## **Stemming The Tide Arms Control In The Johnson Years:**

*Stemming the Tide* Glenn Theodore Seaborg, Benjamin S. Loeb, 1987      The Johnson Years: LBJ at home and abroad  
Robert A. Divine, 1987      **Johnson, McNamara, and the Birth of SALT and the ABM Treaty 1963-1969** John M. Clearwater, 1996-12

The purpose of this book is to examine the birth of bilateral strategic arms control between the United States and the Soviet Union during the Johnson Administration from 1964 to 1969. It is about the time and the place of the birth of bilateral strategic arms control as it came about in the United States through the efforts of President Lyndon Johnson and Secretary of Defense Robert McNamara in the 1960s. This is the time of the birth of what quickly came to be known as SALT or the Strategic Arms Limitation Talks. This inquiry firstly considers whether the move towards bilateral strategic arms control was institutional or personal. It then looks for the motivating factors both theoretical and substantive. As few things have only a single cause it is likely that we shall find that the birth of strategic arms control was influenced by both nuclear weapons employment theory and by a substantive incident or reality such as the ever increasing number and sophistication of nuclear weaponry. Lastly we must look for an immediate precipitating factor such as the move towards deployment of a potentially destabilizing ABM system by both the USA and USSR. Therefore it must be borne in mind when examining the people and their theories, the institutions, the prevailing realities and major precipitating factors that they all come together to form the basis for the birth of bilateral strategic arms control. This book shall therefore strive to reveal the extent of personal input, the objective basis for that personal commitment and examine the major precipitating factors, namely Anti Ballistic Missiles ABM and to a lesser extent Multiple Independently Targeted Re Entry Vehicles MIRV. Although barely discussed at the time, the MIRV would turn out to be a major arms control problem far greater than the hotly contested ABM system which spurred so many debates. The unique aspect of this research is that other writers have concentrated almost totally on the people and events surrounding the Nixon Administration when studying SALT. While it is true that the talks did not get underway during the Johnson years, this study will show that all of the theoretical and preparatory work was done in the Johnson years and conclude by showing that many of the same people appear in the Nixon years. Without the input of McNamara and his team, there would have been no movement on strategic arms control until possibly the 1970s. To add to the historical value of the work, I have included in the annexes complete texts of the initial arms control proposal which the US team was to present to the Soviet Union in the autumn of 1968. In addition presented here for the very first time are the full instructions to the negotiating team and the initial presentation paper to be read by the team leader on the opening day of the talks. When this final material is tied in with the history of the push for the talks, the story is indeed exciting and meaningful. For the first time we are presented with the almost complete picture of the formulation of an arms control proposal. There is of course a fluke of history which brought this all to light. As the Johnson material was never directly used in the formal SALT talks, it was not subject to the same stringent security classifications as those of Nixon, Ford, Carter.

Reagan Bush and Clinton materials Therefore the documents started to be declassified in the late 1980s with the bulk coming to light in 1991 through 1994 Here then is the story of the origins of strategic arms control     No End in Sight Nathan E. Busch,2014-10-17 The global threat of nuclear weapons is one of today s key policy issues Using a wide variety of sources including recently declassified information Nathan E Busch offers detailed examinations of the nuclear programs in the United States Russia China Iraq India and Pakistan as well as the emerging programs in Iran and North Korea He also assesses the current debates in international relations over the risks associated with the proliferation of nuclear weapons in the post Cold War world Busch explores how our understanding of nuclear proliferation centers on theoretical disagreements about how best to explain and predict the behavior of states His study bridges the gap between theory and empirical evidence by determining whether countries with nuclear weapons have adequate controls over their nuclear arsenals and fissile material stockpiles such as highly enriched uranium and plutonium Analyzing the strengths and weaknesses of various systems of nuclear weapons regulation Busch projects what types of controls proliferating states are likely to employ and assesses the threat posed by the possible theft of fissile materials by aspiring nuclear states or by terrorists No End in Sight provides the most comprehensive and up to date analysis of issues at the forefront of contemporary international affairs With the resurgence of the threat of nuclear terrorism Busch s insights and conclusions will prove critical to understanding the implications of nuclear proliferation     **The Nuclear Club** Jonathan R. Hunt,2022-11-29 The Nuclear Club reveals how a coalition of powerful and developing states embraced global governance in hopes of a bright and peaceful tomorrow While fears of nuclear war were ever present it was the perceived threat to their preeminence that drove Washington Moscow and London to throw their weight behind the 1963 Limited Test Ban Treaty LTBT banishing nuclear testing underground the 1967 Treaty of Tlatelolco banning atomic armaments from Latin America and the 1968 Nuclear Non Proliferation Treaty NPT forbidding more countries from joining the most exclusive club on Earth International society the Cold War and the imperial U S presidency were reformed from 1945 to 1970 when a global nuclear order was inaugurated averting conflict in the industrial North and yielding what George Orwell styled a peace that is no peace everywhere else Today the nuclear order legitimizes foreign intervention worldwide empowering the nuclear club and above all the United States to push sanctions and even preventive war against atomic outlaws all in humanity s name     **Nuclear Deterrence in Southern Asia** Arpit Rajain,2005-05 This important and topical book examines the triangular relationship of China India and Pakistan through the prism of nuclear deterrence The author highlights the interplay and role of strategic culture nuclear weaponisation and deployment command and control arms control non state actors and foreign policy issues which affect relations between the three countries With two main purposes a conceptual investigation into the notion of deterrence and a study of the theory and practice of limited war this book addresses the strategic political and military dimensions of the role of nuclear weapons through examples of the only cases of nuclear weapon states having gone into armed conflict the Cuban missile crisis the

Ussuri river clashes and the Kargil conflict discusses the various pressures exerted on decision makers in the context of the notions of deterrence the rational deterrence model and a limited war under a nuclear umbrella evaluates all three countries with regard to their strategic culture the role of nuclear weapons in their military strategy the nature of public opinion and political rhetoric responses to the various arms control treaties and foreign policy choices Based on a variety of sources including interviews with key individuals in various sector this is the first book length study of the triangular relationship between China India and Pakistan

**Energy Abstracts for Policy Analysis ,1988      Israel and the Bomb Avner**

Cohen,1998-09-30 Until now there has been no detailed account of Israel's nuclear history Previous treatments of the subject relied heavily on rumors leaks and journalistic speculations But with Israel and the Bomb Avner Cohen has forged an interpretive political history that draws on thousands of American and Israeli government documents most of them recently declassified and never before cited and more than one hundred interviews with key individuals who played important roles in this story Cohen reveals that Israel crossed the nuclear weapons threshold on the eve of the 1967 Six Day War yet it remains ambiguous about its nuclear capability to this day What made this posture of opacity possible and how did it evolve Cohen focuses on a two decade period from about 1950 until 1970 during which David Ben Gurion's vision of making Israel a nuclear weapon state was realized He weaves together the story of the formative years of Israel's nuclear program from the founding of the Israeli Atomic Energy Commission in 1952 to the alliance with France that gave Israel the sophisticated technology it needed to the failure of American intelligence to identify the Dimona Project for what it was to the negotiations between President Nixon and Prime Minister Meir that led to the current policy of secrecy Cohen also analyzes the complex reasons Israel concealed its nuclear program from concerns over Arab reaction and the negative effect of the debate at home to consideration of America's commitment to nonproliferation Israel and the Bomb highlights the key questions and the many potent issues surrounding Israel's nuclear history This book will be a critical resource for students of nuclear proliferation Middle East politics Israeli history and American Israeli relations as well as a revelation for general readers
