Teoría Transcultural Del Arte:

Teoría transcultural del arte Adolfo Colombres, 2005 El autor pretende elaborar una teoría transdisciplinaria del arte desde la periferia considerando que la estética occidental no ha confrontado sus conceptos y modelos con los de otros pueblos y ha preferido imponerlos como un discurso hegemónico que no ha servido generalmente para comprender la producción simbólica ajena sino para oscurecerla para borrar o devaluar los sentidos que los otros habrían construido a lo largo de una historia a menudo milenaria

Creating Inclusive Knowledges Christopher C. Sonn, Alison M. Baker, 2019-07-23 There has been a growing interest in the role of arts and cultural practice in tackling perennial forms of social exclusion marginalization and oppression Researchers and educators from different disciplines have been collaborating with community based agencies and community groups to forge new ways to challenge these forms of exclusion This volume discusses how various social actors work in interdisciplinary and cross institutional ways to push an agenda that privileges those individuals and groups who experience and live at the front line of social inequality discrimination racism and oppression For instance what new understandings are generated through creative interdisciplinary action oriented work and the implications for social action and transformation How are community pedagogies constructed and communicated through arts based research contemporary and innovative mediums such as creative performances arts technologies mixed cultural practices and social media and networking This collection of articles blurs the lines between cultural practice and knowledge production with the process and products coming in the forms of

theories creative methodologies and a range of arts Together these act as powerful pedagogical tools for engaging in social justice and transformative work The contributions further highlight the multifaceted and diverse ways of creating and disseminating knowledge and the attempts to decenter text based ways of communicating in hopes of sharing collaborative knowledge beyond the academy and engaging the public This volume was originally published as a special issue of the International Journal of Inclusive Education Antropología del imaginario Jean-Jacques Wunenburger,2008 Cine, antropología y colonialismo Adolfo Colombres,2005 Cosmovisiones y sistemas religiosos Alcántara, Manuel,García Montero, Mercedes,Sánchez López, Francisco,2018-07-01 El Comit Organizador del 56 Congreso Internacional de Americanistas ICA publica las actas del encuentro celebrado en la Universidad de Salamanca el 15 al 20 de julio de 2018 Bajo el lema Universalidad y particularismo en las Am ricas reflexion sobre la dial ctica entre la universalidad y los particularismos en la producci n de conocimiento un di logo en el que la necesidad de conocer los particularismos de los fen menos sociales pol ticos art sticos y culturales obliga a formular nuevas hip tesis que enriquecen y replantean las grandes teor as generales de las ciencias y las humanidades El car cter interdisciplinario e inclusivo que ha caracterizado al ICA desde su inicio en 1875 como un congreso de estudios de rea en sentido completo hace a n m s significativa esa din mica de producci n de conocimiento Con un planteamiento interdisciplinario e inclusivo ICA re ne a investigadores que estudian el continente americano desde Alaska hasta Tierra de Fuego incluyendo el territorio del Caribe a partir del an lisis de su pol tica econom a cultural lenguas historia y prehistoria As el Comit Organizador les invit participar en el an lisis y la reflexi n sobre las especificidades de las Am ricas y el Caribe con el objetivo de enriquecer las grandes teor as generales *La Città Altra. Storia E Immagine Della Diversità Urbana: Luoghi E Paesaggi Dei Privilegi E Del Benessere, Dell'isolamento, Del Disagio, Della Multiculturalità. Ediz. Italiana E Inglese* Francesca Capano,Maria Ines Pascariello,Massimo Visone,2018-10 This volume proposes a rich corpus of papers about the Other City a subject only few times dealt with but worthy of all our attention it imposes itself on the scene of international modern and contemporary historiography for its undeniable topicality Throughout history the city has always had to deal with social otherness i e with class privileges and consequently with discrimination and marginalization of minorities of the less well off of foreigners in short with the differences in status culture religion So that the urban fabric has ended up structuring itself also in function of those inequalities as well as of the strategic places for the exercise of power of the political military or social control of the spaces for imprisonment for the sanitary isolation or for the temporary remedy to the catastrophes From the first portraits of cities made and diffused at the beginning of the fifteenth century for political exaltation purposes or for religious propaganda and for devotional purposes which often through increasingly refined graphic techniques distort or even deny the true urban image we reach at the dawn of contemporary history the new meaning given by scientific topography and new methods of representation these latter aimed at revealing the structure and the urban landscape in their objectivity often unexpected for who had known the city

through the filter of regime iconography The representation of the urban image still shows the contradictions of a community that sometimes includes and even exalts the diversities other times rejects them showing the unease of a difficult integration

Arte y agencia Alfred Gell, 2021 Qu subyace al poder seductor del arte En esta obra Alfred Gell propone una teoría que se aparta radicalmente de las interpretaciones anteriores Crítica que las teorías estéticas adopten una posición demasiado pasiva con respecto de los objetos y en cambio hace hincapié en el arte como forma de acción instrumental concibiendo la elaboración de las cosas como

medio de influir en los pensamientos y actos de los demás Los objetos de arte son la materialización de intenciones complejas y sirven de medio para transmitir la agencia social La conceptualización de Gell conduce a la fusión de los objetos de arte con las personas El autor también analiza entre otros temas la psicología de los patrones y la percepción del arte y la personalidad el arte en relación con las prácticas religiosas como la posesión espiritual la idolatría y la misa católica y el significado del arte para el artista el visitante de galerías y el adorador de dolos El detallado razonamiento de Gell enriquecido por las diversas ilustraciones que lo acompañan así como por un análisis del arte europeo y etnográfico toca ámbitos relacionados con la filosofía la psicología y la lingüística El autor completa la versión inglesa de poco antes de su fallecimiento a los 51 años Esta obra encarna la brillantez de su intelecto el vivaz ingenio el vigor y la erudición por los que era tan admirado y conforma el testimonio duradero de que estuvimos ante uno de los antropólogos con mayor talento de su generación

El instinto del arte Denis Dutton, 2010-03-25 Según Denis Dutton los gustos y las preferencias del ser humano por las artes son rasgos evolutivos que se han ido conformando por selección natural No son construcciones sociales como han defendido la crítica de arte y la teoría académica del siglo XX ni están determinados por el entorno cultural Nuestro amor por la belleza es innato y muchos gustos artísticos son universales como la predilección por los paisajes que combinan imágenes de agua y rboles pues evocan las sabanas desde las cuales evolucionamos Uniendo la filosofía del arte y la teoría de la evolución reivindica el lugar preeminente de la belleza el placer y la habilidad técnica como valores artísticos esenciales
