This is a complete year-long programming guide that shows librarians how to integrate nonfiction and poetry into storytime for preschool children in order to build literacy skills and overall knowledge. The right nonfiction titles, ones with colorful photographs and facts that are interesting to young imaginations, give librarians an opportunity to connect with children who are yearning for true stuff. Presenting poetry in storytime encourages a love of language and the chance to play with words. Written by authors with a combined 25 years of experience working with children and books in a library setting. **Get Real With Storytime: 52 Weeks of Early Literacy Programming** goes far beyond the typical storytime resource book by providing books and great ideas for using nonfiction and poetry with preschool children. This book provides a complete year-long programming guide for librarians who work with preschool children in public libraries and school librarians who run special programs for preschoolers as well as parents, childcare providers, and camp counselors. Each of the 52 broad storytime topics, one for each week of the year, includes a sample storytime featuring an opening poem, a nonfiction title, picture books, songs, rhymes, or fingerplays, and a follow-up activity. Early literacy tips that are based on the authors' extensive experience and the principles of Every Child Ready to Read (ECRR) are presented throughout the book.

Play from Birth to Twelve Doris Pronin Fromberg, Doris Bergen, 2015-03-02. In light of recent standards-based and testing movements, the issue of play in child development has taken on increased meaning for educational professionals and social scientists. This third edition of *Play From Birth to Twelve* offers comprehensive coverage of what we now know about play and its guiding principles, dynamics, and importance in early learning. These up-to-date essays, written by some of the most distinguished experts in the field, help educators, psychologists, anthropologists, parents, health service personnel, and students explore a variety of theoretical and practical ideas, such as all aspects of play, including historical and diverse perspectives, as well as new approaches not yet covered in the literature: how teachers in various classroom situations set up and guide play to facilitate learning; how play is affected by societal violence, media, reportage, technological innovations, and other contemporary issues; play and imagination within the current scope of educational policies; childrearing methods; educational variations; cultural differences; and intellectual diversity. New chapters in the third edition of *Play From Birth to Twelve* cover current and projected future developments in the field of play, such as executive function, neuroscience, autism.
