Slow Death Rudi Koertzen,2011-03-28 For 30 years batsmen around the world have feared the slow and deliberate way Rudi Koertzen raises his left arm to give them out so much so that it has given rise to his nickname Slow Death Despite the sinister sobriquet Rudi Koertzen remains one of the most loved and respected umpires in world cricket and certainly one of the most experienced to date he is the only umpire to have stood in 200 One Day Internationals and he has 100 Test matches under his belt Now Rudi takes the reader back to some of the highlights of his career in Test ODI and T20 matches including several World Cups and Ashes series From his unique perspective he rates the cricketers he has umpired over the years the best batsmen bowlers and fielders and gives reasons why they stand out from other players He shares players hilarious on field antics and on occasion histrionics And he doesn t shy away from discussing the controversial side of international cricket from match fixing to terrorist attacks while giving his frank and possibly controversial views on the use of technology in the game Humorous informative and nostalgic this is the book every cricket fan will want to own *Anthropology and Modern Life* Franz Boas,2021-03-28 Franz Boas 1858 1942 is widely regarded as the founder of American anthropology He influenced an astonishing variety of scholars and researchers from the anthropologists Margaret Mead and Ruth Benedict to the philosopher W E B DuBois and novelist Zora Neale Hurston Towards the end of his life he also lectured widely in an attempt to educate the public on the dangers of Nazi ideology *Anthropology and Modern Life* demonstrates the incredibly rich and fertile range of Boas s thought engaging with controversies that resonate loudly today the problem of race and racial types heredity versus environment the significance of intelligence tests open versus closed societies the nature versus nurture debate and nationality and nationalism Believing passionately that science should be used to break down racial and cultural barriers from the book s very opening Boas shatters the myth that anthropology is simply a collection of curious facts about exotic peoples Thanks to Boas s influence anthropologists and other social scientists began to see that differences among the races resulted not from physiological factors but from historical events and circumstances and that race itself was a cultural construct This Routledge Classics edition includes a new Foreword by Regna Darnell and an Introduction and Afterword by Herbert S Lewis who details Franz Boas s life influence and ideals In writing the present book I desired to show that some of the most firmly rooted opinions of our times appear from a wider point of view as prejudices and that a knowledge of anthropology enables us to look with greater freedom at the problems confronting our civilization Franz Boas
