Improving Early Equity From Evidence to Action OECD,2022-10-26 Early equity for disadvantaged children can be achieved through nurturing high quality early learning environments However without deliberate action disadvantaged children face a 12 month development gap compared to their more advantaged peers in key early learning areas such as emergent literacy **Life-span Developmental Psychology** E. Mark Cummings,Anita L. Greene,Katherine H. Karraker,2014-01-02 Although there has been a significant increase in studies of stress and coping processes in recent years researchers have often approached these topics from rather narrow and constrained perspectives Furthermore little communication has occurred across disciplines and research directions resulting in the emergence of several relatively isolated literatures An outgrowth of the Eleventh Biennial West Virginia University Conference on Life Span Development this volume emphasizes two major themes the importance of taking a life span approach to the study of stress and coping and the development of new and more complete conceptual models of stress and coping processes The first to approach these subjects from a life span perspective this book includes papers by distinguished researchers from each of the major periods of the life span and brings together the cognitive and socioemotional traditions in the study of dealing with pressures The editors hope that this facilitation of communication among researchers with diverse views will help create a broadening and integration of perspectives Journal of Nursery Education ,1996 Handbook of School-Family Partnerships Sandra L. Christenson,Amy L. Reschly,2010-06-10 Family and community involvement are increasingly touted as a means of improving both student and school level achievement This has led to an increase in policies initiatives and goals designed to address family involvement in schools Once recognized and implemented such family school partnerships can lead to the following benefits enhanced communication and coordination between parents and educators continuity in developmental goals and approaches across family and school contexts shared ownership and commitment to educational goals increased
