Hollywood or History? Sarah J. Kaka, 2022-01-01 The rationale for the present text *Hollywood or History* An Inquiry Based Strategy for Using Film to Teach About Inequality and Inequity Throughout History stems from two main things First and foremost is the fact that the reviews of the first two volumes in the *Hollywood or History* series have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioners Classroom utility and teacher practice have continued to be the primary objectives in developing the *Hollywood or History* strategy The second thing is that this most recent volume in the series takes it in a new direction rather than focusing on eras in history it focuses on the themes of inequity and inequality throughout history and how teachers can utilize the *Hollywood or History* strategy to tackle some of the more complicated content throughout history that many teachers tend to shy away from There is a firm belief that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching challenging topics such as inequity and inequality in terms of gender race socioeconomic status and so much more The book provides 30 secondary lesson plans grades 6 12 that address nine different topics centered around inequity and inequality throughout history many of which connect students to the world we are living in today The intended audience for the book are teachers who teach social studies at the 6th 12th grade level both in the United States and other countries An additional audience will be college and university social studies history methods professors in the United States and worldwide

Why Black Lives Matter Anthony B. Bradley, 2020-10-21 Beginning with a conversation prompted by African American scholars like Dr Alvin Poussaint of Harvard Medical School in 2007 to the current Black Lives Matter movement there has been much debate about what led to the deaths of Trayvon Martin and Michael Brown among others as well as other systemic challenges that undermine black thriving Anthony Bradley has assembled a team of scholars and religious leaders to provide a distinctly Christian perspective on what is needed for black communities to thrive from within In addition to the social and structural issues that must be addressed within black communities there are opportunities for social change based on God's vision for human flourishing Covering topics like the black family hip hop mental health mentoring women masculinity and the church this book will open your eyes to fresh ways to participate in solutions that will truly set black America free Although the Black Lives Matter movement keeps the church on the margins the authors in this volume believe that enduring change cannot happen unless God speaks directly to these issues in light of the gospel This is a revised edition of an earlier book Keeping Your Head Up With contributions from Vincent Bacote Bruce Fields Rev Howard Brown Ralph C Watkins Rev Eric M Mason Rev Lance Lewis Rev Anthony Carter Ken Jones Natalie Haslem Rev Ken Jones Rihana Mason Yvonne RB Banks
