Tempest In A Teapot:

Tempest in a Teapot William M. Milton, 1947 *Affect and Emotion in Human-Computer Interaction* Christian Peter, Russell Beale, 2008-08-25 Affect and emotion play an important role in our everyday lives. They are present wherever we do, wherever we are, and wherever we go without us being aware of them for much of the time. When it comes to interaction, be it with humans, technology, or humans via technology, we suddenly become more aware of emotion, either by seeing the other's emotional expression or by not getting an emotional response while anticipating one. Given this, it seems only sensible to explore affect and emotion in human-computer interaction to investigate the underlying principles, to study the role they play, to develop methods to quantify them, and to finally build applications that make use of them. This is the research field for which, over ten years ago, Rosalind Picard coined the phrase 'affective computing'. The present book provides an account of the latest work on a variety of aspects related to affect and emotion in human-technology interaction. It covers theoretical issues, user experience, and design aspects, as well as sensing issues and reports on a number of affective applications that have been developed in recent years. *Tempest in a teapot* Judy Baer, 1984 *Tempest in a Teapot* Kate Valent, 2002-05-02 Charlotte loves tea as much as the next person, but she never expected a magical teapot to choose her husband. When eccentric businessman and magician Martin Steepe hosts a tea party to find a wife, Charlotte doesn't expect to be chosen. After all, she's only a baker's daughter, aspiring to be a penny blood author, and the Steepes want to marry into nobility. Except he does choose her. With enchanted tea leaves. Unfortunately for Charlotte, he doesn't even know her name, let alone that she isn't nobility. And she isn't entirely certain having the same favorite tea is a good basis for a marriage. As their awkward courtship evolves, she finds herself falling for Mr Steepe's honesty, his charming magic, and the tea he sells. But then his cousin discovers the truth of her standing and refuses to let Martin marry a commoner. With the fate of the Steepe family fortune at stake, he is determined to end the engagement through whatever magical and non-magical means necessary. If she doesn't put an end to his scheming, he will ruin her engagement. If the truth doesn't first. *The Cambridge Shakespeare Library: Shakespeare criticism* Catherine M. S.
