him as a Romantic as well as a Victorian exploring both the poems and the pressures of his era and the personal relationships that made the man

The Letters of Alfred Lord Tennyson, 1851-1870 Alfred Tennyson Baron Tennyson, 1987-07 The first volume of The Letters of Alfred Lord Tennyson showed the young man becoming a poet and recorded the experiences out of which so much of his poetry was forged that culminated in three personal triumphs marriage In Memoriam and the Poet Laureateship Volume II reveals the gradual emergence of a new and different Tennyson moving confidently among the great and famous the intellectual political and artistic elite yet remaining very much a son of Lincolnshire whose childlike simplicity of manner strikes all who meet him As a young man he was obliged to be paterfamilias of his father's family now he has a family of his own with two sons reaching manhood two houses and two lives one in London and the other at home Through the letters we learn something about his poetry including Maud and The Idylls of the King much about his dealings with publishers and even more about his travels in Scotland Wales Cornwall Norway Switzerland Auvergne Brittany the Pyrenees and it is clear that all that he met became part of him and of his poetry By the close of this volume he is one of the two or three most famous names in the English speaking literary world The edition includes an abundance of letters to and about Tennyson as well as by him and its generous annotation has been commended by reviewers for its range and wit *The Arnoldian*, 1986

Alfred Tennyson Leonee Ormond, 1993-10-15 Throughout his long working life Tennyson was experimenting with new forms and subjects Widely read in a range of disciplines he responded to many of the personalities events and discoveries of the Victorian age Still widely regarded as an apologist for the establishment Tennyson was always an outsider Scourged by reviewers and haunted by his own nervous disposition Tennyson endured years of despair Even when the tide turned in 1850 Tennyson remained a stern critic of his contemporaries

The Poet's Mind Gregory Tate, 2012-11-08 The Poet's Mind is a comprehensive study of the ways in which Victorian poets thought and wrote about the human mind It argues that these poets used their writing both to express psychological processes of thought and feeling and to subject those processes to scrutiny and analysis *Lives of Victorian Literary Figures, Part I, Volume 3* Matthew Bevis, Ralph Pite, Gail

Marshall, Corinna Russell, 2024-05-17 Collected here are the biographies which revealed aspects of their subjects that the more favourable official accounts tended to hide The life of the author of each text is described and their relation to the writers they portray is sketched in [Victorian Sensation](#) James A. Secord, 2024-05-31 Fiction or philosophy profound knowledge or shocking heresy When *Vestiges of the Natural History of Creation* was published anonymously in 1844 it sparked one of the greatest sensations of the Victorian era More than a hundred thousand readers were spellbound by its startling vision an account of the world that extended from the formation of the solar system to the spiritual destiny of humanity As gripping as a popular novel *Vestiges* combined all the current scientific theories in fields ranging from astronomy and geology to psychology and economics The book was banned it was damned it was hailed as the gospel for a new age This is where our own public controversies about evolution began In a pioneering cultural history James A Secord

uses the story of *Vestiges* to create a panoramic portrait of life in the early industrial era from the perspective of its readers. We join apprentices in a factory town as they debate the consequences of an evolutionary ancestry. We listen as Prince Albert reads aloud to Queen Victoria from a book that preachers denounced as blasphemy vomited from the mouth of Satan. And we watch as Charles Darwin turns its pages in the flea ridden British Museum library fearful for the fate of his own unpublished theory of evolution. Using secret letters, Secord reveals how *Vestiges* was written and how the anonymity of its author was maintained for forty years. He also takes us behind the scenes to a bustling world of publishers, printers and booksellers to show how the furor over the book reflected the emerging industrial economy of print. Beautifully written and based on painstaking research, *Victorian Sensation* offers a new approach to literary history, the history of reading and the history of science. Profusely illustrated and full of fascinating stories, it is the most comprehensive account of the making and reception of a book other than the Bible ever attempted. Winner of the 2002 Pfizer Award from the History of Science Society.

Pound, Frost, Moore, and Poetic Precision Barry Ahearn, 2020-02-04

Pound, Frost, Moore and Poetic Precision: Science in American Modernist Poetry examines three major poets in light of the demand that poetry aspire to scientific precision. The critical insistence that poetry be precise affected every one of these poets and looking at how they responded to this insistence offers a new perspective on their achievements and by extension twentieth century poetry in general. Ezra Pound sought to associate poetry with the precision of modern science, technology and mathematics as a way to eliminate or reduce error. Robert Frost however welcomed imprecision as a fundamental aspect of existence that the poet could use. Marianne Moore appreciated the value of both precision and imprecision especially with respect to her religious perspective on human and natural phenomena. By analyzing these particular poets' reaction to the value placed on precision, Barry Ahearn explores how that emphasis influenced the broader culture, literary culture and twentieth century Modernist American poetry.

2010 Outstanding Academic Title Choice Magazine

Charles Darwin and his revolutionary ideas inspired pundits the world over to put pen to paper. In this unique dictionary of quotations, Darwin scholar Thomas Glick presents fascinating observations about Darwin and his ideas from such notable figures as P. T. Barnum, Anton Chekhov, Mahatma Gandhi, Carl Jung, Martin Luther King, Mao Tse-tung, Pius IX, Jules Verne and Virginia Woolf. What was it about Darwin that generated such widespread interest? His *Origin of Species* changed the world. Naturalists, clerics, politicians, novelists, poets, musicians, economists and philosophers alike could not help but engage his theory of evolution. Whatever their view of his theory, however, those who met Darwin were unfailingly charmed by his modesty, kindness, honesty and seriousness of purpose. This diverse collection drawn from essays, letters, novels, short stories, plays, poetry, speeches and parodies demonstrates how Darwin's ideas permeated all areas of thought. The quotations trace a broad conversation about Darwin across great distances of time and space, revealing his profound influence on the great thinkers of the nineteenth and
