So Many Versions:

What's in a Version? Henry E Neufeld, 2004-11-26 Henry E Neufeld writes about Bible translations from his knowledge as a student of Biblical languages and his experience teaching them to laypeople and discussing them on the internet Many people have questions about translations because they do not understand how translations are produced Much of the material available is either polarizing or is provided to advocate a particular version What's in a Version strives to provide a basis for lay students to understand how translations are made so they can understand the arguments and become confident of the Bible version they choose to use for reading and study *Texts in Multiple Versions* Luigi Giuliani, Herman Brinkman, Geert Lernout, Marita Mathijssen, 2006 Texts in multiple versions constitute the core problem of textual scholarship For texts from antiquity and the medieval period the many versions may be the result of manuscript transmission requiring editors and readers to discriminate between levels of authority in variant readings produced along the chain of copying For texts of all periods and particularly for more modern authors there may also be multiple authorial versions These are of particular importance for genetic criticism as they offer a window on the author's thinking through the developing work The different contexts in which multiple versions may occur different languages different genres different cultures ranging in this collection from ancient Greek texts to novels by Cervantes and Aub dramatic texts from Portugal and Germany poetry from The Netherlands and Lithuania scientific texts from the 19th century provide further layers of complexity The histories of countries are reflected in the histories of editing In Europe this can be seen particularly in the great period of nation building of the 19th century Essays in this volume survey editorial activity in The Netherlands Belgium and Germany in the nineteenth century concluding that nation building and scholarly editing are twinned As a nation searches for its own identity textual scholarship is pressed into service to find and edit the texts on which to establish that identity The two strands of this volume multiple versions of texts editions and national histories testify to the centrality of textual editing to many fields of research There is material here for literary scholars historians and for readers interested in texts from Ancient Greece to modernist classics

In Search of the Argonauts Helen Lovatt, 2021-07-15 Few classical stories are as exciting as that of Jason and the Golden Fleece The legend of the boy who discovers a new identity as son of a usurped king and leads a crew of demi gods and famous heroes has resonated through the ages rumbling like the clashing rocks which almost pulverised the Argo The myth and its reception inspires endless engagements while it tells of a quest to the ends of the earth of the tyrants Pelias and Aetes of dragons teeth of the loss of Hylas beloved of Hercules stolen away by nymphs and of Jason's seduction of the powerful witch Medea later betrayed for a more useful princess it speaks to us of more of gender and sexuality of heroism and lost integrity of powerful gods and terrifying monsters of identity and otherness of exploration and exploitation The Argonauts are emblems of collective heroism yet also of the emptiness of glory From Pindar to J W Waterhouse Apollonius of Rhodes to Ray Harryhausen and Robert Graves to Mary Zimmerman the Argonaut myth has produced later interpretations as rich salty and complex as the ancient versions Helen Lovatt here unravels like untangled sea kelp the diverse strands of the narrative and its numerous and fascinating afterlives Her book will prove both informative and endlessly entertaining to those who love classical literature and myth

Individuation in Fairy Tales Marie-Louise von Franz,2017-09-12 With a text revised and corrected by the author this definitive edition of Individuation in Fairy Tales is rich with insights from religion literature and myth Dr von Franz focuses on the symbolism of the bird motif in six fairy tales of Europe and Asia The White Parrot Spain The Bath Bagerd Persia Princess Hassan Pasha Turkestan The Bid Flower Triller Iran The Nightingale Giser Balkans and The Bird Wehmus Austria She explores the themes of psychological and spiritual transformation in the varied images of birds such as the phoenix the parrot and the griffin Special attention is given to the connection between fairy tales and alchemy and to the guidance that fairy tales give to therapeutic work *Riddles of Belonging* Christi A. Merrill,2009 Can the subaltern joke Christi A Merrill answers by invoking riddling oral based fictions from Hindi Rajasthani Sanskrit and Urdu that dare to laugh at what traditions often keep hidden whether spouse abuse ethnic violence or the uncertain legacies of a divinely wrought sex change Herself a skilled translator Merrill uses these examples to investigate the expectation that translated work should allow the non English speaking subaltern to speak directly to the English speaking reader She plays with the trope of speaking to argue against treating a translated text as property as a singular material object to be carried across as trans latus implies She refigures translation as a performative telling in turn from the Hindi word anuvad to explain how a text might be multiply possessed She thereby challenges the distinction between original and derivative fundamental to nationalist and

literary discourse humoring our melancholic fixation on what is lost Instead she offers strategies for playing along with the subversive wit found in translated texts Sly jokes and spirited double entendres she suggests require equally spirited double hearings The playful lessons offered by these narratives provide insight into the networks of transnational relations connecting us across a sea of differences Generations of multilingual audiences in India have been navigating this Ocean of the Stream of Stories since before the 11th century arriving at a fluid sense of commonality across languages Salman Rushdie is not the first to pose crucial questions of belonging by telling a version of this narrative the work of non English language writers like Vijay Dan Detha whose tales are at the core of this book asks what responsibilities we have to make the rights and wrongs of these fictions come alive age after age
