that How could i not remember such a thing and What the hell is wrong with me Our brains seem a little stupid ignorant and very clumsy sometimes Why is it that we are led by so many temptations Are they really that impossible to circumvent Most of us live without using our potential There are at least 50 gray matter temptations It s true we have a very demanding biology She wants constant pleasure because that means survival She has billions of years of evolution with many whims It is difficult to face it Really I don t think so
