Steel Rails Iron Men:

The Model City of the New South Grace Hooten Gates,1996 A fascinating story of the collaborative efforts of an Englishman and a Connecticut Yankee to develop the iron resources of northeast Alabama Annistons early years constitute a fascinating story of the collaborative efforts of an Englishman and a Connecticut Yankee to develop the iron resources of northeast Alabama at a time when the area was struggling to recover from the devastating effects of the Civil War The result was a robust successful new town that benefited from their profit minded business acumen and from their paternalistic but utopian mind set With town building and boosting efforts Anniston soon became known to contemporaries as the model city of the New South The town s economic survival through booms and busts is a study in marketing and diversification of reliance on old liaisons in hard times Originally published in 1978 and now reprinted in a paperbound edition with a new preface the book explores Anniston s first quarter century and yields rich material because it cuts across several historical fields including urban economic quantitative social and political history as well as labor and race relations **Cinder Buggy** Gareth Garrett,2019-01-18 Near the end of the 19th century railroad industry in America was making a turn from iron rails to steel rails The Cinder Buggy tells the tale about two families from Pittsburg Pennsylvania and their involvement in the iron and steel industries They must bring to perfections the manufacture of steel rails in order to survive cruel and merciless steel age that was coming *Annual Report of the Commissioner of Labor* United States.
