Tense Commandments Pietro S. Nivola, 1996-02-29 During the past decade dozens of large cities lost population as jobs and people kept moving to the suburbs Despite widespread urban revitalization and renewal one fact remains unmistakable when choosing where to live and work Americans prefer the suburbs to the cities Many underlying causes of the urban predicament are familiar disproportionate poverty stiff city tax rates and certain unsatisfactory municipal services most notably public schools Less recognized is the distinct possibility that sometimes the regulatory policies of the federal government the rules and rulings imposed by its judges bureaucrats and lawmakers further disadvantage the cities ultimately burdening their ability to attract residents and businesses In *Tense Commandments* Pietro S Nivola encourages renewed reflection on the suitable balance between national and local domains He examines an array of directive or supervisory methods by which federal policymakers narrow local autonomy and complicate the work urban governments are supposed to do Urban taxpayers finance many costly projects that are prescribed by federal law A handful of national rules bore down on local governments before 1965 Today these governments labor under hundreds of so called unfunded mandates Federal aid to large cities has lagged behind a profusion of mandated expenditures at times straining municipal budgets Apart from their fiscal impacts Nivola argues various federal prescriptions impinge on local administration of routine services tying the hands of managers and complicating city improvements Nivola includes case studies of six cities Baltimore Philadelphia New York Chicago San Francisco and Los Angeles He describes the politics of paternalism the political pressures that federal regulations place on governance Then he offers comparisons with various political systems abroad including Germany the U K France and Italy As the nation and its cities brace f

Tense Commandments Pietro S. Nivola, 2002-08-21 Despite widespread urban revitalization and renewal Americans still prefer the suburbs to the cities While many of the underlying causes of the urban predicament are familiar there is also the less recognized possibility that regulatory policies of the federal government disadvantage the cities and ultimately burden their ability to attract residents and businesses This book encourages renewed reflection on the suitable balance between national and local domains

City Douglas W. Rae, 2008-10-01 How did neighborhood groceries parish halls factories and even saloons contribute more to urban vitality than did the fiscal might of postwar urban renewal With a novelist s eye for telling detail Douglas Rae depicts the features that contributed most to city life in the early urbanist decades of the twentieth century Rae s subject is New Haven Connecticut but the lessons he draws apply to many American

cities City Urbanism and Its End begins with a richly textured portrait of New Haven in the early twentieth century a period of centralized manufacturing civic vitality and mixed use neighborhoods As social and economic conditions changed the city confronted its end of urbanism first during the Depression and then very aggressively during the mayoral reign of Richard C Lee 1954 70 when New Haven led the nation in urban renewal spending But government spending has repeatedly failed to restore urban vitality Rae argues that strategies for the urban future should focus on nurturing the unplanned civic engagements that make mixed use city life so appealing and so civilized Cities need not reach their old peaks of population or look like thriving suburbs to be once again splendid places for human beings to live and work The Oxford Handbook of State and Local Government Donald P. Haider-Markel,2014-04 The Oxford Handbook of State and Local Government covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions behaviour and policy in the American context **City Power** Richard Schragger,2016-09-01 Reigning theories of urban power suggest that in a world dominated by footloose transnational capital cities have little capacity to effect social change In City Power Richard C Schragger challenges the existing assumptions arguing that cities can govern but only if we let them In the past decade city leaders across the country have raised the minimum wage expanded social services and engaged in social welfare redistribution These cities have not suffered capital flight In fact many are experiencing an economic renaissance Schragger argues that city policies are not limited by the demands of mobile capital but instead by constitutional restraints serving the interests of state and federal officials Maintaining weak cities is a political choice In this new era of global capital the power of cities is more relevant to citizen well being than ever before A dynamic vision of city politics for our new urban age City Power reveals how cities can govern despite these constitutional limits and why we should want them to **Hometown Inequality** Brian F. Welcoming New Americans? Abigail Fisher Williamson,2018-09-21 Even as Donald Trump s election has galvanized anti immigration politics many local governments have welcomed immigrants some even going so far as to declare their communities sanctuary cities that will limit cooperation with federal immigration authorities But efforts to assist immigrants are not limited to large politically liberal cities Since the 1990s many small to mid sized cities and towns across the United States have implemented a range of informal practices that help immigrant populations integrate into their communities Abigail Fisher Williamson explores why and how local governments across the country are taking steps to accommodate immigrants sometimes despite serious political opposition Drawing on case studies of four new immigrant destinations Lewiston Maine Wausau Wisconsin Elgin Illinois and Yakima Washington as well as a national survey of local government officials she finds that local capacity and immigrant visibility influence whether local governments take action to respond to immigrants State and federal policies and national political rhetoric shape officials framing of immigrants thereby influencing how municipalities respond Despite the devolution of federal immigration enforcement and the increasingly polarized national debate local officials face on balance distinct legal and economic incentives to welcome immigrants that the public does not necessarily share Officials efforts to promote incorporation can therefore result in backlash unless they carefully attend to both aiding immigrants and increasing public acceptance Bringing her findings into the present Williamson takes up the question of whether the current trend toward accommodation will continue given Trump s anti immigrant rhetoric and changes in federal immigration policy **Demanding Logic in Politics** Jason Krueger MPA,Dianna Contreras Krueger

Red and Blue Nation? Pietro S. Nivola, David W. Brady, 2008-04-01 A Brookings Institution Press and the Hoover Institution publication America's polarized politics are largely disconnected from mainstream public preferences This disconnect poses fundamental dangers for the representativeness and accountability of government as well as the already withering public trust in it As the 2008 presidential race kicks into gear the political climate certainly will not become less polarized With important issues to address including immigration policy health care and the funding of the Iraq war it is critical that essential policies not be hostage to partisan political battles Building upon the findings of the first volume of Red and Blue Nation Brookings 2006 which explored the extent of political polarization and its potential causes this new volume delves into the consequences of the gulf between red states and blue states The authors examine the impact of these political divisions on voter behavior Congressional law making judicial selection and foreign policy formation They shed light on hotly debated institutional reform proposals including changes to the electoral system and the congressional rules of engagement and ultimately present research supported policies and reforms for alleviating the underlying causes of political polarization While most discussion of polarization takes place in separate spheres of journalism and academia Red and Blue Nation brings together a unique set of voices with a wide variety of perspectives to enrich our understanding of the issue Written in a broad accessible style it is a resource for anyone interested in the future of electoral politics in America Contributors include Marc Hetherington and John G.
