Stephen Biestys Incredible Explosions:

Stephen Biesty's Incredible Explosions Stephen Biesty, Richard Platt, 1996-01-01 **Stephen Biesty's Incredible Explosions** Richard Platt, 1996 Text and cross section illustrations present inside views of a variety of subjects including a space station airport and windmill Stephen Biesty's Explosions Stephen Biesty, Richard Platt, 1996-01-01 In this fascinating book artist Stephen Biesty has created marvelously detailed color illustrations that show what is inside a human body what goes on at an Antarctic research base how an airport works the amazing natural world of the Grand Canyon what is underneath a city street how a future space station might look how feature films are made what is inside a windmill how a steam tractor works a fire inside a multi story building a windmill the city of Venice in the 17th century and the Tower Bridge in London **More Rip-Roaring Reads for Reluctant Teen Readers** Bette D. Ammon, Gale W. Sherman, 1998-12-15 Show reluctant teens that reading is not only fundamental it s also fun In this companion book to Rip Roaring Reads for Reluctant Teen Readers Ammon and Sherman describe 40 exciting contemporary titles 20 for middle school 20 for high school written by outstanding authors These are books your students won t want to put down Designed to make the matching process between student and books easy and successful this volume also includes genre and theme indexes curriculum activities interest and readability levels and reproducible bookmarks for each entry **Stephen Biesty's More Incredible Cross-sections** Richard Platt, 2019-10-08 This illustrated book for children shows you how things work Look inside the human body explore the magic of Venice and take a tour around a movie studio and much more Part of a unique series More Incredible Cross sections is Stephen Biesty at the top of his game In this updated edition with a refreshed contemporary style he gives readers an exploded view of 12 objects places landmarks and modes of transport But look closer In every picture is an alien who has lost his way can you find him As you pore over Stephen Biesty s superbly detailed pages you will also discover loads of awesome facts Did you know that steam engines were notoriously difficult to stop leading to frequent accidents Or that people at an Antarctic research base rely on supplies from an aircraft s parachute drops during winter From windmills to cities airports to space stations More Incredible Cross sections is for curious minds of any age interested in finding out how our amazing world works I See What You Mean Steve Moline, 2023-10-10 Some educators may view diagrams pictures and charts as nice add on tools for students who are visual thinkers But Steve Moline sees visual literacy as fundamental to learning and to what it means to be human In Moline s view we are all bilingual Our second language which we do not speak but which we read and write every day is visual From reading maps to decoding icons to using concept webs visual literacy is critical to success in today s world The first edition of I See What You Mean published in 1995 was one of the first books for teachers to outline practical strategies for improving students visual literacy In this new and substantially revised edition Steve continues his pioneering role by including dozens of new examples of a wide range of visual texts from time maps and exploded diagrams to digital tools like smartphone apps and tactile texts In addition to the

new chapters and nearly 200 illustrations Steve has reorganized the book in a useful teaching sequence moving from simple to complex texts In one research strategy called recomposing Steve shows how to summarize paragraphs of information not as a heap of interesting facts but as a diagram The diagram can then work as a framework for students to follow when writing an essay This overcomes the teacher's problem of cut and paste essays and by following their own diagram summary students have an answer to their familiar questions Where do I start What do I write next
