Beneath the Mask Robert N. Sollod, Christopher F. Monte, 2008-01-22 Beneath the Mask presents classic theories of human nature much as each theorist might if the theorist were to teach his or her ideas to people encountering them for the first time Through a theorist by theorist approach this Eighth Edition continues to explore the ideas of personality theorists developmentally incorporating the personal origins of ideas to illuminate links between the psychology of each theorist and that theorist's own psychology of persons Beneath the Mask presents the sequence of thinking for more than 20 theorists and demonstrates how the thinking that led to major theories is nested in the life experience of the theorists within the context of the surrounding culture The authors emphasize each theorist's life history as the basis for the ideas that constitute his or her theories making them easier to understand as pictures of human nature John P Wilson has revised the text in a manner that preserves and improves upon the best features of the late Robert N Sollod and Christopher Monte's work

The Annual of Psychoanalysis, V. 22 Jerome A. Winer, 2013-05-13 Volume 22 of The Annual of Psychoanalysis begins with the provocative reflections of Jane Flax and Robert Michels on the current status and future prospects of psychoanalysis a century after Freud Flax believes that analysis will not survive in the postmodern West if analysts cling to the medical model and the notion of analysis as a clinical science Michels believes analysis will be revived in the next century by reorganizing its training institutes within universities A section on Psychoanalysis and the Visual Arts includes John Gedo's probing examination of the inner world of Paul Gauguin and William Meissner's reflections on Vincent van Gogh as artist Johann Michael Rotmann's examination of the transference meanings of third party payment within Germany's health insurance system is a timely consideration of issues that are increasingly salient for American analysts and therapists A rich harvest of theoretical and clinical papers rounds out this volume of The Annual In A Time of Questioning Leon Wurmser responds to the inner and outer challenges before analysis in a closely reasoned defense of the applicability of classical analytic technique to severely disturbed patients Michael Hoit examines the noninterpretive interactive aspects of the analytic relationship arguing that the analyst's noninterpretive activities are intrinsic to treatment and must be incorporated into the theory of therapeutic action In Fables as Psychoanalytic Metaphors Elaine Caruth describes some psychoanalytic metaphors contained within the lessons of the Aesopian fables proposing that the fables address interpersonal and group conflicts that often involve moral issues Wilma Bucci offers her multiple code theory as a new model of emotion and mind based on current theory and research in cognitive science that can account for clinical concepts and provide coherent framework for empirical research And Ralph Roughton uses the case history of Laura to underscore the central role of repetition and interaction in the analytic process Volume 22 will not disappoint readers of this distinguished continuing series Like its predecessors it is a thoroughly assembled collection responsive to the conceptual clinical and institutional challenges now before the field
