tasked with interviewing an eyewitness about a crime as part of criminal investigations Despite the lack of training and certification we allow interviewers to conduct questioning in the face of well established research as to the malleability of human memory The assumption is that officials trained in the rules of evidence will innately ask the right questions and in the proper manner without the proper understanding of the fragility of human memory or the proper training That assumption is false and the reality is quite the opposite In fact we learn of cases commonplace in the media that frequently involve questionable interview tactics misidentifications and wrongful convictions of innocent people The Mindful Interview Method uses cognitive research to inform the methods and principles for a mindful approach to gathering only the information the subject remembers This is the best way to use evidence based lines of questioning to perform interviews that elicit the most reliable accounts and information for investigative purposes Considering current reforms on best practices throughout the criminal justice system the book provides a path forward for professional interviewers to adopt interview methodologies that guide the practitioner to question anyone in a mindful manner

*An Honest Living* Steven

Salaita,2024-03-05 An exiled professor's journey from inside and beyond academe In the summer of 2014 Steven Salaita was fired from a tenured position in American Indian Studies at the University of Illinois for his unwavering stance on Palestinian human rights and other political controversies A year later he landed a job in Lebanon but that too ended badly With no other recourse Salaita found himself trading his successful academic career for an hourly salaried job Told primarily from behind the wheel of a school bus a vantage point from which Salaita explores social anxiety suburban architecture political alienation racial oppression working class solidarity professional malfeasance and the joy of chauffeuring children to and from school An Honest Living describes the author's decade of turbulent post professorial life and his recent return to the lectern Steven Salaita was practically born to a life in academia His father taught physics at an HBCU in southern West Virginia and his earliest memories are of life on campus and the cinder walls of the classroom It was no surprise that he ended up in the classroom straight after graduate school Yet three of his university jobs Virginia Tech the University of Illinois and the American University of Beirut AUB ended in public controversy Shaken by his sudden notoriety and false claims of antisemitism Salaita found himself driving a school bus to make ends meet While some considered this just punishment for his anti Zionist beliefs Steven found that driving a bus provided him with not just a means to pay the bills but a path toward freedom of thought Now ten years later with a job at American University at Cairo Salaita reconciles his past with his future His restlessness has found a home yet his return to academe is met with the same condition of fugitivity from whence he was expelled an occasion for defiance not conciliation An Honest Living presents an intimate personal narrative of the author's decade of professional joys and travails
