Elizabeth Cleghorn Gaskell,2016-01-14 CHAPTER I The Dressmaker s Apprentice at Work There is an assize town in one of the eastern counties which was much distinguished by the Tudor sovereigns and in consequence of their favour and protection attained a degree of importance that surprises the modern traveller A hundred years ago its appearance was that of picturesque grandeur The old houses which were the temporary residences of such of the county families as contented themselves with the gaieties of a provincial town crowded the streets and gave them the irregular but noble appearance yet to be seen in the cities of Belgium The sides of the streets had a quaint richness from the effect of the gables and the stacks of chimneys which cut against the blue sky above while if the eye fell lower down the attention was arrested by all kinds of projections in the shape of balcony and oriel and it was amusing to see the infinite variety of windows that had been

crammed into the walls long before Mr Pitt's days of taxation The streets below suffered from all these projections and advanced stories above they were dark and ill paved with large round jolting pebbles and with no side path protected by kerb stones there were no lamp posts for long winter nights and no regard was paid to the wants of the middle class who neither drove about in coaches of their own nor were carried by their own men in their own sedans into the very halls of their friends The professional men and their wives the shopkeepers and their spouses and all such people walked about at considerable peril both night and day The broad unwieldy carriages hemmed them up against the houses in the narrow streets The inhospitable houses projected their flights of steps almost into the carriage way forcing pedestrians again into the danger they had avoided for twenty or thirty paces Then at night the only light was derived from the glaring flaring oil lamps hung above the doors of the more aristocratic mansions just allowing space for the passers by to become visible before they again disappeared into the darkness where it was no uncommon thing for robbers to be in waiting for their prey **RUTH**

Elizabeth Gaskell, 2017-12-09 Ruth is a young orphan girl working in a respectable sweatshop for the overworked Mrs Mason She is selected to go to a ball to repair torn dresses At the ball she meets the aristocratic Henry Bellingham a rake figure who is instantly attracted to her They meet again by chance and form a secret friendship which is frowned upon by Mrs Mason who dismisses Ruth Henry and Ruth go on holiday to Wales together where Henry falls sick with fever When Henry's mother finds out about their relationship she forces him to abandon Ruth leaving her some money But they don't know that Ruth is pregnant Elizabeth Gaskell 1810-1865 was an English novelist and short story writer Her novels offer a detailed portrait of the lives of many strata of Victorian society including the very poor and are of interest to social historians as well as lovers of literature Some of Gaskell's best known novels are Cranford North and South and Wives and Daughters The Works of Elizabeth Gaskell, Part II vol 6 Joanne Shattock, Angus Easson, 2017-09-29 Features Elizabeth Gaskell's work This work brings together her journalism her shorter fiction which was published in various collections during her lifetime her early personal writing including a diary written between 1835 and 1838 when she was a young mother her five full length novels and The Life of Charlotte Brontë Conspicuous Silences Ruth Rosaler, 2016-10-06 How are a reader's perceptions of a plot impacted by its presentation through textual clues rather than explicit narration and why would an author choose this comparatively indirect mode of narration Conspicuous Silences answers these questions by examining Victorian novels in which pivotal events are left inexplicit for hundreds of pages at a time but are nonetheless evident to the reader The clarity with which readers understand these inexplicit plot lines is evidenced by their ability to follow the progression of narratives that rely heavily on the inexplicit content being detected without this reader comprehension these narratives would be deemed incoherent In linguistics communications that depend on a hearer's or reader's inference rather than their decoding the explicit content of an utterance are termed implicatures Conspicuous Silences explores the impact that central sustained implicatures have on a reader's experience of a novel It also discusses how authors may generate those implicatures by

exploiting the reader's assumption of narratorial omniscience and the correlated reader assumption of a narrative's fictionality. Reliance on such sustained fictionality related implicatures is fairly ubiquitous. Conspicuous Silences concentrates on texts by Elizabeth Gaskell, George Eliot, Charles Dickens, Frances Trollope, Anthony Trollope, Wilkie Collins, and M. E. Braddon. It examines the use of implicature in communicating impolite topics, communicating character psychology, and in fashioning a playful narrative tone. This work contributes to Victorian literary scholarship, narratological discussions about narratorial omniscience and fictionality, and pragmatic stylistic debates about fictionality and the use of implicature.

**Crossings in Text and Textile** Katherine Joslin, Daneen Wardrop, 2015-01-06 *Crossings in Text and Textile* explores the diverse range of transatlantic representations of clothing in nineteenth and early twentieth century literature. This collection of essays demonstrates that fashion history and literary history when examined together prompt fresh understandings of the complexities of race, class, and sexual identity. By bridging material culture and discourse, *Crossings* establishes the significance of fashion while neglecting none of its aesthetic appeal to offer historicized readings on a variety of topics from Jane Austen's nuanced display of social interactions through the economics of muslin to the 1871 Park and Boulton cross-dressing trial and Jessie Fauset's selection of apparel to express racial power. The geographic span of textiles from different economic areas around the globe includes Asia, Africa, Europe, and North America. By making use of transatlantic texts to consider the political and social positioning of both workers and consumers, the collection further expands upon the emerging cross-disciplinary study of reading dress. A true state of the field work, *Crossings in Text and Textiles* charts new scholarly ground at the nexus between fashion, textiles, and literature, appealing to a broad interdisciplinary audience of scholars and students.
