Stiffed The Betrayal Of Modern Man:

Stiffed Susan Faludi, 2000-09-19 One of the most talked about books of last year the Pulitzer Prize winning author of *Backlash* now explores the collapse of traditional masculinity that has left men feeling betrayed With *Backlash* in 1991 Susan Faludi broke new ground when she put her finger directly on the problem bedeviling women and the light of recognition dawned on millions of her readers what's making women miserable isn't something they're doing to themselves in the name of independence It's something our society is doing to women The book was nothing less than a landmark Now in *Stiffed* the author turns her attention to the masculinity crisis plaguing our culture at the end of the 90s an era of massive layoffs Angry White Male politics and Million Man marches As much as the culture wants to proclaim that men are made miserable or brutal or violent or irresponsible by their inner nature and their hormones Faludi finds that even in the world they supposedly own and run men are at the mercy of cultural forces that disfigure their lives and destroy their chance at happiness As traditional masculinity continues to collapse the once valued male attributes of craft loyalty and social utility are no longer honored much less rewarded Faludi's journey through the modern masculine landscape takes her into the lives of individual men whose accounts reveal the heart of the male dilemma *Stiffed* brings us into the world of industrial workers sports fans combat veterans evangelical husbands militiamen astronauts and troubled bad boys whose sense that they've lost their skills jobs civic roles wives teams and a secure future is only one symptom of a larger and historic betrayal Stiffed

Susan Faludi, 1999 *Extra-Ordinary Men* Nicola Rehling, 2010-06-21 *Extra Ordinary Men* analyzes popular cinematic representations of white heterosexual masculinity as the ordinary form of male identity one that enjoys considerable economic social political and representational strength Nicola Rehling argues that while this normative position affords white heterosexual masculinity ideological and political dominance such ordinariness also engenders the anxiety that it is a depthless vacuous and unstable identity At a time when the neutrality of white heterosexual masculinity has been challenged by identity politics this insightful volume offers lucid accounts of contemporary theoretical debates on masculinity in popular cinema and explores the strategies deployed in popular films to reassert white heterosexual male hegemony through detailed readings of films as diverse as *Fight Club* *Boys Don't Cry* and *The Matrix* Accessible to undergraduates but also of interest to film scholars the book makes a distinctive contribution to our understanding of the ways in which popular film helps construct and maintain many unexamined assumptions about masculinity gender race and sexuality **Representing the**

Leadership Varieties Alexander Styhre, Thomas Johansson, 2016-03-10 In all periods of time there is a perceived shortage of qualified credible and robust leadership skills At the same time what is regarded as skilled leadership is contingent on economic political institutional and cultural conditions specific for a period of time or a local setting Leadership in the era of managerial capitalism was focused on planning and administration and was seated in large scale divisionalized corporations In the 1970s this economic model started to wane and leadership was advanced as the solution to a series of economic and social concerns now being a matter of meaning making in the face of uncertainty and ambiguity With the expansion of the finance industry and the deregulation of finance markets in the 1990s and in the new millennium yet another leadership model increasingly prioritized economic value creation In parallel to the economic political and institutional changes the idea of leadership has been strongly informed by new ideas about individualism and masculinity adding to the understanding of leadership as what is anchored in widespread social beliefs about for example healthy life styles the virtues of physical exercise and novel gender relations Aimed at scholars researchers students and policy makers in the fields of Leadership Management History and Organizational Theory *Leadership Varieties* examines predominant ideas about the qualities and virtues of leadership in a historical and cultural perspective

Troubling Maternity Emily Jeremiah, 2003 The question of maternity is crucial for feminists to whom it represents both challenge and inspiration as it is for many thinkers engaged with the issues of agency corporeality and ethics This examination puts forward the idea of a maternal performativity drawing on the work of Judith Butler and numerous other feminist theorists to offer new ways of looking at 1970s and 1980s literary texts by ten German speaking women writers including Barbara Frischmuth Elfriede Jelinek Irmtraud Morgner and Karin Struck It argues that as yet maternal agency has not adequately been theorized a project which is urgent given the traditional view in Western culture of the mother as passive and suggests that Butler's notion of performativity can assist in this task It proposes a performative conception of both mothering and literature and links both of these to the question of ethics which is understood as involving embodiment and relationality To different extents all of the texts examined depict mothers as marginal abject or insane thus demonstrating the operations of exclusion and the need for a maternal agency to be developed and enacted The idea of maternal performativity is refined in five chapters which focus respectively on community corporeality the mother child relationship the family and discursive production The conclusion explores the ethics of literary practice and knowledge production and argues that in the light of the developing fields of new reproductive technologies and genetics it is imperative that we seek new understandings of embodiment community and care a task to which this study aspires to contribute
