Hearing Is Believing Elisa Medhus,2004 HEARING IS BELIEVING demonstrates that the words we say to children can have a profound positive or negative effect and it goes on to show readers how a few simple changes in parenting language can reward them with family harmony turn parenting into a joy rather than a burden and help them rear children with healthy self esteem This book suggests we can teach children how to think for themselves and learn to be rewarded with acceptance as a consequence of their contribution rather than needing acceptance and conforming Dr Medhus offers changes in language and parent child communication that are simple to implement and continue to use The results are immediately gratifying many who have made these changes say they see profound effects in their children and their families within two weeks Once these harmful phrases and their effects are exposed for what they really are they re easy to eliminate from our daily dialogue HEARING IS BELIEVING offers better and more empowering alternatives for each phrase as well as stories that illustrate the results Parents will be rewarded with a fulfilling and
