Youth and Social Change in Eastern Europe and the Former Soviet Union Charles Walker, Svetlana Stephenson, 2013-09-13 Two decades have now passed since the revolutions of 1989 swept through Eastern Europe and precipitated the collapse of state socialism across the region engendering a period of massive social economic and political transformation This book explores the ways in which young people growing up in post socialist Eastern Europe and the former Soviet Union negotiate a range of identities and transitions in their personal lives against a backdrop of thoroughgoing transformation in their societies Drawing upon original empirical research in a range of countries the book's contributors explore the various freedoms and insecurities that have accompanied neo liberal transformation in post socialist countries in spheres as diverse as consumption migration political participation volunteering employment and family formation and examine the ways in which they have begun to re shape different aspects of young people's lives In addition while social change is a central theme of the issue all of the chapters in the collection indicate that the new opportunities and risks faced by young people continue both to underpin and to be shaped by familiar social and spatial divisions not only within and between the countries addressed but also between East and West This book was originally published as a special issue of *Journal of Youth Studies*

Gender and Women's Leadership Karen O'Connor, 2010-08-18 This work within The SAGE Reference Series on Leadership provides undergraduate students with an authoritative reference resource on leadership issues specific to women and gender. Although covering historical and contemporary barriers to women's leadership and issues of gender bias and discrimination, this two-volume set focuses as well on positive aspects and opportunities for leadership in various domains and is centered on the 101 most important topics, issues, questions, and debates specific to women and gender. Entries provide students with more detailed information and depth of discussion than typically found in an encyclopedia entry but lack the jargon, detail, and density of a journal article. Key Features: Includes contributions from a variety of renowned experts; Focuses on women and public leadership in the American context, women's global leadership, women as leaders in the business sector, the nonprofit and social service sector, religion, academia, public policy, advocacy, the media, sports, and the arts; Addresses both the history of leadership within the realm of women and gender with examples from the lives of pivotal figures and the institutional settings and processes that lead to both opportunities and constraints unique to that realm; Offers an approachable, clear writing style directed at student researchers; Features more depth than encyclopedia entries, with most chapters ranging between 6,000 and 8,000 words while avoiding the jargon and density often found in journal articles or research handbooks; Provides a list of further readings and references after each entry as well as a detailed index and an online version of the work to maximize accessibility for today's student audience. *Complexity, Security and Civil Society in East Asia* Peter Hayes, Kiho Yi, 2015-06-22 *Complexity, Security and Civil Society in East Asia* offers the latest understanding of complex global problems in the region, including nuclear weapons, urban insecurity, energy, and climate change. Detailed case studies of China, North and South Korea, and Japan demonstrate the importance of civil society and civic diplomacy in reaching shared solutions to these problems in East Asia and beyond. Each chapter describes regional civil society initiatives that tackle complex challenges to East Asia's security. In doing so, the book identifies key pressure points at which civil society can push for constructive changes, especially ones that reduce the North Korean threat to its neighbors. Unusually, this book is both theoretical and practical. *Complexity, Security and Civil Society in East Asia* presents strategies that can be led by civil society and negotiated by its diplomats to realize peace, security, and sustainability worldwide. It shows that networked civic diplomacy offers solutions to these urgent issues that official complex diplomacy cannot. By providing a new theoretical framework based on empirical observation, this volume is a must read for diplomats, scholars, students, journalists, activists, and individual readers seeking insight into how to solve the crucial issues of our time. **Russian Civil Society** Alfred B. Evans, Laura A. Henry, Lisa McIntosh Sundstrom, 2006 Undertakes an analysis of the development of civil society in post-Soviet Russia.
