**David Kirk**

## **Sir John Berkenhead 1617-1679 A Royalist Career In Politics And Polemics:**

Sir John Berkenhead, 1617-1679 Peter William Thomas, 1969      **Sir John Birkenhead, 1617-1679** P. W. Thomas, 1969

**Laudian and Royalist polemic in seventeenth-century England** Anthony Milton, 2013-07-19 This is the first full length study of one of the most prolific and controversial polemical authors of the seventeenth century Newly available in paperback it provides a detailed analysis of the ways in which Laudian and royalist polemical literature was created tracing continuities and changes in a single corpus of writings from 1621 through to 1662 In the process the author presents important new perspectives on the origins and development of Laudianism and Anglicanism and on the tensions within royalist thought Milton's book is neither a conventional biography nor simply a study of printed works but instead constructs an integrated account of Peter Heylyn's career and writings in order to provide the key to understanding a profoundly polemical author Throughout the book Heylyn's shifting views and fortunes prompt an important reassessment of the relative coherence and stability of royalism and Laudianism Historians of early modern English politics and religion and literary scholars will find this book essential reading

**Royalist Agents, Conspirators and Spies** Geoffrey Smith, 2016-04-08 Between 1640 and 1660 the British Isles witnessed a power struggle between king and parliament of a scale and intensity never witnessed either before or since Although often characterised as a straight fight between royalists and parliamentarians recent scholarship has highlighted the complex and fluid nature of the conflict showing how it was waged on a variety of fronts military political cultural and religious at local national and international levels In a melting pot of competing loyalties shifting allegiances and varying military fortunes it is hardly surprising that agents conspirators and spies came to play key roles in shaping events and determining policies In this groundbreaking study the role of a fluctuating collection of loyal resourceful and courageous royalist agents is uncovered and examined By shifting the focus of attention from royal ministers councillors generals and senior courtiers to the agents who operated several rungs lower down in the hierarchy of the king's supporters a unique picture of the royalist cause is presented The book depicts a world of feuds jealousies and rivalries that divided and disorganised the leadership of the king's party creating fluid and unpredictable conditions in which loyalties were frequently to individuals or factions rather than to any theoretical principle of allegiance to the crown Lacking the firm directing hand of a Walsingham or Thurloe the agents looked to patrons for protection employment and advancement Grounded on a wealth of primary source material this book cuts through a fog of deceit and secrecy to expose the murky world of seventeenth century espionage Written in a lively yet scholarly style it reveals much about the nature of the dynamics of the royalist cause about the role of the activists and why despite a long series of political and military defeats royalism survived Simultaneously the book offers fascinating accounts of the remarkable activities of a number of very colourful individuals

**Secular Chains** Philip Connell, 2016 Secular Chains offers an original and richly contextualized account of the relationship between poetry and religious controversy between 1649 and 1745 This was a

period of political conflict and intellectual upheaval in which traditional sources of spiritual authority were variously challenged and transformed This study reveals the importance of English literary culture for our understanding of this process and sheds new light on the dynamics of change and continuity between the puritan revolution and the early Enlightenment Based on extensive research in both printed and manuscript sources the book combines detailed case studies of major literary figures with a sustained historical narrative linking the republican moment of the 1650s the conflicts and crises of the Restoration and the ecclesiastical politics of the early eighteenth century Milton and Dryden provide the principal focus of the first three chapters which explore the divisive issue of church settlement in the work of both writers together with the increasingly prominent rhetoric of anti clericalism and irreligion in the poetry and polemics of the later seventeenth century Subsequent chapters extend the book s argument to the embattled condition of the Church of England in the decades after 1688 and the significant contribution of contemporary literary culture to a range of religious and philosophical argument from heterodox free thinking to Newtonian natural theology *Secular Chains* demonstrates the close and continued relationship between poetry and religious politics in the age of Milton and Pope and provides a new framework for understanding this complex and turbulent period in English literary history **The Invention of News**

Andrew Pettegree,2014-02-01 A fascinating account of the gathering and dissemination of news from the end of the Middle Ages to the French Revolution and the rise of the newspaper Glenn Altschuler The Huffington Post Long before the invention of printing let alone the daily newspaper people wanted to stay informed In the pre industrial era news was mostly shared through gossip sermons and proclamations The age of print brought pamphlets ballads and the first news sheets In this groundbreaking history renowned historian Andrew Pettegree tracks the evolution of news in ten countries over the course of four centuries examining the impact of news media on contemporary events and the lives of an ever more informed public The *Invention of News* sheds light on who controlled the news and who reported it the use of news as a tool of political protest and religious reform issues of privacy and titillation the persistent need for news to be current and for journalists to be trustworthy and people s changing sense of themselves and their communities as they experienced newly opened windows on the world This expansive view of news and how it reached people will be fascinating to readers interested in communication and cultural history Library Journal starred review

**'To Walk in the Dark'** John Ellis,2016-09-02 During the bloody years of the First English Civil War as the battles of Edgehill Newbury and Naseby raged another war was being fought Its combatants fought with cunning and deceit in a hidden conflict that nevertheless would steer the course of history The story of the spies and intelligence gatherers of the Roundheads and Royalists is one that sheds new light on the birth of the Commonwealth In *To Walk in the Dark* intelligence specialist John Ellis presents the first comprehensive analysis of the First English Civil War intelligence services He details the methods of the Roundhead spies who provided their commanders with a constant flow of information about the movements of the King s armies describes the earliest use of code breaking and

mail interception and shows how the Cavalier intelligence forces were overcome. He also reveals the intelligence personnel themselves, the shadowy spymasters, agents, and femme fatales. The descriptions of how intelligence information was used in the main battles are particularly fascinating and show how intelligence information played a decisive role in determining the outcome of the Civil War itself.

*Some Intellectual Consequences of the English Revolution* Christopher Hill, 1980. In *Some Intellectual Consequences of the English Revolution*, Christopher Hill takes up themes that have emerged from a lifetime's investigation into the causes of the English Revolution. However, Hill does more than analyze the origins of the Revolution. He examines the ways the seeds of change sown during the revolution grew into transformative politics in the period following the restoration of the monarchy in 1660. Hill argues that the intellectual heritage of the English Revolution was mixed. While he acknowledges its achievements, he also depicts some of its failings. Consequently, he challenges the view that radical notions faded with the Restoration, suggesting instead that they continued in pervasive and subtle ways throughout the course of English and American history. The apparent similarity between the England of 1640 and that of 1660 is shown to be illusory. Each period's institutions survived, but the social context had changed. In this way, Hill demonstrates how intellectual consequences cannot be separated from the social and economic factors of the nation that produced them. He concludes that historians should turn their attention to the unofficial radical heritage that is less easy to comprehend, though no less important. This is a highly readable and provocative account by one of the world's foremost historians.

*The Language of Periodical News in Seventeenth-Century England* Nicholas Brownlee, 2011-05-25. This volume follows the beginnings and development of seventeenth-century English periodical print news and sees how contemporary news writers shaped their news discourse over the decades. Interdisciplinary in its approach, the volume analyses the different strategies employed by news writers of the day as they determined how best to present and write up both foreign and domestic events for a news-obsessed English readership. In his examination of the language used in corantos, newsbooks, and gazettes, the first forms of periodical news in the English press, Nicholas Brownlee provides innovative analyses regarding a rich variety of topics, including the role of translation in early periodical news, the language of hard news in corantos and news pamphlets, forms and styles of epistolary news, fluctuating editorial strategies used to address and involve the reader, text structure and prototypical headlines, English news discourse within a wider European news context, the language of propaganda in the English Civil War, periodicity and the reporting of the Tuscan crisis in 1653, the language of advertisements in *The London Gazette*, the changing fortunes and semantics of News Intelligence and Advice. In its focus on how news writers worked and experimented with seventeenth-century English language structures and discourse conventions to forge a style of news rhetoric that could inform, persuade, and even entertain, this volume is essential reading for all historians, news analysts, and historical linguists working in the early modern period.

**King Charles I** Pauline Gregg, 1984-01-01. A biography of the British monarch examines his upbringing, personality, and the events that led to his downfall.

Ignite the flame of optimism with *Crafted by* is motivational masterpiece, Find Positivity in **Sir John Berkenhead 1617 1679 A Royalist Career In Politics And Polemics** .
