**Temptations of Faust** Evelyn Cobley,2002-01-01 A theoretical analysis of the conceptual paradigms that allowed German fascism at once continuous and discontinuous with the emancipatory ambitions of modernity to emerge in a highly civilized nation

**World Fascism** Cyprian Blamires,2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale World Fascism A Historical Encyclopedia covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal

Theorizing Modern Society as a Dynamic Process Harry F. Dahms, Lawrence Hazelrigg,2012-10-29 Emphasis is placed in Continental European social theory and on the importance of political analyses to theorizing modern societies This title focuses on dynamic processes that gave way to illuminate structural features of modern social life

Australian Music and Modernism, 1960-1975 Michael Hooper,2019-10-31 Drawing on newly available archival material key works and correspondence of the era Australian Music and Modernism defines Australian Music as an idea that emerged through the lens of the modernist discourse of the 1960s and 70s At the same time that the new Australian Music was distinctive of the nation it was also thoroughly connected to practices from Europe and shaped by a new engagement with the music of Southeast Asia This book examines the intersection of nationalism and modernism at this formative time During the early stages of Australian Music there was disagreement about what the idea itself ought to represent and indeed whether the idea ought to apply at all Michael Hooper considers various perspectives offered by such composers as Peter Sculthorpe Richard Meale and Nigel Butterley and analyzes some of the era's significant works to articulate a complex understanding of Australian Music at its inception

*Reading Adorno* Amirhosein Khandizaji,2019-06-27 This book draws on core concepts coined by Adorno such as identity thinking the culture industry and his critique of the autonomous and rational subject to address the ills that plague neoliberal capitalist societies today These ills range from the risk of a return to totalitarian tendencies to the global rise of the far right and anti feminist conceptions of motherhood Subsequent chapters outline the

ways in which Adorno's thought can also be seen to redress the challenges of modern societies such as the critical function of artworks and the subversive potential of slow food and popular music. The important underlying concern of the book is to highlight the continuing relevance of Adorno both in dealing with the failures of neo liberal capitalist societies and in his applicability to a wide range of disciplines. *Habermas and Literature* Geoff Boucher, 2021-06-03 Although Habermas has written about the cultural role of literature and about literary works he has not systematically articulated a literary critical method as a component of either communicative reason or post metaphysical thinking. Habermas and Literature brings Habermasian concepts and categories into contact with aesthetic and cultural theories in and around the Frankfurt School and beyond. Its central claim is that Habermas's contribution to literary and cultural criticism is the concept of literary rationality and the notion that literature performs a key role in the formation of the modern social imaginary. Habermas and Literature maintains that literary works have two faces: discursive intervention in the public sphere and personal integration of imaginative disclosures that depend upon two modalities of literary reception: critique and identification. It develops the resulting literary theory through detailed discussion of the theories advanced by Habermas followed in each case by synthetic and reconstructive argumentation that brings the framework of communicative reason into dialogue with literary methods, aesthetic theories and psychoanalytic categories. It does so through close engagement with debates around aesthetic rationality, world disclosure, social imaginaries, post secular society and the utopian demand for happiness articulated by artworks. In the process the Habermasian position is critically reconstructed when necessary with reference to psychoanalytic and literary theories and tested in relation to demanding fiction and popular works. Modernism at the Microphone Melissa Dinsman, 2015-09-24 As the Second World War raged throughout Europe, modernist writers often became crucial voices in the propaganda efforts of both sides. *Modernism at the Microphone: Radio Propaganda and Literary Aesthetics During World War II* is a comprehensive study of the role modernist writers' radio works played in the propaganda war and the relationship between modernist literary aesthetics and propaganda. Drawing on new archival research, the book covers the broadcast work of such key figures as George Orwell, Orson Welles, Dorothy L. Sayers, Louis MacNeice, Mulk Raj Anand, T. S. Eliot and P. G. Wodehouse. In addition to the work of Anglo-American modernists, Melissa Dinsman also explores the radio work of exiled German writers such as Thomas Mann as well as Ezra Pound's notorious pro fascist broadcasts. In this way the book reveals modernism's engagement with new technologies that opened up transnational boundaries under the pressures of war. *Weimar on the Pacific* Ehrhard Bahr, 2008-08-08 In the 1930s and 40s LA became a cultural sanctuary for a distinguished group of German artists and intellectuals including Thomas Mann, Theodor W. Adorno, Bertolt Brecht, Fritz Lang and Arnold Schoenberg who were fleeing Nazi Germany. This book is the first to examine their work and lives.
