All Music Guide to Soul Vladimir Bogdanov, 2003-08 With informative biographies essays and music maps this book is the ultimate guide to the best recordings

in rhythm and blues 20 charts The Magic City Captured by Miami Vice, Scarface, Movies, and Burn Notice a guide to 80s Locations and Culture Col James Staubach, US Army Retired, 2014-04-26 This illustrated guide is unique Fans of Miami Vice Scarface Burn Notice and 80s Miami movies will appreciate it The guide will also interest students of Miami history and Art Deco as well as those nostalgic about Miami in the 80s It explains for the first time that these shows are really a time capsule of long gone Miami scenes They serve as a record of when Miami was 1980s America on steroids Burn Notice an innovative show in its own right followed Miami Vice s lead When compared to similar scenes from Vice recent TV shows reveal the distinctiveness of the 80s These TV shows also provide a window into today s Miami The guide shows where views of long gone iconic locations and typical Miami scenes can be found on the DVDs The value of Miami Vice to South Florida is explained Personal observations are provided by the author who lived there during the Vice years All music played on Miami Vice is listed as well as key locations in all Vice movies and recent TV episodes **All Music Guide to Rock** Vladimir Bogdanov, Chris Woodstra, Stephen Thomas Erlewine, 2002-04 This fun to read easy to use reference has been completely updated expanded and revised with reviews of over 12 000 great albums by over 2 000 artists and groups in all rock genres 50 charts *My Kind of Sound* Enrique Encabo, 2020-11-24 This volume explores the importance and significance that music has in our lives The relationship between music and identity is based on conceptions about meanings and identification especially powerful when connected with youth and popular music We narrate ourselves in a musical way and we must study music as culture rather than music in culture The contributions to this book attend to emerging phenomena such as the rise of the Reggaeton music around the world the importance of music in anime media and music industry changes and uncertainties in the new millennium Music is art but it is also an industry and a business and the two are intertwined through the sale of tickets original formulas are obtained and in the same way products not just musical but multimedia are born from alternative culture eventually becoming mainstream In addition this book also takes into account iconic artists such as Nirvana David Bowie or Miley Cyrus and the important contribution of music to the narrative and success of popular TV series analysing cases such as Babylon Berlin and Vikings From Blade Runner 1982 to current television mainstream productions the music image alliance does not only satisfy and distract us but also challenges us and forces us to rethink our view of the world **The Great Rock Discography** Martin Charles Strong, 1998 Martin Strong s best selling and highly acclaimed monster reference book is now in its fourth edition Encyclopaedic in scope the book contains incomparable details on all the great figures in the development of the rock genre The Good, the Bad and the Ugly Richard Taylor, 2024-08-01 The book takes 45 chart toppers and writes their story The music the lyrics the artists producers and writers are all discussed as well as any side or back stories to do with the single For example when and how Release Me by Engelbert Humperdinck kept Penny Lane Strawberry Fields by The Beatles off the top spot in 1967 is discussed in Chapter 4 Another example of a you could not make it up back story might be the that the writer of Grandad by Clive Dunn from 1971 and a light

novelty No 1 song was also the bass player on Lou Reed's hit single Walk On The Wildside a heavy weight dose of art rock with dubious lyrics which came out in November 1972 Perhaps you could not get too more contrasting songs for Herbie Flowers to be involved in I picked 45 singles as that was the rpm speed of a typical 7 inches vinyl single in the 1960s With regard to time span I took one No 1 single per year between 1964 and 2006 that would be 43 songs and I added in two bonus tracks to make 45 This was when Top Of The Pops was running on BBC TV and seemed an appropriated year span for the book I wanted to mix up the No 1 singles not just to get the best selling or most popular song of a particular year I chose pop songs novelty songs children's songs and all time classics to have a range of mixed up No 1s This is hopefully a particular unique selling point of the book where I compare and contrast the mixed up No 1s and try to explain just how for example Mr Blobby by Mr Blobby would be an unlikely No 1 in 1993 while an all time classic Love Is All Around from Wet Wet Wet could be an obvious No 1 in 1994 Just how is it that these two songs could both be chart toppers in the same chart It is certainly a bit weird and this is something I try to explain in the book I have taken as the book title the 1968 chart topper which I write about in Chapter 5 The Good The Bad and the Ugly is indicative of the mixed up good bad or ugly range of the 45 songs which I pick I never specifically say which song is in which category That is for the reader to decide I also do not want to be rude about any song If it got to No 1 it certainly deserves respect In the Book End Outro I do a Top of the Pops No 45 to No 1 countdown as a worst to best list of my chosen songs which should promote some debate and perhaps even disagreement With that in mind despite his best attempt at coercion and bribery towards me you will be pleased to know or perhaps saddened that Mr Blobby is not my overall No 1 But what is well Read on and enjoy the book The Absolute Sound ,1997
