**Still Waters** C. C. Lockwood, 2000-04-01 Renowned for the beauty of his photographs and his love of planet Earth C C Lockwood for thirty years has produced images that dazzle the eye and soothe the soul Now at life s midpoint this adventurous outdoor photographer pauses to reflect on the less trodden career path he s chosen and to assemble the most cherished fruits of his work Still Waters is a sumptuous retrospective the best 100 of Lockwood s more than 30 000 total images chronologically arranged and stunningly displayed Over half have never been published and only twenty four are found in his previous books These color lush scenes of sky water and land range from Belize to Hawaii to Yellowstone National Park to Portugal and capture the marvel of native flora and fauna including several Homo sapiens Lockwood s signature Louisiana scapes abound depicting such winsome place names as Little Pecan Island Pearl River Swamp Atchafalaya Basin Tunica Hills and Bayou Penchant Whether absorbed with the utter innocence of a nest of young raccoons Mutt Jeff and Friends the radiant coolness of a coral reef habitat Reef Fish or the essence of a dying sun all the images exude the almost magical synthesis of light and subject inspiration and technique patience and luck that denotes a Lockwood print Selected by the artist for their visual grace hold on memory and professional impact the stills of Still Waters are likened by Lockwood to a family photo album the good times show up more than the hard work of raising the kids If a picture speaks a thousand words then Lockwood s 100 raise a chorale Where argument and cold fact fail to persuade these works of beauty and love instill a newfound appreciation for our shared earthly habitat C. C. Lockwood's Atchafalaya C. C.

Lockwood, 2007-09-01 At nearly 1 4 million acres the Atchafalaya Basin in south central Louisiana comprises America s largest swamp wilderness Award winning nature photographer C C Lockwood is the foremost chronicler of this natural treasure What began as a curious side trip in 1973 became a decades long love affair and for more than thirty years Lockwood has explored the Atchafalaya s waters and captured its haunting beauty on film Now twenty five years after the publication of his first book he returns to his favorite subject in C C Lockwood s Atchafalaya His passion for the Atchafalaya as expressed in his photographs can be compared to John James Audubon s exuberant appreciation for the state s abundant bird life as depicted in his prints more than 150 years ago The art of both exalts Louisiana s wildlife and cautions against taking it for granted Lockwood revisits and reflects on the places he has frequented most in the swamp recalling his escapades both long past and recent among gators and skeeters He shares the thoughts of basin residents about how the Atchafalaya has changed over time for better and for worse Increases and decreases in various bird and other animal populations changes in water levels and consistency flora mainstays and trees gone missing burgeoning aquatic vegetation all are keenly observed by this explorer Lockwood finds undiminished the seductive seasonal and diurnal moods of the swamp autumn and spring sunset and moonrise as breathtaking now as in the past In nearly one hundred dazzling color photographs Lockwood brilliantly documents the Atchafalaya s timeless beauty He shows amazingly diverse and abundant

wildlife rookeries with thousands of egrets and herons waters with billions of crawfish and ridges with deer squirrel and woodcock Waters run deep in Lockwood s soul as evidenced in his intimate treatment of the meandering bayous fringed with bald cypress trees the many glassy lakes reflecting vegetation into double images and the mighty Atchafalaya River the lifeline of the swamp No place in the world gives me such a feeling of peace as America s largest river basin swamp writes Lockwood In these pages he pays homage to the queen of U S wetlands      Facing Catastrophe Robert R. M. Verchick,2012-04-02 As Hurricane Katrina vividly revealed disaster policy in the United States is broken and needs reform What can we learn from past disasters storms floods earthquakes tsunamis landslides and wildfires about preparing for and responding to future catastrophes How can these lessons be applied in a future threatened by climate change In this bold contribution to environmental law Robert Verchick argues for a new perspective on disaster law that is based on the principles of environmental protection His prescription boils down to three simple commands Go Green Be Fair and Keep Safe Going green means minimizing exposure to hazards by preserving natural buffers and integrating those buffers into artificial systems like levees or seawalls Being fair means looking after public health safety and the environment without increasing personal and social vulnerabilities Keeping safe means a more cautionary approach when confronting disaster risks Verchick argues that government must assume a stronger regulatory role in managing natural infrastructure distributional fairness and public risk He proposes changes to the federal statutes governing environmental impact assessments wetlands development air emissions and flood control among others Making a strong case for more transparent governmental decision making Verchick offers a new vision of disaster law for the next generation      *American Book Publishing Record* ,1999      **Choice** ,2000      *H2O* Marie-France Dupuis-Tate,Bernard Fischesser,2001-06 A collection of artistic photographs celebrates the beauty and indispensability of water and its role in our lives while the text stresses the need for conservation of this valuable resource      *The British National Bibliography* Arthur James Wells,2002      **Library Journal** ,2002 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately      **Annual Bibliography of Modern Art** Museum of Modern Art (New York, N.Y.). *Imagining the Good Life* Francis Khek Gee Lim,2008-08-31 This is a book of great originality that analyses cultural change and experience of development in terms of the pursuit of the good life as a social process While recent anthropological critiques of development highlight the importance of local knowledge this book argues that these critiques have not gone far enough and suggests that a much more fundamental issue concerns the ends of development as seen from a more holistic cultural perspective Based on ethnographic research among an ethnic Tibetan community in the Nepal Himalaya the book eloquently illustrates how the pursuit of the good life is inextricably tied to space and history and demonstrates the relevance of ethno historically generated conceptions of the good life to the practice of development

**Light, Paper, Process** Virginia Heckert,2015-04-14 From its beginnings photography has been shaped by the desire to understand and explore the essence of the medium Light Paper Process features the work of seven artists Alison Rossiter Marco Breuer James Welling Lisa Oppenheim Chris McCaw John Chiara and Matthew Brandt who investigate the possibilities of analog photography by finding innovative surprising and sometimes controversial ways to push light sensitive photographic papers and chemical processing beyond their limits A panoply of practices emerges in the work of these artists Some customize cameras with special lenses or produce images on paper without a camera or film Others load paper rather than film in the camera or create contact printing with sources of light other than the enlarger while still others use expired

photographic papers and extraneous materials such as dust and sweat selected to match the particular subject of the photograph All of the artists share a willingness to embrace accident and chance Trial and error contribute to an understanding of the materials and their potential as do the attitudes of underlying curiosity and inventive interrogation The act of making each image is like a performance with only the photographer present The results are stunning This lavish publication accompanies an eponymous exhibition on view at the J Paul Getty Museum from April 14 to September 6 2015
