## **Stephen King's America:**

Landscape of Fear Tony Magistrale, 1988 One of the very first books to take Stephen King seriously Landscape of Fear originally published in 1988 reveals the source of King's horror in the sociopolitical anxieties of the post Vietnam post Watergate era In this groundbreaking study Tony Magistrale shows how King's fiction transcends the escapism typical of its genre to tap into our deepest cultural fears that the government we have installed through the democratic process is not only corrupt but actively pursuing our destruction that our technologies have progressed to the point at which the individual has now become expendable and that our fundamental social institutions school marriage workplace and the church have beneath their veneers of respectability evolved into perverse manifestations of narcissism greed and violence Tracing King's moralist vision to the likes of Twain Hawthorne and Melville Landscape of Fear establishes the place of this popular writer within the grand tradition of American literature Like his literary forbears King gives us characters that have the capacity to make ethical choices in an imperfect often evil world Yet he inscribes that conflict within unmistakably modern settings From the industrial nightmare of Graveyard Shift to the breakdown of the domestic sphere in The Shining from the techno horrors of The Stand to the religious fanaticism and adolescent cruelty depicted in Carrie Magistrale charts the contours of King's fictional landscape in its first decade

**It** Stephen King,2016-01-01

Stephen King's classic 1 New York Times bestseller and the basis for the massively successful films It Chapter One and It Chapter Two as well as inspiration for HBO Max's series It Welcome to Derry about seven adults who return to their hometown to confront a nightmare they had first stumbled upon as teenagers an evil without a name It Welcome to Derry Maine It's a small city a place as hauntingly familiar as your own hometown Only in Derry the haunting is real They were seven teenagers when they first stumbled upon the horror Now they are grown up men and women who have gone out into the big world to gain success and happiness But the promise they made twenty eight years ago calls them reunite in the same

place where as teenagers they battled an evil creature that preyed on the city's children. Now children are being murdered again and their repressed memories of that terrifying summer return as they prepare to once again battle the monster lurking in Derry's sewers. Readers of Stephen King know that Derry, Maine, is a place with a deep dark hold on the author. It reappears in many of his books including *Bag of Bones*, *Hearts in Atlantis*, and *11/22/63*. But it all starts with *It*. Stephen King's most mature work, *St. Petersburg Times*, it will overwhelm you to be read in a well-lit room only. Los Angeles Times

**The New American Cyclopaedia** George Ripley, Charles Anderson Dana, 1863

[Dark Forces at Work](#) Cynthia J. Miller, A. Bowdoin Van Riper, 2019-11-06

*Dark Forces at Work* examines the role of race, class, gender, religion, and the economy as they are portrayed in and help construct horror narratives across a range of films and eras. These larger social forces not only create the context for our cinematic horrors but serve as connective tissue between fantasy and lived reality as well. While several of the essays focus on name horror films such as *IT*, *Get Out*, *Hellraiser*, and *Don't Breathe*, the collection also features essays focused on horror films produced in Asia, Europe, and Latin America, and on American classic thrillers such as Alfred Hitchcock's *Psycho*. Key social issues addressed include the war on terror, poverty, the housing crisis, and the Time's Up movement. The volume grounds its analysis in the films rather than theory in order to explore the ways in which institutions, identities, and ideologies work within the horror genre.

**The Disfigured Face in American Literature, Film, and Television** Cornelia Klecker, Gudrun M. Grabher, 2021-11-29

The face, being prominent and visible, is the foremost marker of a person's identity as well as their major tool of communication. Facial disfigurements, congenital or acquired, not only erase these significant capacities but, since ancient times, they have been conjured up as outrageous and terrifying, often connoting evil or criminality. In their associations, a dark secret being suggested behind the mask, the disfigurement indicating punishment for sin. Complemented by an original poem by Kenneth Sherman and a plastic surgeon's perspective on facial disfigurement, this book investigates the exploitation of these and further stereotypical tropes by literary authors, filmmakers, and showrunners, considering also the ways in which film, television, and the publishing industry have more recently tried to overcome negative codifications of facial disfigurement in the search for an authentic self behind the veil of facial disfigurement. An exploration of fictional representations of the disfigured face, this book will appeal to scholars of sociology, cultural and media studies, American studies, and literary studies with interests in representations of disfigurement and the Other.
