

# Ten Steps To Achieving Your Personal Goals

Why should anyone have goals anyway, I sometimes hear people ask. Well there are quite a few reasons, but to put it in a nutshell, goal setting really does help you to plan and when you have a plan you can do something about it and that is what helps make dreams become your reality – putting a plan into action. It is all in the doing! The process of setting goals helps you choose where you want to go in life. By knowing precisely what you want to achieve, you know where you have to concentrate your efforts. You'll also quickly spot the distractions that would otherwise lure you from your course.

## 1. What exactly do you want? Define your Goal

Is your goal clearly defined with a specific plan of action? Is it important to you personally? Is it within your power to make happen? Is it something you have a reasonable chance of achieving?

Are you clear about what is important for you in your life? Do you make your choices based on this? Is your goal something YOU really want or is it something you think or you've been told you should want?

You can only achieve your goals if you are totally clear on exactly what it is you want.

So... what exactly do you want?

## 2. How strong is your desire? Determine the Strength of Your Desire

Do your goals inspire and energize you?

On a scale of 1 -10, with 1 being very weak and 10 being "I'd do anything to achieve this goal", how strong is your desire?

The greater your desire, the stronger your inner drive to action towards that goal.

So... on a Scale of 1-10, how strong is your desire?

## 3. Have you written down your goals? Write It Down

Have you put your goal on paper and made it official? Did you know that only 3 % of people write down their goals, and of those 3%, 80% of them actually achieve their goals? Are you one of the 80%? Writing down your goal is your declaration that You Want It! Be specific. Place it where you will see it several times a day. So...have you written down your goals?

## 4. Can You See & Feel Yourself Having What You Want? Define All The Ways You Will Benefit From Reaching Your Goal.

Can you visualize yourself having arrived at your goal? Where are you? How is your life different? What are you doing? How do you feel? Be specific. The more benefits you can envision, the more energized and inspired you will feel and the greater the pull that goal will have on you. See & feel yourself already there. Use the power of that vision to fuel your actions.

So... can you see & feel yourself having what you want?

## 5. Where are you now? Determine Your Starting Point
