Roberto de Miguel Pascual

Teoría De La Comunicación Humana:

Teoría de la comunicación humana Paul Watzlawick, Janet Beavin Bavelas, Don D. Jackson, 2011-01-01 Los autores miembros del equipo que trabajó diez años en Palo Alto California con Gregory Bateson estudian aquí la pragmática de la comunicación interpersonal La comunicación es considerada como una relación cualitativamente diferente de las propiedades de los individuos que participan en ella Después de definir ciertos conceptos generales los autores presentan las características básicas de la comunicación humana e ilustran sus manifestaciones y sus posibles perturbaciones Los distintos aspectos de la teoría son ejemplificados mediante un análisis de la pieza Quiéreme a Virginia Woolf de Edward Albee Se analiza la importancia especial de la paradoja y la contradicción en la comunicación humana tanto desde el punto de vista de la patología como de la terapia La conducta perturbada es vista como una reacción comunicacional ante una situación que tiene determinadas propiedades y no como una enfermedad localizada en la mente del individuo Se discute también la famosa teoría del doble vínculo sobre la esquizofrenia y se ejemplifica la situación contradictoria que caracteriza al doble vínculo en unas variadas situaciones interpersonales incluida la psicoterapia En el último capítulo se establece una comparación entre la teoría de la comunicación y el punto de vista existencial Dentro de la nueva literatura sobre los fenómenos de la comunicación humana este libro está ya en camino de convertirse en un clásico

Teorías de la comunicación Miquel Rodrigo Alsina, 2025-01-17 Las teorías de la comunicación se han consolidado desde un pluralismo teórico como una de las líneas de investigación y uno de los ámbitos de docencia más importantes de las ciencias sociales En el libro se puede ver cómo las teorías de la comunicación aportan un pensamiento riguroso y creativo en el estudio de la comunicación y a la vez se delimita el objeto de estudio en constante reconstrucción

Fundamentos de la comunicación humana Roberto de Miguel Pascual, 2010-03-04 El lector de esta obra tiene ante sí no sólo un compendio ordenado de conocimientos de ámbito científico de la comunicación sino también una valiosa guía de interpretación de su entorno social y de su propia conducta Se trata además de una herramienta pedagógica que proporciona una mejor comprensión de la comunicación como un área de estudio eminentemente práctica cuyo dominio puede mejorar sus capacidades en el entorno profesional de los mass media En estas páginas se sintetizan muchas de las aportaciones teóricas que ha suscitado nuestro comportamiento comunitario Con ello no se pretende proporcionar respuestas definitivas a las cuestiones que plantean los actos comunicativos en los que nos involucramos cotidianamente se trata en cambio de promover una autorreflexión basada en el elenco de soluciones tentativas que proponen los teóricos de la comunicación humana y secundariamente de ofrecer los recursos adicionales que orienten estos conocimientos hacia la vertiente aplicada relativa a las destrezas verbales y no verbales que se le asumen al comunicador de masas

Teoría de la comunicación. Tomo I Luciano H. Elizalde, Arturo Fitz Herbert, 2023-11-01 ¿Cómo funciona la comunicación humana? ¿Cómo podemos entender mejor el funcionamiento de la comunicación para poder utilizarla estratégicamente? ¿Qué debemos saber para ser comunicadores más efectivos? La comunicación tiene una relevancia muy grande para las organizaciones y sociedades actuales sin embargo su funcionamiento se comprende poco. A pesar de los avances tecnológicos en muchos ámbitos prevalece un modelo rudimentario sobre la comunicación humana basado en el esquema lineal emisor-mensaje-receptor. No sorprende entonces que la gestión de la comunicación suponga tantas expectativas frustradas y errores no forzados. En este primer tomo sobre teoría de la comunicación que aborda temas como el funcionamiento cooperativo de la comunicación, la construcción de relaciones, los procesos de interpretación y los efectos de los medios, los autores proporcionan una mirada original sobre los mecanismos fundamentales de la comunicación. A partir de su experiencia como docentes y consultores introducen conceptos que permiten una comprensión profunda sobre el modo en que la comunicación opera.

Horizontes de la comunicación: teoría y práctica en la era digital, La comunicación en su dimensión social, política, cultural y económica constituye uno de los pilares fundamentales de las sociedades contemporáneas. A medida que avanzamos en el siglo XXI su papel como estructura articuladora de sentidos, mediadora de relaciones y puntal en la creación de procesos políticos de transformación se ha intensificado impulsado por la evolución tecnológica, la globalización informativa y la emergencia de nuevas prácticas culturales. Dentro de este contexto las marcas entendidas como construcciones simbólicas que articulan valores, relatos e identidades han adquirido un protagonismo creciente en el ecosistema comunicativo. Lejos de ser meros instrumentos de diferenciación comercial se han convertido en agentes culturales que influyen en la agenda pública, el comportamiento social y las dinámicas mediáticas. La comunicación humana Jeremiah O'Sullivan-Ryan, 1996 La comunicación humana en general. El proceso de la comunicación. Medios de comunicación. Consecuencias de la comunicación.
