Ken Koltun-Fromm

Stieglitz A Beginning Light:

Alfred Stieglitz Katherine Hoffman, 2011 Katherine Hoffman presents a comprehensive and provocative study of the life and work of the photographer Alfred Stieglitz focusing on the period from 1915 to his death in 1946 with some introductory material related to his early years His work as photographer editor writer and gallery director are explored in relationship to his personal biography and cultural milieu presenting the complex tapestry that was Stieglitz's life and work This book focuses on the American work issues of identity and the rise of Modernism in America There is discussion of some of his photographs that are rarely illustrated or discussed that give added dimension to an understanding of Stieglitz's total oeuvre The newly opened letters along with the many other letters Stieglitz wrote reveal him to be a man of letters as well as a man with a camera His work as editor and writer of short articles along with his letters illustrate a strong literary side of Stieglitz discussed in the book that balanced his visual work Stieglitz's life and work may be seen as a significant continuum that progressed from his early European work to his final photographic images taken at Lake George and in New York City Stieglitz was a complicated and complex man revered and idolized by a community of loyal followers and at the same time despised and hated by some As the critic Robert Hughes has written of Stieglitz Beyond the personality and the myths that have grown up around Stieglitz some self-made some through the power of the press it is in the end the work that is perhaps most important and enduring It is that work along with its fundamental ideas and inspirations that is the focus of this book illustrating that Stieglitz has indeed left a lasting legacy of light

Photography after Postmodernism David

Bate, 2022-08-19 In life after postmodernism our conception of photography is not the same as before Photography After Postmodernism starts with this conception and explores what changes have affected photography its relation to social life and our image-centred culture Engaging with the visual environment and issues that have emerged in the postmodern world David Bate introduces fresh approaches and analysis of photographs and their place within the aftermath of postmodernist thought The book shows how photographs circulate in an image world beyond their art or media origins that deeply affects our sense of time and relation to memory The role of archives dreams memories and time are deployed to develop and resituate arguments about photography made by Roland Barthes in *Camera Lucida* to further engage and understand our contemporary condition By considering how afterwordness is invoked in the developments of modern and contemporary photography Bate demonstrates the complex ways in which photographic images resonate across public and private spaces while carrying a slippage of meaning that is never quite fixed yet always contingent and social The approach shows how modernist photography was already invested in values that its discourse could not enunciate which resonates with much contemporary photography today Featuring a range of historical and contemporary images the book offers detailed and innovative readings of specific photographs which open new avenues of thought for those studying and researching visual culture and photography

Contact Zones Justin Carville, Sigrid Lien, 2021-06-17 Since the mid nineteenth century

photography has played a central role in cultural encounters within and between migrant communities in the United States. Migrant histories have been mediated through the photographic image and the cultural practices of photography have themselves been transformed as migrant communities mobilise the photographic image to navigate experiences of cultural dislocation and the forging of new identities. Exploring photographic images and the cultural practices of photography as contact zones through which cultural exchange and transformation takes place, this volume addresses the role of photography in migrant histories in the United States from the mid nineteenth century to today. Taking as its focal point photography's role in shaping migrant experiences of cultural transformation and how migrant experiences have reconfigured culturally differentiated practices of photography, case studies on migration from Europe, Central America and North America position photography as entwined with cultural histories of migration and cultural transformation in the United States.

Thinking Jewish Culture in America Ken Koltun-Fromm, 2013-12-11. *Thinking Jewish Culture in America* argues that Jewish thought extends our awareness and deepens the complexity of American Jewish culture. This volume stretches the disciplinary boundaries of Jewish thought so that it can productively engage expanding arenas of culture by drawing Jewish thought into the orbit of cultural studies. The eleven contributors to *Thinking Jewish Cultures* together with Chancellor Arnold Eisen's postscript position Jewish thought within the dynamics and possibilities of contemporary Jewish culture. These diverse essays in Jewish thought re-imagine cultural space as a public and sometimes contested performance of Jewish identity and they each seek to re-enliven that space with reflective accounts of cultural meaning. How do Jews imagine themselves as embodied actors in America? Do cultural obligations limit or expand notions of the self? How should we imagine Jewish thought as a cultural performance? What notions of peoplehood might sustain a vibrant Jewish collectivity in a globalized economy? How do programs in Jewish studies work within the academy? These and other questions engage both Jewish thought and culture, opening space for theoretical works to broaden the range of cultural studies and to deepen our understanding of Jewish cultural dynamics. *Thinking Jewish Culture* is a work about Jewish cultural identity reflected through literature, visual arts, philosophy and theology. But it is more than a mere reflection of cultural patterns and choices; the argument pursued throughout *Thinking Jewish Culture* is that reflective sources help produce the very cultural meanings and performances they purport to analyze.

Dada Culture, 2016-08-01. How Dada is to break its cultural accommodation and containment today necessitates thinking the historical instances through revised application of critical and theoretical models. The volume *Dada Culture: Critical Texts on the Avant Garde* moves precisely by this motive, bringing together writings which insist upon the continuity of the early twentieth century moment now at the start of the twenty first. Engaging the complex and contradictory nature of Dada strategies instanced in the linguistic gaming and performativity of the movement's initial formation and subsequently isolating the specific from the general with essays focusing on Ball, Tzara, Serfer, Hausmann, Dix, Heartfield, Schwitters, Baader, Cravan and the exemplary Duchamp, the political philosophy of the avant garde

is brought to bear upon our own contemporary struggle through critical theory to comprehend the cultural usefulness relevance validity and effective or otherwise oppositionality of Dada's infamous anti stance The volume is presented in sections that progressively point towards the expanding complexity of the contemporary engagement with Dada as what is often exhaustive historical data is forced to rethink realign and reconfigure itself in response to the analytical rigour and exercise of later twentieth century animal anarchic thought the testing and cultural placement of thoughts upon the virtual and the eventual implications for the once blissfully unproblematic idea of expression From the opening provocative proposition that historically Dada may have been the falsest of all false paths the volume rounds to dispute such condemnation as demarcation continues not only of Dada's embeddedness in western culture but more precisely of the location of Dada culture Ten critical essays by Cornelius Partsch John Wall T J Demos Anna Schaffner Martin I Gaughan Curt Germundson Stephen C Foster Dafydd Jones Joel Freeman and David Cunningham are supplemented by the critical bibliography prepared by Timothy Shipe which documents the past decade of Dada scholarship and in so doing provides a valuable resource for all those engaged in Dada studies today *Clarence H. White and His World* Anne

McCauley, 2017-01-01 Restoring a gifted art photographer to his place in the American canon and in the process reshaping and expanding our understanding of early 20th century American photography Clarence H White 1871 1925 was one of the most influential art photographers and teachers of the early 20th century and a founding member of the Photo Secession This beautiful publication offers a new appraisal of White's contributions including his groundbreaking aesthetic experiments his commitment to the ideals of American socialism and his embrace of the expanding fields of photographic book and fashion illustration celebrity portraiture and advertising Based on extensive archival research the book challenges the idea of an abrupt rupture between prewar soft focus idealizing photography and postwar modernism to paint a more nuanced picture of American culture in the Progressive era *Clarence H White and His World* begins with the artist's early work in Ohio which shares with the nascent Arts and Crafts movement the advocacy of hand production closeness to nature and the simple life White's involvement with the Photo Secession and his move to New York in 1906 mark a shift in his production as it grew to encompass commercial portraiture and an increasing commitment to teaching which ultimately led him to establish the first institutions in America to combine instruction in both technical and aesthetic aspects of photography The book also incorporates new formal and scientific analysis of White's work and techniques a complete exhibition record and many unpublished illustrations of the moody outdoor scenes and quiet images of domestic life for which he was revered
