our stages today **The Terms of Political Discourse.** William E. Connolly,1993-09-12 William Connolly presents a lucid and concise defense of the thesis of essentially contested concepts that can well be read as a general introduction to political theory as well as for its challenge to the prevailing understanding of political discourse In Connolly s view the language of politics is not a neutral medium that conveys ideas independently formed but an institutionalized structure of meanings that channels political thought and action in certain directions In the new preface he pursues the implications of this perspective for a distinctive conception of ethics and democracy Civil Society and the State in Left-Led Latin America Barry Cannon,Professor Peadar Kirby,2012-10-11 Timely and unique this innovative volume provides a critical examination of the role of civil society and its relation to the state throughout left led Latin America Featuring a broad range of case studies from across the region from the Bolivian Constitution to participative budgeting in Brazil to the communal councils in Venezuela the book examines to what extent these new initiatives are redefining state civil society relations Does the return of an active state in Latin America imply the incorporation of civil society representatives in decision making processes Is the new left delivering on the promise of participatory democracy and a redefinition of citizenship or are we witnessing a new democratic deficit A wide ranging analysis of a vital issue both for Latin America and beyond **The Underside of Politics** Sorin Radu Cucu,2013-11 This book explores the relation between nationhood literary culture and globalism in the context of the Cold War struggle over the legacy of European modernity a struggle to represent diverse experiences of the political after World War II and colonialism This book argues that during the Cold War modern political imagination is held captive by the split between two visions of universality freedom in the West vs social justice in the East and by a culture of secrecy that ties national identity to national security The significance of Cold War political modernity is made evident in the staging of dialogues between post 1945 American and Eastern European novelists Kundera with Roth Coover with Popescu and Kis and DeLillo **International Relations Theory and Philosophy** Cerwyn Moore,Chris Farrands,2010-01-04 Discusses the contribution of philosophers and thinkers whose ideas have recently begun to permeate international relations theory and seeks to integrate diverse ideas broadly concerned with the interpretive theory and methods of international relations Radicals in Power Gianpaolo Baiocchi,2003-10-17 This book throws real light on the single most strategic tendency in Brazilian politics in recent years Radical Philosophy ,2004 Words and Distinctions for the Common Good Gabriel Abend,2023-07-25 In this book Gabriel Abend argues that social scientists need to focus more on the words and distinctions that their empirical claims depend on He suggests two central questions researchers need to consider First how should word w be used in the social science community Which is to say how should word w be defined should it be used at all and if so on what grounds Second should distinction d be accepted in the social science community For example when a social scientist proposes a distinction between childhood adolescence adulthood and old age should they be accepted and on what grounds Which distinctions and classifications are good for the social science community Throughout the chapters Abend carefully

investigates these core issues and related questions arguing along the way that there is not a definitive answer. Instead the book invites the social science community to work together to collectively address these consequential concerns. Getting from Here to There? Power, Politics and Urban Sustainability in North America Ernest J. Yanarella, Robert W.

Lancaster, 2016-05-04 *Getting from Here to There* seeks to take the study of sustainable cities into a realm of analysis and critique that has not been seriously investigated in any explicit and systematic manner: the sphere of power and politics. Using detailed case studies of selected urban sustainability programs, some stillborn or short-lived, others celebrated, still others most promising, it focuses on the political agencies shaping them and the structural elements either impeding or facilitating efforts to build sustainable cities. To accomplish this task, the authors utilize three theories or models of urban power: growth coalition, urban regime, and neo-Gramesian hegemony, to explore the dynamics of power and politics to better understand these cases and to derive important lessons about getting from here to there. These models offer valuable lessons for ongoing or future sustainable city programs, community or business groups, key policy makers, grassroots organizations, mayors, and urban planners involved in or contemplating moving urban sustainability projects forward, as well as students of urban politics and environmental and sustainability researchers. Organized Crime, Fear and Peacebuilding in Mexico Mauricio

Meschoulam, 2018-06-27 The book focuses on the psychosocial effects that organized crime-related violence has produced in Mexico. It connects one of the major worries of our times, terrorism, with the conditions of peacelessness that prevail in Mexico. Specifically, the project explores the role played by fear as a peace disruptor, as well as one of the most important obstacles to social and democratic development and inclusiveness. The volume contributes to the debate on whether the escalation of violence in Mexico since 2006 has produced circumstances similar to those countries that suffer terrorism and to what degree that discussion can help in the construction of a more democratic and inclusive society. *The Romani*

Movement Peter Vermeersch, 2007-12-01 The collapse of communism and the process of state building that ensued in the 1990s have highlighted the existence of significant minorities in many European states, particularly in Central Europe. In this context, the growing plight of Europe's biggest minority, the Roma Gypsies, has been particularly salient. Traditionally dispersed, possessing few resources and devoid of a common kin state to protect their interests, the Roma have often suffered from widespread exclusion and institutionalized discrimination. Politically underrepresented and lacking popular support amongst the wider populations of their host countries, the Roma have consequently become one of Europe's greatest losers in the transition towards democracy. Against this background, the author examines the recent attempts of the Roma in Central Europe and their supporters to form a political movement and to influence domestic and international politics. On the basis of first-hand observation and interviews with activists and politicians in the Czech Republic, Hungary, and Slovakia, he analyzes connections between the evolving state policies towards the Roma and the recent history of Romani mobilization. In order to reach a better understanding of the movement's dynamics at work, the author explores a number of theories commonly

applied to the study of social movements and collective action

Birth and Birthgivers Janet Chawla, 2006 This volume presents varied essays exploring women's voices, agencies and aesthetics in the traditional handling of childbearing. Ayurveda as it comprehends reproduction, soha's birth songs, birth narratives, cord cutters, dais, knowledge and compensation systems as well as analyses of biomedical dominance and erasure of indigenous knowledge all provide a peek behind the purdah in this critical reclamation of tradition

Keiretsu Economy - New Economy? R. Kensy, 2001-04-02 This book combines a theoretical study of Japan's economic structures and multinational enterprises with a post modern analysis of the contemporary multinational enterprise. Kensy analyses Japan's economic structure interpreting its methods, strategies and results in a post modern context and presents a survey of socio economic development in Japan since the beginning of westernization. He goes on to discuss Japanese models for the transformation of society in the future with particular reference to the Keiretsu. Beyond Citizenship and the Nation-State Jocelyn M. Boryczka, Sarah M. Surak, 2023-06-05 Beyond Citizenship and the Nation State examines tensions between a push for clear boundaries defining nation states and who legitimately belongs in them and a pull away from citizenship as capturing what membership in a political community looks like in the twenty first century. Borders signify and represent these physical and metaphorical challenges in a world where anti migration and anti refugee rhetoric are central to the production and reproduction of postcolonial and nationalist political discourse and identity formation. With an expansive view of citizenship, authors challenge dominant narratives, explore alternatives to neoliberal frameworks and link theory and practice through participatory opportunities for non citizen political participation. In doing so they present possibilities for reimagining citizenship for a just more sustainable future. This book will appeal to academics

and practitioners working in the disciplines of Sociology Social Policy Human Geography Political Sciences Citizenship Studies and Migration Studies It was originally published as a special issue of New Political Science **Reforms in Long-Term Care Policies in Europe** Costanzo Ranci,Emmanuele Pavolini,2012-11-08 Over the last two decades many changes have happened to the social welfare policies of various industrial countries Citizens have seen their pensions unemployment benefits and general healthcare policies shrink as belt tightening measures are enforced But in contrast long term care has seen a general growth in public financing an expansion of beneficiaries and more generally an attempt to define larger social responsibilities and related social rights The aim of this book is to describe and interpret the changes introduced in long term care policies in Western Europe The volume argues that recent reforms have brought about an increasing convergence in LTC policies Most of the new programs have developed a new general approach to long term care based on a better integration of social care and health care The book explores increasing public support given to family care work in the past the family would take care of the elderly or infirm and increasing growth and recognition of a extended social care market by which care has shifted from a moral obligation based on family reciprocity to a paid professional activity A new social care arrangement has therefore been developing in Western countries based on a new mix of family obligations market provision and public support In order to understand such changes this analysis will take into account the social and economical impact of these reforms Catalogue of the Books in the Library of the Honourable Society of Gray's Inn Gray's Inn.
