 ,2010 **Nature-based Tourism in Peripheral Areas** Colin Michael Hall, Stephen W. Boyd, 2005-01-01 Nature based
 Tourism in Peripheral Areas provides a comprehensive examination of this form of tourism development as it occurs within
 alpine forest sub polar island coastal and marine environments This book goes beyond much of the debate surrounding
 ecotourism and the impacts of tourism in vulnerable environments to place nature based tourism in a wider regional context
 particularly when for many peripheral regions tourism remains one of the key opportunities for economic development
 Therefore a central theme that is present throughout many of the chapters is the role that nature based tourism can play as
 the catalyst for larger regional development of regions The book will serve as essential reading to senior undergraduate and
 postgraduate students taking courses in tourism and related degrees where the major focus is on tourism that occurs within
 peripheral regions It will also serve as a key reference to researchers and professionals interested in the role of tourism as a
