Road Show in 2008 the musicals of Stephen Sondheim 1930 2021 and his collaborators have challenged the conventions of American musical theater and expanded the possibilities of what musical plays can do how they work and what they mean Sondheim's brilliant array of work including such musicals as *Company* *Follies* *Sweeney Todd* *Sunday in the Park with George* and *Into the Woods* established him as the preeminent composer lyricist of his if not all time Stephen Sondheim and the Reinvention of the American Musical places Sondheim's work in two contexts the exhaustion of the musical play and the postmodernism that by the 1960s deeply influenced all the American arts Sondheim's musicals are central to the transition from the Rodgers and Hammerstein style musical that had dominated Broadway stages for twenty years to a new postmodern musical This new style reclaimed many of the self-aware performative techniques of the 1930s musical comedy to develop its themes of the breakdown of narrative knowledge and the fragmentation of identity In his most recent work Sondheim who was famously mentored by Oscar Hammerstein II stretches toward a twenty-first century musical that seeks to break out of the self-referring web of language Stephen Sondheim and the Reinvention of the American Musical offers close readings of all of Sondheim's musicals and finds in them critiques of the operation of power questioning of conventional systems of knowledge and explorations of contemporary identity **The Oxford Handbook of Sondheim Studies** Robert Gordon, 2014 This handbook presents a comprehensive introduction to all aspects of composer lyricist Stephen Sondheim's oeuvre Chapters come from a remarkably wide range of disciplines as they offer new insights into Sondheim's work not only for the stage but also for film and television describing in full how Sondheim has re-shaped American musical theater

**Stages of Struggle** John Louis DiGaetani, 2015-01-27 One way or another all playwrights use their work to explore the issues that interest them The characters in a play may trumpet their creator's political views from the stage or an unusual structure or set design may result from the playwright's interest in theatrical form It is also common particularly in the plays of the 20th and 21st century to see a playwright delving into psychological issues raised by his own mental struggles or those of people he loves Luigi Pirandello tormented by the schizophrenia of his wife and other family members repeatedly explored the problems caused by different visions of reality Noel Coward's self-obsessed characters reflect his own narcissism Alcoholism is a recurrent theme in the works of many playwrights including Eugene O'Neill Edward Albee and Brian Friel Through their exploration of these issues and more the great writers of the theater have turned suffering into art This book looks at the work of 20 playwrights to see how their examination of the disturbed mind has influenced the modern theater

*Horton Foote* Gerald C. Wood, 2014-07-16 This study is the first general critical introduction to the writing of Horton Foote recipient of two Academy Awards and the Pulitzer Prize These original essays survey Foote's career his work for theater television and film with analysis of Foote's major themes and characteristic style in all three media The casebook concludes with a list of Foote's produced work as well as a selective annotated bibliography of primary criticism on the playwright This book demonstrates the influence of personal biography and Southern literature on Foote's career The

essayists also investigate the writer's contribution to American dramatic realism and independent filmmaking emphasizing his experimentation with musical structure, de-dramatization and complex subtexts. Foote's disarmingly simple stories with their radically understated language are explained in many articles as the product of the subtle influence of the psychological and religious views of the author.

**Arnold Wesker** Reade W. Dornan, 2014-05-01 The only collection of essays on one of Britain's Angry Young Men, this book contains discussions of most of Wesker's published plays with an emphasis on the more recent works. Essays re-evaluate the plays that made Wesker a household name in Britain: the Trilogy, *The Kitchen* and *Chips with Everything*. Clive Barker, co-director of *Centre 42*, gives a fresh account of that movement, and playwright Paul Levitt provides a previously unrecorded history of *Caritas*, *Blood Libel* and *Shylock*. A personal profile of Wesker by novelist Margaret Drabble is reprinted from an earlier article. Original essays cover the theory and practice of theatre, Wesker's in-text stage directions, British television's adaptation of his plays, and an actor's and a director's perspectives on working with the playwright. Major international Weskerian critics are assembled here: Klaus Peter Müller and Heiner Zimmermann from Germany, Rossana Bonadei, Angela Locatelli and Alessandra Marzola from Italy, Keith Gore, Glenda Leeming, Martin Priestman, Jeremy Ridgman, Margaret Rose and Robert Wilcher from Great Britain, Menakshi Ponnuswami from India, Robert Gross, Kimball King and Robert Skloot from the United States. These essays take a wide range of critical approaches, from an exploration of gender to semiotics, biography and the New Historicism. This is the most comprehensive collection of criticism on Arnold Wesker to date. Every major Weskerian scholar writing in English has contributed a piece to this casebook. Originating in Germany, Italy, Great Britain, India and the United States, their essays create an international cultural context for Wesker's plays. They also position his work among his contemporaries in his historical era and in the political and theatrical environment that defines his world. Furthermore, they form a biographical profile of Wesker, often giving us firsthand accounts of turning points in his career. Finally, some essays evaluate and interpret the major plays, dissecting and scrutinizing the formal elements that make them distinct. Their critical approaches are varied in that they make liberal use of semiotics, Bakhtinian and communication theory, cultural studies and traditional readings. Their contributions compose a multifaceted view of Wesker's life and work, setting out fresh arguments for all his plays.

**Musicological Identities** Jacqueline Warwick, 2017-07-05 No music scholar has made as profound an impact on contemporary thought as Susan McClary, a central figure in what has been termed the new musicology. In this volume, seventeen distinguished scholars pay tribute to her work with essays addressing three approaches to music that have characterized her own writings: reassessing music's role in identity formation, particularly regarding gender, sexuality and race; exploring music's capacity to define and regulate perceptions and experiences of time; and advancing new modes of analysis more appropriate to those aspects and modes of musicking ignored by traditional methods. Contributors include, in overlapping categories, many fellow pioneers, current colleagues and former students, and their essays like McClary's own work address a wide range of repertoires ranging from

the established canon to a variety of popular genres The collection represents the generational arrival of the new musicology into full maturity dividing fairly evenly between pre eminent scholars of music and a group of younger scholars who have already made their mark in significant ways But the collection is also and fundamentally interdisciplinary in nature in active conversation with such fields as history anthropology philosophy aesthetics media studies film music studies dramatic criticism women s studies and cultural studies
