[China's Foreign Trade Policy](#) Ka Zeng, 2007-08-07 This book explores the sectoral regional bureaucratic and transnational forces shaping China's foreign trade policy as the country makes a transition from the era of bilateralism to engage the rules of the World Trade Organization

**Law and the Market Economy in China** Perry Keller, 2017-07-05 This volume concerns several aspects of China's changing market based economy These include commercial contract enforcement corporate structures competition law and other issues related to China's membership in the WTO In the past two decades the rapid integration of China's economy into the global marketplace has created obligations and expectations of non discrimination and regulatory transparency in domestic markets The Chinese government has responded by demanding better governance within major companies market sectors and public administration generally However as the articles in this volume show it has struggled to find a corporate structure capable of absorbing external equity investment and participation but still amenable to direct and indirect state guidance It has also moved cautiously in creating legal controls over unfair competition Moreover the protection of state owned enterprises which serve as vehicles for domestic economic social and political policy has been a recurring issue in China's WTO trade disputes

**THE STATE AND CAPITAL IN CHINA** Renildo Souza, 2021-12-16 The State and Capital in China offers a critical interpretation of Chinese recent history scrutinizing the political and economic turnaround post 1978 It analyzes the dynamics of the party state system the de collectivization of agriculture the liberalization of the labor market the rise of private sector the crucial role of the global market the new social exploitation and the prospects for China In the near future it will no longer be possible to maintain current gigantic investment levels that feed its high economic growth Global competition technological dispute and the downward pressure of overaccumulation on the rate of profit are all significant limits to Chinese current economic model The immense inequalities in income and wealth have been fuelling protest and worker strikes while environmental damage limits natural resources availability The problems of Chinese capitalism discussed in this book have been exacerbated by the new cold war unleashed by the United States Building on the theory of uneven and combined development this book assesses the Chinese development refusing the economism often present in appraisals of this theme Worker struggles and progressive forces can benefit from this research on the nature and implications of the transformations in the world s second largest economy and a new superpower

**Doing Business in China** Giles Chance, 2022-12-20 Extensively revised the fifth edition of this successful textbook offers a practical framework for approaching and carrying out business in China Building on the strengths of the previous editions and on the 30 year China business experience of the author the book provides a guide to market entry managing operations and marketing in this unique social and cultural environment including Why foreign businesses in China need to understand and interact with government in China both central and local and how best to do this New and revised case studies including case studies on successful companies entering and operating in China such as Volkswagen Hermes Honeywell and Diageo An in depth focus on internet marketing in China Choosing business partners and negotiating Dos and don ts Updated to include information on new government policy on trade partnerships commercial law and anti corruption drives the fifth edition of Doing Business in China will continue to be the preferred text for international students of Chinese business and management studies and for practitioners with an eye on China

Effective Environmental Regulation in China Federico Pasini, 2021-06-16 Though recently improved Chinese legislation on environmental permits is still weak and urgent measures are needed to help the country in moving towards an effective permitting system This book examines this legislation gap and presents a contribution to solving China s pollution problems By analysing the deficiencies of current Chinese provisions on permitting in light of EU legislation and its Italian application the book determines which permitting legislative structure and approach China should embrace in practice in order to build more comprehensive legislation on emission permitting It is argued that a set of ad hoc legislative measures should be implemented so as to strengthen China s environmental protection and efficiently tackle pollution The book will be a valuable resource for researchers academics and policy makers working in the areas of international environmental law and comparative law

**From Technology Transfer to Technology**

**Management in China** Theodor Leuenberger, 2012-12-06 Access to science and technology worldwide is achieved by active participation in open international scientific research as well as through technological capability that is decisive in catching up with world developments in science and technology In other words it is the national system of innovation which determines a country's assimilation capacity The universities research institutions the technological infrastructure industrial training schemes information networks and technical institutions in general provide the foundation for a solid steady development Therefore policies directed toward strengthening the national system of innovation are essential for a catching up strategy But even more important is the presence of skilled and experienced people with the necessary connections to the scientific and technological infrastructure of the world at large this applies to China in particular Whether or not the technological potential will be developed depends on the technological and industrial strategies promoted by the Chinese leadership In addition the costs and benefits of technological development are affected by the prevalent evolutionary stage of a country's political framework and fiscal regime There must be a strong coordination between overall economic policies and technology policy A successful management of technology is only possible through a technological package including management financial and marketing skills

**Public Relations in China** D. Wolf, 2016-04-29 In this pithy yet compact book David Wolf provides business owners and PR practitioners with a roadmap to corporate credibility in China Laced with thoughtful advice and braced with illustrative cases Public Relations in China strips out the jargon and offers something rare a practical handbook for building and defending a brand in China

*Local Protectionism and its Influence on the Post-WTO Market in China* Yining Ding, 2008-06-16 Based on an investigation of the WTO process and local protectionisms Yining Ding's new book presents interesting research results in the following fields The interests of China and other countries in the WTO the historic and cultural background and economic incentive of regional protectionisms the different influences of regional politicians on the reform and opening policy the administrative market monopoly during the transition economy and the route dependent behaviour of the reform and the local officials the game between central and local government the important role of Guanxi and its influence on the protective behaviour in relation to justice abuse of administrative power forged goods and the grabbing economy foreign trade and FDI Guanxi rent seeking and the structure of regional seigneur power the establishment of a model of different degrees of local protectionisms of sub national governments Yining Ding presents an empirical analysis and theoretical contributions to research on local protectionism and its influence on the post WTO market in China and provides an overview of the Chinese status quo since accession into the WTO with up to date economic data His book should serve economics majors students in other areas with an interest in China and businessmen investors and engineers who want to investigate or work in China well In addition this work should provide a guide or tool for readers to observe the current Chinese social development through different eyes
