space making in a context of labor exploitation Volume 18, Tome VI: Kierkegaard Secondary Literature Jon Stewart,2017-02-24 In recent years interest in the thought of Kierkegaard has grown dramatically and with it the body of secondary literature has expanded so quickly that it has become impossible for even the most conscientious scholar to keep pace The problem of the explosion of secondary literature is made more acute by the fact that much of what is written about Kierkegaard appears in languages that most Kierkegaard scholars do not know Kierkegaard has become a global phenomenon and new research traditions have emerged in different languages countries and regions The present volume is dedicated to trying to help to resolve these two problems in Kierkegaard studies Its purpose is first to provide book reviews of some of the leading monographic studies in the Kierkegaard secondary literature so as to assist the community of scholars to become familiar with the works that they have not read for themselves The aim is thus to offer students and scholars of Kierkegaard a comprehensive survey of works that have played a more or less significant role in the research Second the present volume also tries to make accessible many works in the Kierkegaard secondary literature that are written in different languages and thus to give a glimpse into various and lesser known research traditions The six tomes of the present volume present reviews of works written in Catalan Chinese Czech Danish Dutch English Finnish French Galician German Greek Hebrew Hungarian Italian Japanese Norwegian Polish Portuguese Romanian Russian Slovak Spanish and Swedish Doing Academic Careers Differently Sarah Robinson,Alexandra Bristow,Olivier Ratle,2023-07-28 Should academic careers always unfold in exactly the same way Is there one best way of being an academic This book says no Assumptions about who academics are and what they should do are becoming increasingly narrow and focused on achieving so called excellence in teaching and research above anything else This book problematises this and explores the scope for doing academic careers differently Authors paint individual or group portraits of their academic careers working with metaphors which challenge the dominant discourses of how academic careers should be led From rejecting the pressure to focus on one big thing to prioritising nurture and care transcending disciplinary boundaries reshaping own daily practice connecting with communities and being academics outside academia the chapters in this book offer those considering starting or developing an academic career a treasure trove of many alternative possibilities Presented as a portrait gallery through which readers are encouraged to meander at will this compilation of insights into alternative academic lives will help to inspire and encourage current academics to re think and take ownership of their careers in their own terms according to their own strengths weaknesses and circumstances *Selected Non-Fictions* Jorge Luis Borges,2000-11-01 Winner of the National Book Critics Circle Award in Criticism The first comprehensive selection in any language of the non fiction much of it appearing here in English for the first time of one of literature s most fertile and original minds San Francisco Chronicle A Penguin Classics Deluxe Edition with flaps and deckle edged paper It will come as a surprise to many readers that the greater part of Jorge Luis Borges s extraordinary writing was not in the genres of fiction or poetry but in various forms of non fiction prose His
