**Carlos Fuentes, Mexico, and Modernity** Maarten Van Delden, 1998 In *Carlos Fuentes Mexico and Modernity* Maarten van Delden argues that there is a fundamental paradox at the heart of Fuentes s vision of Mexico and in his role as novelist and critic in putting forth that vision This paradox hinges on the tension between national identity and modernity A significant internal conflict emerges in Fuentes s work from his attempt to stake out two different positions for himself as experimental novelist and as politically engaged and responsible intellectual Drawing from the fiction literary essays and political journalism van Delden places these tensions in Fuentes s work in relation to the larger debates about modernity and postmodernity in Latin America He concludes that Fuentes is fundamentally a modernist writer in spite of the fact that he occasionally gravitates toward the postmodernist position in literature and politics Van Delden s thorough command of the subject matter his innovative and sometimes iconoclastic conclusions and his clear and engaging writing style make this study more than just an interpretation of Fuentes s work *Carlos Fuentes Mexico and Modernity* offers nothing less than a comprehensive analysis of Fuentes s work *Carlos Fuentes Mexico and Modernity* offers nothing less than a comprehensive analysis of Fuentes s intellectual development in the context of modern Mexican political and cultural life

**Orogenic Processes** Wolfgang Franke (géologue.), 2000 [The Irish Parliament in the Middle Ages](#) H. G. Richardson, G. O. Sayles, 2016-11-11 Based largely on manuscript material this comprehensive account of the Irish Parliament in the Middle Ages shows that early Irish parliaments cannot be identified either in form or function with their modern namesake and consequently demonstrates that the concept of governmental democracy had a much slower more gradual development than historians have heretofore believed The history of the Irish Parliaments proper begins with that held at Castledermot in mid June 1264 During the reign of Edward II and the early years of Edward III significant changes took place changes the authors point out similar to those taking place in the development of the English

Parliament though there were important differences The book continues with a description of the Irish Parliament in the middle years of Edward III s reign and concludes with an account of the parliament at Drogheda held in 1494 when the passing of Poyning s Law brought the period of medieval parliaments to a close The appendices include an almost complete list of the meetings convened between 1264 and 1494 as well as copies of documents that the authors say are the only means whereby a close glimpse may be had of the personnel and deliberations of the Privy Council

Writing At Risk Jason Weiss,1991-10-01 Much has been made of the image of writers in Paris romanticized and idealized in fiction and on screen these migr artists in sidewalk caf s spark our imagination with unusual force But rarely do the real life figures speak to us directly to comment on their work

their lives and their reasons for choosing to live and work in Paris In these striking interviews E M Cioran Julio Cortázar Brion Gysin Eugène Ionesco Carlos Fuentes Jean-Claude Carrière Milan Kundera Nathalie Sarraute and Edmund Jabás do just this as they speak out on the risks they've taken on their struggles and discoveries on tradition challenge and their near-unanimous status as migrants A consummate interviewer Jason Weiss spoke in depth with these pathbreaking artists regarding their lives their craft and their very special relationship to Paris Their writings were naturally the main focus of investigation but Weiss's concern was always to build on previous interviews to deepen certain lines of inquiry and open new ones to contribute fresh material to the ongoing record The result is a series of invigorating detailed portraits that go beyond personality habits and pleasures to examine some of the causes and effects in the unique relationship of place and temperament *Writing at Risk* suggests that there is more than we suspect binding writers of such disparate cultures and genres perhaps their attitudes toward writing perhaps their common attraction to risk Readers will relish the immediacy of these interviews and will want to rediscover the work of these exceptional artists

*Writing the Apocalypse* Lois Parkinson Zamora, 1989-04-28 This is a comparative literary study of apocalyptic themes and narrative techniques in the contemporary North and Latin American novel Zamora explores the history of the myth of apocalypse from the Bible to medieval and later interpretations and relates this to the development of American apocalyptic attitudes She demonstrates that the symbolic tensions inherent in the apocalyptic myth have special meaning for postmodern writers Zamora focuses her examination on the relationship between the temporal ends and the narrative endings in the works of six major novelists Gabriel García Márquez Thomas Pynchon Julio Cortázar John Barth Walker Percy and Carlos Fuentes Distinguished by its unique cross-cultural perspective this book addresses the question of the apocalypse as a matter of intellectual and literary history Zamora's analysis will enlighten both scholars of North and Latin American literature and readers of contemporary fiction

**The Voice of the Masters** Roberto González Echevarría, 2010-07-05 By one of the most original and learned critical voices in Hispanic studies a timely and ambitious study of authority as theme and authority as authorial strategy in modern Latin American literature An ideology is implicit in modern Latin American literature argues Roberto González Echevarría through which both the literature itself and criticism of it define what Latin American literature is and how it ought to be read In the works themselves this ideology is constantly subjected to a radical critique and that critique renders the ideology productive and in a sense is what constitutes the work In literary criticism however too frequently the ideology merely serves as support for an authoritative discourse that seriously misrepresents Latin American literature In *The Voice of the Masters* González Echevarría attempts to uncover the workings of modern Latin American literature by creating a dialogue of texts a dynamic whole whose parts are seven illuminating essays on seminal texts in the tradition As he says To have written a sustained expository book would have led me to make the same kind of critical error that I attribute to most criticism of Latin American literature I would have naively assumed an authoritative voice while attempting a critique of precisely that critical gesture Instead major works by Barnett
