament Eric Murphy

Selinger explores the complex history of American love poetry with panache acumen and scholarly precision His readings of love poems by writers as diverse as Anne Bradstreet Emily Dickinson William Carlos Williams and James Merrill are both nimble and persuasive *Itself written con amore What Is It Then between Us* is a pioneering study of the imaginative ways our poets have recorded the ordeals and pleasures of love in their verse Herbert Leibowitz Editor and Publisher Parnassus Poetry in Review Tracing the solitude of the American self the difference between idolatrous and companionate affection and the dream of an America of love Eric Murphy Selinger shows how such concerns can shape a poet's most intimate decisions about genre and form His lucid elegant prose illuminates not only well known love poets including Emily Dickinson and William Carlos Williams but also more unexpected figures notably Wallace Stevens and Mina Loy Like the poets he discusses Selinger refuses to view love reductively Rather he takes the impulse to debunk love as part of his subject whether it crops up in Puritan theology or contemporary literary theory As he details Whitman's courtship of his readers weighs the restorations of romance in H D and Ezra Pound and demonstrates the bonds between poets as disparate as Robert Creeley and Robert Lowell Selinger establishes love poetry as an essential American genre
