Writing the Apocalypse Lois Parkinson Zamora, 1989-04-28 This is a comparative literary study of apocalyptic themes and narrative techniques in the contemporary North and Latin American novel Zamora explores the history of the myth of apocalypse from the Bible to medieval and later interpretations and relates this to the development of American apocalyptic attitudes She demonstrates that the symbolic tensions inherent in the apocalyptic myth have special meaning for postmodern writers Zamora focuses her examination on the relationship between the temporal ends and the narrative endings in the works of six major novelists Gabriel Garcia Marquez Thomas Pynchon Julio Cortazar John Barth Walker Percy and Carlos Fuentes Distinguished by its unique cross cultural perspective this book addresses the question of the apocalypse as a matter of intellectual and literary history Zamora's analysis will enlighten both scholars of North and Latin American literature and readers of contemporary fiction

*Sisters and Brothers of the Common Life* John Van Engen, 2013-10-09 The Devotio Moderna or Modern Devout puzzled their contemporaries Beginning in the 1380s in market towns along the IJssel River of the east central Netherlands and in the county of Holland they formed households organized as communes and forged lives centered on private devotion They lived on city streets alongside their neighbors managed properties and rents in common and worked in the textile and book trades all the while refusing to profess vows as members of any religious order or to acquire spouses and personal property as lay citizens They defended their self designed style of life as exemplary and sustained it in the face of opposition their women labeled beguines and their men lollards both meant as derogatory terms Yet the movement grew drawing in women and schoolboys priests and laymen and spreading outward toward Münster Flanders and Cologne The Devout were arguably more culturally significant than the Lollards and Beguines yet they have commanded far less scholarly attention in English John Van Engen's magisterial book keeps the Modern Devout at its center and thinks through their story anew Few interpreters have read the Devout so insistently within their own time and space by looking to the social and religious conditions that marked towns and parishes in northern Europe during the fifteenth century and examining the widespread upheavals in cultural and religious life between the 1370s and the 1440s In *Sisters and Brothers of the Common Life* Van Engen grasps the Devout in their humanity communities and beliefs and places them firmly within the urban societies of the Low Countries and the cultures we call late medieval

**Latin America's New Historical Novel** Seymour Menton, 2010-07-22 Beginning with the 1979 publication of Alejo Carpentier's *El arpa y la sombra* the New Historical Novel has become the dominant genre within Latin American fiction In this at times tongue in cheek postmodern study Seymour Menton explores why the New Historical Novel has achieved such popularity and offers discerning readings of numerous works Menton argues persuasively that the proximity of the Columbus Quincentennial triggered the rise of the New Historical Novel After defining the historical novel in general he identifies the distinguishing features of the New Historical Novel Individual chapters delve deeply into such major works as Mario Vargas Llosa's *La guerra del fin del mundo* Abel Posse's *Los perros del paraíso* Gabriel García Márquez's *El general en su laberinto* and Carlos Fuentes' *La campaña* A chapter on the Jewish Latin American novel focuses on several works that deserve greater recognition such as Pedro Orgambide's *Aventuras de Edmund Ziller en tierras del Nuevo Mundo* Moacyr Scliar's *A estranha nação* de Rafael Mendes and Angelina Muñoz's *Tierra adentro*

*Mario Vargas Llosa* Raymond Leslie Williams, 2014-12-01 Awarded the Nobel Prize in 2010 at the age of seventy four Peruvian writer Mario Vargas Llosa has held pivotal roles in the evolution and revolutions of modern Latin American literature Perhaps surprisingly no complete history of Vargas Llosa's works placed in biographical and historical context has been published until now A masterwork from one of America's most revered scholars of Latin American fiction Mario Vargas Llosa *A Life of Writing* provides a critical overview of Vargas Llosa's numerous novels while reinvigorating debates regarding conventional interpretations of the work Weaving analysis with discussions of the writer's political commentary Raymond Leslie Williams traces the author's youthful identity as a leftist student of the 1960s to a repudiation of some of his earlier ideas beginning in the 1980s Providing a unique perspective on the complexity nuance and scope of Vargas Llosa's lauded early novels and on his passionate support of indigenous populations in his homeland Williams then turns his eye to the recent works which serve as a bridge between the legacies of the Boom and the diverse array of contemporary Latin American fiction writers at work today In addition Williams provides a detailed description of Vargas Llosa's traumatic childhood and its impact on him seen particularly in his

lifelong disdain for authority figures as well as of the authors who influenced his approach from Faulkner to Flaubert Culminating in reflections drawn from Williams's formal interviews and casual conversations with the author at key phases of both men's careers this is a landmark publication that will spark new lines of inquiry into an intricate body of work *The Writings of Carlos Fuentes* Raymond Leslie Williams, 2010-07-01 Smitten by the modernity of Cervantes and Borges at an early age Carlos Fuentes has written extensively on the cultures of the Americas and elsewhere His work includes over a dozen novels among them *The Death of Artemio Cruz* *Christopher Unborn* *The Old Gringo* and *Terra Nostra* several volumes of short stories numerous essays on literary cultural and political topics and some theater In this book Raymond Leslie Williams traces the themes of history culture and identity in Fuentes' work particularly in his complex major novel *Terra Nostra* He opens with a biography of Fuentes that links his works to his intellectual life The heart of the study is Williams' extensive reading of the novel *Terra Nostra* in which Fuentes explores the presence of Spanish culture and history in Latin America Williams concludes with a look at how Fuentes' other fiction relates to *Terra Nostra* including Fuentes' own division of his work into fourteen cycles that he calls *La Edad del Tiempo* and with an interview in which Fuentes discusses his concept of this cyclical division **Book Prices** Edward N. death of General Francisco Franco in 1975 this book explores the intersection of education and nationalism in Spain Based on a broad range of archival and published sources including parliamentary and ministerial records pedagogical treatises and journals teachers manuals memoirs and a sample of over two hundred primary and secondary school textbooks the study examines ideological and political conflict among groups of elites seeking to shape popular understanding of national history and identity through the schools both public and private A burgeoning literature on European nationalisms has posited that educational systems in general and an instrumentalized version of national history in particular have contributed decisively to the articulation and transmission of nationalist ideologies The Spanish case reveals a different dynamic In Spain a chronically weak state a divided and largely undemocratic political class and an increasingly polarized social and political climate impeded the construction of an effective system of national education and the emergence of a consensus on the shape and meaning of the Spanish national past This in turn contributed to one of the most striking features of modern Spanish political and cultural life the absence of a strong sense of Spanish as opposed to local or regional identity Scholars with interests in modern European cultural politics processes of state consolidation nationalism and the history of education will find this book essential reading
