Small Enterprises And Economic Development The Dynamics Of Micro And Small Enterprises:

Small Enterprises and Economic Development Carl Liedholm, Donald C. Mead, 1999 Micro and small enterprises MSEs have been recognized as a major contemporary source of employment and income in a growing number of developing countries Yet relatively little is known about the characteristics and patterns of change in these enterprises This volume examines the dynamics of MSEs in the development process Drawing on a unique set of surveys conducted in twelve countries in Africa and Latin America the authors map the patterns of change in MSEs in the developing world Subjects covered include significance of new start and closure rates of MSEs factors involved in expansion rates and growth patterns of MSEs the role of gender in MSEs evolution *Journal of Small Business and Entrepreneurship*, **Enterprising Women** Mary Hallward-Driemeier, 2013-06-10 This book brings together new household and enterprise data from 41 countries in Sub Saharan Africa to inform policy makers and practitioners on ways to expand women entrepreneurs economic opportunities Sub Saharan Africa boasts the highest share of women entrepreneurs but they are disproportionately concentrated among the self employed rather than employers Relative to men women are pursuing lower opportunity activities with their enterprises more likely to be smaller informal and in low value added lines of business The challenge in expanding opportunities is not helping more women become entrepreneurs but enabling them to shift to higher return activities A central question addressed in the book is what explains the gender sorting in the types of enterprises that women and men run The analysis shows that many Sub Saharan countries present a challenging environment for women Four key areas of the agenda for expanding women s economic opportunities in Africa are analyzed strengthening women s property rights and their ability to control assets improving women s access to finance building human capital in business skills and networks and strengthening women s voices in business environment reform These areas are important both because they have wide gender gaps and because they help explain gender differences in entrepreneurial activities It is particularly striking that while gender gaps in education tend to close with higher incomes gaps in women s property rights and in women s participation in reform processes do not As simply raising a country s income is unlikely to be sufficient to give women equal ability to control assets or have greater voice more proactive steps will be needed Practical guidelines to move the agenda forward are discussed for each of these key areas *Employment and Shared Growth* Pierella Paci, Pieter Maria Serneels, 2007 There is one asset that poor people have in abundance labor Thus what distinguishes the poor from the non poor in low income countries is simply their ability to sell labor at a good price It should be of little surprise then that enhancing the poor s access to employment is increasingly recognized as key to development But while the creation of good jobs for the poor has become a policy priority for many developing countries the mechanisms by which employment stimulates growth and reduces poverty have until now not been well understood This book aims to help fill that

Development Economics and Social Justice John Thoburn, 2017-11-28 Professor Ian Livingstone is one of a small group of

British development economists who have achieved international renown and recognition The objective of this book is to pay tribute to his life s work particularly those aspects which related to key but challenging development issues These issues include at a broad level the understanding of the economic forces determining the development of low income economies more detailed micro work on agricultural development irrigation in particular decentralisation and local government finance small scale enterprises and large scale manufacturing development Themes running through his work relate to his overriding concern for rigour and for socio economic justice Ian Livingstone consistently used the traditional tools of economic analysis as a means to increase understanding of development issues in a way which was itself just as radical as the contributions of political scientists and sociologists This volume has been produced with similar aims

Industrial Clusters and SME Promotion in Developing Countries Eileen Fischer,Eileen Fisher,Rebecca Reuber,2000 SME s make up the bulk of enterprises in developing countries and make a significant contribution to employment and economic growth This paper takes stock of best practices in industrial clustering and SME promotion in Commonwealth developing countries It provides examples of cluster formation policies to stimulate cluster development and guidelines for business development services for SME s

Advances in Pacific Basin Business, Economics and Finance Cheng-Few Lee,Min-Teh Yu,2024-04-04 Advances in Pacific Basin Business Economics and Finance APBBEF is a peer reviewed series designed to focus on interdisciplinary research in finance economics and management among Pacific Rim countries

Handbook of Research on Entrepreneurship and Conflict Wim Naudé,Bernadette Power,2024-07-05 This Handbook focuses on the complex relationship between entrepreneurship and conflict Editors Wim Naud and Bernadette Power construct a broad overview of central research themes in the field covering states being captured by entrepreneurs states capturing businesses entrepreneurship in post conflict reconstruction and entrepreneurs in conflict against other entrepreneurs

Informality Guillermo Perry,2007 Analyzes informality in Latin America exploring root causes and reasons for and implications of its growth This book uses two distinct but complementary lenses It concludes that reducing informality levels and overcoming the culture of informality will require actions to increase aggregate productivity in the economy

Entrepreneurship, Innovation, and Economic Development Adam Szirmai,Wim Naudé,Micheline Goedhuys,2011-04-28 Entrepreneurship and innovation are two of the most pervasive concepts of our times yet there are still gaps in our understanding of the interactions between entrepreneurship and innovation particularly in developing countries This book is an attempt to fill this gap It focuses on the entrepreneurship innovation development nexus drawing heavily on empirical evidence from developing countries Cross country and individual country experiences cover nations as diverse as Ethiopia India Turkey Vietnam and also examine lessons from advanced economies such as Finland Three sets of questions are addressed What is the impact of entrepreneurship and innovation on growth and development What determines the innovative performance of entrepreneurs in developing countries What role does the institutional environment play in shaping the extent and impact of innovative

activities A key message is that entrepreneurial innovation whether through small firms large national firms or multinational firms is often vibrant in developing countries but does not always realise its full potential This is due to institutional constraints the absence of the appropriate mix of different types of small and large and domestic and foreign firms and insufficiently developed firm capabilities The contributions provide a better understanding of the determinants and impacts of innovation in developing countries and the policies and institutions that support or hinder innovation
