Seventeenth-Century Resolve John L. Lievsay, 2021-05-11 Among the literary innovations of the seventeenth century a period of rich development in English prose was the resolve Generally of religious inspiration the resolve was intended as the instrument of reform of private and public morals to assist in attaining individual perfection and in establishing the ideal Christian state John L. Lievsay has brought together an anthology of resolves from the pens of eighteen writers some like Bishop Joseph Hall and Owen Feltham familiar names to students of English literature and others virtually unknown Despite its popularity as a literary form during the seventeenth century the resolve quickly declined in influence and died an untimely death Lievsay sketches the history of this once well known form and provides critical and comparative evaluations of the writers and their works Until now the only resolve writer anthologized since the seventeenth century has been Owen Feltham admittedly the best of the resolvers but according to Lievsay not greatly superior to Hall Daniel Tuvill or Francis Rous Together the selections in this volume offer a comprehensive view of a significant yet little known development in English letters *Second Chance King of The Gates* R. RICHARD, 2015-01-15 Justin Imperiale is running his Kingdoms He has also

found a way to create interstellar Gates that allow a person to walk from planet to planet Suddenly an enormous sea creature is sighted off of his Kingdom of The Islands Justin has to figure a way to deal with the beast Justin then figures a way to take revenge on those who dumped the sea beast in Corin His Kingdom of Mesodania is attacked by revolutionaries led by one who calls himself the True Prophet Justin finds a way to fight back with model airplanes He then discovers that the Mesodanian revolutionaries were armed by the North Continent nation of Pors Justin then figures a way to take revenge on those who armed the revolutionaries Justin is then confronted by a young lady with paranormal powers The incident leads him to realize that Arvion is still after him and leads to the discovery of spies The nation of Ruthenia provides most of the natural gas used to heat homes and generate electricity in the Old World North Continent nations Suddenly Ruthenia wants to double the price of their natural gas Justin figures a way to provide replacement natural gas for his North Continent Kingdoms However if he can figure out how to supply the other North Continent nations he can probably acquire several

more North Continent Kingdoms in return for solving the problem Justin does find a source for natural gas but lacks a way to get to the source However he thinks back to something that Arvion his enemy does and just maybe Justin can figure out how to do the same thing Any solution will involve the understanding of higher dimensional spaces above the three physical spaces in which the people of Corin live Along the way Justin figures out how to set up a perfect prison His solution is cheap and escape proof However he then has to deal with pipeline bandits One night Justin is again visited by a ghost or at least a creature who lives in higher dimensional space The ghost reviews some of what Justin has done and tells Justin that some of the powerful beings who live in higher dimensional space are not too happy with him The American Bee Keeper ,1902

The Empire of the Self Christopher Star,2012-09-07 In The Empire of the Self Christopher Star studies the question of how political reality affects the concepts of body soul and self Star argues that during the early Roman Empire the establishment of autocracy and the development of a universal ideal of individual autonomy were mutually enhancing phenomena The Stoic ideal of individual empire or complete self command is a major theme of Seneca s philosophical works The problematic consequences of this ideal are explored in Seneca s dramatic and satirical works as well as in the novel of his contemporary Petronius Star examines the rhetorical links between these diverse texts He also demonstrates a significant point of contact between two writers generally thought to be antagonists the idea that imperial speech structures reveal the self James Ker University of Pennsylvania **Lesser Living Creatures of the Renaissance** Keith Botelho,Joseph Campana,2023-01-06 Lesser Living Creatures examines literary and cultural texts from early modern England in order to understand how people in that era thought about and with insect and arachnid life The conversations in this two volume set address the collaborative multigenerational research that produced early modern natural history and provide new insights into the old question of what it means to be human in a world populated by beasts large and small Volume 2 Concepts explores ideas that cut across species insect and otherwise both building on and invigorating critical vocabularies developed over nearly two decades of early modern animal studies The contributors explore topics such as the medical and culinary consumption of insects extermination campaigns the auditory and emotive effects of a swarm insects and politics and notions of infestation stinging and creeping Throughout they illuminate how early modern science and literature worked as intersecting systems of knowledge production about the natural world and show definitively how insect life was and remains intimately entangled with human life In addition to the editors contributors to this volume include Lucinda Cole Frances E Dolan Lowell Duckert Andrew Fleck Rebecca Laroche Jennifer Munroe Amy L Tigner Jessica Lynn Wolfe Derek Woods and Julian Yates **Visible Spirit** Irving Lavin,2006-12-31 As early as the 1950s Professor Irving Lavin was recognized as a major voice in American art history His sustained production of seminal scholarly contributions have left their mark on an astonishingly wide range of subjects and fields Bringing these far reaching publications together will not only provide a valuable resource to scholars and students but will also underscore fundamental themes in the history of art historicism the

art of commemoration the relationship between style and meaning the intelligence of artists themes that define the role of the visual arts in human communication Irving Lavin is best known for his array of fundamental publications on the Baroque artist Gian Lorenzo Bernini 1598 1680 These include new discoveries and studies on the master's prodigious childhood his architecture and portraiture his invention of caricature his depictions of religious faith and political leadership his work in the theatre his attitude toward death and the role of the artist in the creation of a modern sense of social responsibility All of Professor Lavin's papers on Bernini are here brought together in three volumes The studies have been reset and in many cases up dated and there is a comprehensive index *Schwann Spectrum* ,1995 *Me Inside Out* Kimberlyn J.

Elysia Malcolm Chester,2012-07 Courtney looked at her small drab room and sighed Her dolls sat in a corner along with her warrior princess outfit sword and shield She spent countless hours playing with these toys one moment giving tea to her dolls and the next fighting her friends as the warrior princess While her real world life had become a much better place since she had visited Elysia every night she still missed her earlier childhood when she and both her parents spent so much time together She lived in a happy world then one filled with family parties trips to the movies and parks and just time spent quietly together Then the anger and the darkness came Her father and mother suddenly lost their jobs and the arguments started soon after Her mom found work at another company but her dad did not find a new job Then one day after a long argument the police came and took her dad away Courtney had seen him only once from afar since that terrible day In her mind she journeyed back to this time Courtney lay in her bed waiting for sleep to come Just a few months ago Courtney had been able to fall asleep as soon as her head hit the pillow When sleep finally came this night Courtney found herself in front of an elaborate wrought iron gate with a large sign reading Elysia set amid the swirling pieces of iron The sun shone very brightly birds sang happily and sweet flower smells escaped from the spaces between the iron bars of the fence The place looked very much like illustrations in her books but instead of being pictures on a page or the more fuzzy parts of the dreams she remembered this place seemed very real to her as real as the life she ordinarily led Even in her eleven year old mind Courtney knew this place could not exist but nonetheless she stood here **What They Say in New England** ,1896

The Ruler's House Harriet Fertik, 2019-12-03 How Romans used the world of the house to interpret and interrogate the role of the emperor The Julio Claudian dynasty beginning with the rise of Augustus in the late first century BCE and ending with the death of Nero in 68 CE was the first ruling family of the Roman Empire Elite Romans had always used domestic space to assert and promote their authority but what was different about the emperor's house In *The Ruler's House* Harriet Fertik considers how the emperor's household and the space he called home shaped Roman conceptions of power and one man rule While previous studies of power and privacy in Julio Claudian Rome have emphasized the emperor's intrusions into the private lives of his fellow elites this book focuses on Roman ideas of the ruler's lack of privacy Fertik argues that houses were spaces that Romans used to contest power and to confront the contingency of their own and others' claims to rule Describing how the Julio Claudian period provoked anxieties not only about the ruler's power but also about his vulnerability she reveals that the ruler's house offered a point of entry for reflecting on the interdependence and intimacy of ruler and ruled Fertik explores the world of the Roman house from family bonds and elite self display to bodily functions and relations between masters and slaves She draws on a wide range of sources including epic and tragedy historiography and philosophy and art and architecture and she investigates shared conceptions of power in elite literature and everyday life in Roman Pompeii Examining political culture and thought in early imperial Rome *The Ruler's House* confronts the fragility of one man rule

The Book of the Knight Zifar Charles L. Nelson, 2014-07-15 The Book of the Knight Zifar or Cifar Spain's first novel of chivalry is the tale of a virtuous but unfortunate knight who has fallen from grace and must seek redemption through suffering and good deeds Because of a curse that repeatedly deprives him of that most important of knightly accoutrements his horse Zifar and his family must flee their native India and wander through distant lands seeking to regain their rank and fortune A series of mishaps divides the

family and the novel follows their separate adventures alternatively heroic comic and miraculous until at length they are reunited and their honor restored The anonymous author of Zifar based his early fourteenth century novel on the medieval story of the life of St Eustacius but onto this trunk he grafted a surprising variety of narrative types Oriental tales of romance and magic biblical stories moralizing fables popular since the Middle Ages including several from Aesop and instructions in the rules of proper knightly conduct Humor in the form of puns jokes and old proverbs also runs through the novel In particular the foolish wise Knave offers a comic contrast to the heroic Knight whom he must continually rescue through the application of common sense Zifar was to have an important influence on later Spanish literature and perhaps on Cervantes great tale of a knight and his squire Don Quixote All those with an interest in Spanish literature and medieval life will be grateful for Mr Nelson s excellent translation which brings to life this extraordinary early novel *School Library Journal* ,1993 New Catholic World ,1920 **Catholic World** ,1920
