Stiffed Betrayal Of Modern Man:

Stiffed Susan Faludi, 2000-09-19 One of the most talked about books of last year the Pulitzer Prize winning author of *Backlash* now explores the collapse of traditional masculinity that has left men feeling betrayed With *Backlash* in 1991 Susan Faludi broke new ground when she put her finger directly on the problem bedeviling women and the light of recognition dawned on millions of her readers what's making women miserable isn't something they're doing to themselves in the name of independence It's something our society is doing to women The book was nothing less than a landmark Now in *Stiffed* the author turns her attention to the masculinity crisis plaguing our culture at the end of the 90s an era of massive layoffs Angry White Male politics and Million Man marches As much as the culture wants to proclaim that men are made miserable or brutal or violent or irresponsible by their inner nature and their hormones Faludi finds that even in the world they supposedly own and run men are at the mercy of cultural forces that disfigure their lives and destroy their chance at happiness As traditional masculinity continues to collapse the once valued male attributes of craft loyalty and social utility are no longer honored much less rewarded Faludi's journey through the modern masculine landscape takes her into the lives of individual men whose accounts reveal the heart of the male dilemma *Stiffed* brings us into the world of industrial workers sports fans combat veterans evangelical husbands militiamen astronauts and troubled bad boys whose sense that they've lost their skills jobs civic roles wives teams and a secure future is only one symptom of a larger and historic betrayal

New Soviet Man John Haynes, 2024-07-30 Cinema has long been recognised as the privileged bridge between Soviet ideologies and their mass public Recent feminist oriented work has drawn out the symbolic role of women in Soviet culture but not surprisingly men too were expected to play their part In this first full length study of masculinity in Stalinist Soviet cinema John Haynes examines the *New Soviet Man* not only as an ideal of masculinity presented to Soviet cinemagoers but also precisely as a man in his specific and hotly debated social cultural and political context A detailed analysis of Stalinist discourse sets the stage for an examination of the imagined relationship between the patriarch Stalin and his model sons in the key genre cycles of the era from the capital to the collective farms and ultimately to the very borders of the Soviet state Informed by contemporary and present day debates over the social and cultural significance of cinema and masculinity *New Soviet Man* draws on a range of theoretical and comparative material to produce engaging and accessible readings accounting for both the appeal of and the inherent potential for subversion within films produced by the Stalinist culture industry *New Soviet Man* will be widely read by students and specialists in the fields of film studies Russian and Soviet studies gender and modern European history

Consumer Culture, Branding and Identity in the New Russia Graham Roberts, 2016-04-14 As shopping has been transformed from a chore into a major source of hedonistic pleasure a specifically Russian consumer culture has begun to emerge that is unlike any other This book examines the many different facets of consumption in today's Russia including retailing advertising and social networking Throughout emphasis is placed on the

inherently visual not to say spectacular nature both of consumption generally and of Russian consumer culture in particular Particular attention is paid to the ways in which brands both Russian and foreign construct categories of identity in order to claim legitimacy for themselves What emerges is a fascinating picture of how consumer culture is being reinvented in Russia today in a society which has one nostalgic eye turned towards the past and the other utopian eye set firmly on the future Borrowing concepts from both marketing and cultural studies the approach throughout is interdisciplinary and will be of considerable interest to researchers students and practitioners wishing to gain invaluable insights into one of the most lucrative and exciting of today s emerging markets

portrayed as one that invests in and is part of a discourse of reproductive futurism This plays out across a range of genres including rom coms fantasy sci fi drama and disaster By exploring both blockbuster and more low budget films of the 1990s Barnett explores the figure of the father against the crisis of masculinity in the United States and indeed more globally at this time

The 21st Century Media (r)evolution Jim Macnamara, 2010 The emergence of new media and social media is widely discussed in contemporary society However media and public communication are mostly analyzed within particular theoretical frameworks and within specific disciplinary fields Such approaches have created polarized views on media and communication and fail to create an understanding of the interdependencies between these fields This book expertly synthesizes competing theories and disciplinary viewpoints integrates scholarly and cutting edge research and examines international data from fast growing markets including China to provide a comprehensive holistic view of the twenty first century r evolution in media and public communication The book identifies how the changes are located in practices rather than technologies and that these practices are emergent in highly significant ways Engaging and accessible the book is essential reading for media scholars and communication professionals and a valuable text for courses in media studies journalism advertising public relations and organisational and political communication

masculinities uses grounded examples of the job market and domestic violence to set his theoretical discussion. He argues that there is a need for more dialogue on men and masculinities between disciplines and considers the validity of the concerns and anxieties which surround masculinity in the contemporary world through a range of key topics including the new man, the new lad and men's movements, men's masculinity and violence, marginalized masculinities, black masculinity and gay male sexuality, queer theory, performativity and fashion, cinema representation and the body. One of the most comprehensive and progressive studies of modern masculinity available, this book will be essential reading for students of gender culture and sociology.

Extra-Ordinary Men Nicola Rehling, 2010-06-21. Extra Ordinary Men analyzes popular cinematic representations of white heterosexual masculinity as the ordinary form of male identity, one that enjoys considerable economic, social, political and representational strength. Nicola Rehling argues that while this normative position affords white heterosexual masculinity ideological and political dominance, such ordinariness also engenders the anxiety that it is a depthless, vacuous and unstable identity. At a time when the neutrality of white heterosexual masculinity has been challenged by identity politics, this insightful volume offers lucid accounts of contemporary theoretical debates on masculinity in popular cinema and explores the strategies deployed in popular films to reassert white heterosexual male hegemony through detailed readings of films as diverse as *Fight Club*, *Boys Don't Cry* and *The Matrix*. Accessible to undergraduates but also of interest to film scholars, the book makes a distinctive contribution to our understanding of the ways in which popular film helps construct and maintain many unexamined assumptions about masculinity, gender, race and sexuality.

Masculinity and Film Performance D. Peberdy, 2011-07-19. A lively and engaging study of on-screen and off-screen performances of masculinity, focusing on well-known male actors in American film and popular culture in the 1990s and 2000s. Peberdy examines specific social, cultural, historical and political contexts that have affected age, race, sexuality and fatherhood on screen.

Feminism and Men Nikki van der Gaag, 2014-08-14. Feminism has changed the world; it is radically reshaping women's lives. But what about men? They still hold most of the power in the economy, in government, in religions, in the media and often in the family too. At the same time, many men are questioning traditional views about what it means to be a man. Others resent the gains women have made and want to turn back the clock. Nikki van der Gaag asks the question: how might feminism improve the lives of men as well as women? And is there a place for men in the feminist story?
