Social Class and the Comprehensive School Julianne Ford, 1998 Using the great wealth of knowledge from educational theorists and practitioners the volumes in this book explore the important relationship between society and education Useful for actual and intending teachers **Routledge Library Editions: Education Mini-Set L Sociology of Education** Various, 2021-06-23 Mini set L Sociology of Education re issues 48 volumes originally published between 1928 and 1990 The books in this mini set discuss Teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization *The 1960s* Philip Tew, James Riley, Melanie Seddon, 2018-07-26 How did social cultural and political events in Britain during and leading up to the 1960s shape modern British fiction The 1960s were the swinging decade a newly energised youth culture went hand in hand with new technologies expanding educational opportunities new social attitudes and profound political differences between the generations This volume explores the ways in which these apparently seismic changes were reflected in British fiction of the decade Chapters cover feminist writing that fused the personal and the political gay lesbian and immigrant voices and the work of visionary experimental and science fiction writers A major critical re evaluation of the decade this volume covers such writers as J G Ballard Anthony Burgess A S Byatt Angela Carter John Fowles Christopher Isherwood Doris Lessing Michael Moorcock and V S Naipaul **Research Handbook on Curriculum and Education** Elizabeth Rata, 2024-04-12 This incisive Handbook brings together a wealth of innovative research from international curriculum and education experts to ask the question what knowledge should be taught in school how should it be taught and for what purpose **Pupil Disaffection in Schools** Sarah Swann, 2016-04-15 Sarah Swann provides a fresh approach to examining the long standing debates over disaffection and in particular social class differences in educational achievement through a mixed methods methodology and the showcasing of new research By observing pupils as they engage with peers and teachers in school Swann allows disaffection to be seen and heard in real events which constructs disaffection differently from objective statistical evidence on school exclusions Rather than a homogenous identity this book illustrates disaffection as layered and resting on a series of issues located on the crossroads between the cultural context of the neighbourhood and the public sphere of the school It plots in a detailed way how these structures interact and mesh to create disaffected identities Disaffection does not emerge in a vacuum or without a cause Pupils arrive at school with a wide variety of experiences and it is from these that they interpret understand and act out their identities Whilst the study in part seeks to describe and understand the social world of the school in terms of the pupils interpretations of the situation it analytically frames the perceptions of pupils within a wider social context In particular it focuses on the relationships between schooling and the wider macro structures and social relations that underpin disaffection This approach makes the research both critical and interpretative and also able to shed new light on educational policy

across England based on an understanding of the role of disaffection *Contrasting Dynamics in Education Politics of Extremes*, 2015-01-01 This book aims to enhance understanding of school choice as a supra national travelling policy explored in two strikingly different societies Latin American Chile and North European Finland Chile was among the first countries to implement school choice as a policy which it did comprehensively in the early 1980s through the creation of a market environment Finland introduced parental choice of a school on a very moderate scale and without the market elements in the mid 1990s Predominant aspects of Chilean basic schooling include provision by for profit and non profit private and municipal organisations voucher system parental co payment and ranking lists Finland persists in keeping education under public authority governance and free of charge and in prohibiting profit making and rankings The wide range of sociologists of education contributing to this book offer novel analyses and perspectives on the operation of school choice in Chile the trailblazer and Finland the European PISA leader Agn s van Zanten s description of how school choice operates as a major dimension of social reproduction sets the scene After that Chilean and Finnish authors explore how the policy is displayed and used explicitly for very different societal purposes although implicitly following similar patterns in the two countries with their histories politics and cultures Empirically the focus is on how families view and act on school choice The research material includes large surveys interviews and ethnographic data gathered in urban Chile and Finland Capitalising on the concept of dynamics the book concludes with some insights into how this globally travelling education policy has materialised in two apparently dissimilar societies and their localities **Social Class, Gender and Exclusion from School** Jean Kane, 2013-10-14 Rising exclusion rates indicate the continuing marginalisation of many young people in education in the UK Working class boys children living in poverty and children with additional special educational needs are among those experiencing a disproportionate rate of exclusion This book traces the processes of exclusion and alienation from school and relates this to a changing social and economic context Jean Kane argues that policy on schooling including curricular reform needs to be re connected to the broad political pursuit of social justice and presents compelling case studies of excluded pupils showing the multi faceted identities of pupils with a particular focus on masculine and feminine identities This invaluable contribution to the literature offers an alternative analysis where the social identities of pupils are shown to be tied up with their exclusion from school Themes investigated include the meanings of school exclusions social class gender and schooling social identities of excluded pupils negotiating identities in school moving towards exclusion exclusions and young people s lives improving participation in schooling Providing fascinating reading for teachers social workers researchers and policy makers this book considers how educational disadvantage might be addressed through recognition of the gender and class identities of pupils AQA Sociology for A-level Book 1 David Bown, Laura Pountney, Tomislav Maric, 2015-10-16 Exam Board AQA Level AS A level Subject Sociology First Teaching September 2015 First Exam June 2016 Build students understanding with this concept driven approach to the 2015 AQA A level Sociology

situating the topics covered within the broader global context **Trends in Education** ,1978 *Resources in Education* ,2000-10 *Equity and Inclusion in Education Finding Strength through Diversity* OECD,2023-01-31 Governments and education policy makers are increasingly concerned with equity and inclusion in education due to several major global trends such as demographic shifts migration and refugee crises rising inequalities and climate change These developments have contributed to increasing diversity within national populations and flagged some concerns around the ability of education systems to be equitable and inclusive of all students Exam Nation Sammy Wright,2024-08-15 School should equip children for adulthood In reality it means one thing exams Exam Nation sets out a better way and crucially shows us how we might get there An essential read as entertaining as it is insightful for anyone who cares about the way we treat young people Brilliant OBSERVER Educationalist and Head of School Sammy Wright argues that grades rankings and Ofsted reports all miss the point of school and together they are undermining our whole approach to education Rather than sorting pupils into winners and losers we need to think differently about what our schools are actually for to see them as communities not factories if we are to give all young people the opportunities and future they deserve Such a compelling read TELEGRAPH Deeply absorbing Wright deserves the highest marks FINANCIAL TIMES Extraordinary The book education has been waiting for LAURA MCINERNEY Persuasive He is clearly a superb teacher SAM FREEDMAN LITERARY REVIEW *Black Male Collegians: Increasing Access, Retention, and Persistence in Higher Education* Robert T. Palmer,J. Luke Wood,T. Elon Dancy,Terrell L. Strayhorn,2014-06-24 Improving college access and success among Black males has garnered tremendous attention Many social scientists have noted that Black men account for only 4 3% of the total enrollment at 4 year postsecondary institutions in the United States the same percentage now as in 1976 Furthermore two thirds of Black men who start college never finish The lack of progress among Black men in higher education has caused researchers practitioners and policymakers to become increasingly focused on ways to increase their access and success Offering recommendations and strategies to help advance success among Black males this monograph provides a comprehensive synthesis and analysis of factors that promote the access retention and persistence of Black men at diverse institutional types e g historically Black colleges and universities predominantly White institutions and community colleges It delineates institutional policies programs practices and other factors that encourage the success of Black men in postsecondary education This is the 3rd issue of the 40th volume of the Jossey Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication

Sociocultural Studies in Education Richard A Quantz,2016-01-08 Sociocultural Studies in Education Critical Thinking for Democracy fills a void in the education of educators and citizens in a democracy It explores some of the fundamentals

around which disagreements in education arise It presents a process with which those new to these debates can understand often confusing and entwined sets of facts and logics This book leads the reader through some general concepts and intellectual skills that provide the basis for making sense out of the debates around public education in a democracy This book can be seen as a primer on how to read texts about education It acknowledges that good teachers must be not only trained to teach but also educated about education It presents the various themes and currents found within the arguments and narratives that people use to represent public education It assumes that the more those interested in education know about how to see through the rhetoric the better they will be at discerning whose interests are served by which texts
