A Stillness in the Pines Robert W. McFarlane, 1992 Discusses the endangerment of the rare red cockaded woodpecker and its habitat *The Collected Ernie Kurtz* Ernest Kurtz, 2008 Ernest Kurtz has been the outstanding thinker of the AA tradition's second generation the one who played a constant leadership role in pushing the movement towards the highest professional standards of history writing and supplied some of its most influential interpretive concepts His ideas are vitally important for anyone who wishes to understand AA history during the period following Bill Wilson's death in 1971 As a PhD student at Harvard University in the 1970s he was the first researcher to be granted full access to the archives of Alcoholics Anonymous The book that resulted *Not God A History of Alcoholics Anonymous* 1979 is still the classic work on early AA history His book on the spiritual life *Ernest Kurtz and Katherine Ketcham The Spirituality of Imperfection Modern Wisdom from Classic Stories* 1992 is equally well known and has also been an enduring best seller through the years since it appeared His work on *Shame Guilt* orig pub 1981 rev ed 2007 has given a whole new depth to the discussion of those two vital recovery issues This present book containing twelve key articles written by Kurtz between 1982 and 1996 gives us a fourth volume from his hand displaying the impressive range and breadth of his thought on alcoholism addiction and spirituality Here under one cover is Kurtz at his best historian gadfly teacher interpreter and master storyteller This is must reading for any student of Alcoholics Anonymous and the evolution of spirituality in America William L White author of *Slaying the Dragon The History of Addiction Treatment and Recovery in America* **American Book Publishing Record** ,1992 *The Zoological Record* ,1994 *Library Journal* ,1994-07 [Texas Legacy Project](#) David Todd, David Weisman, 2010 This book holds stories from more than sixty people Book Jacket **The Publishers Weekly** ,1994 *Exhibit by Design* Bonnie Ott, 1994 *Behavioural Biology Abstracts* ,1992 **Environmental Studies Reviews** ,1995 *The Cumulative Book Index* ,1992 A world list of books in the English language *Handbook of the Birds of the World* Josep del Hoyo, Andrew Elliott, Jordi Sargatal, 1992 *Jacamars to Woodpeckers Pr logo sobre aves extinguidas* Más de 4000 referencias bibliográficas *Whole Earth* ,1997 *The ^A Blue Sapphire of the Mind* Douglas E. Christie, 2012-12-04 Drawing on insights from the early Christian monastics as well as the ecological writings of such figures as Henry David Thoreau Aldo Leopold Annie Dillard and others Christie forges a distinctively contemplative vision of ecological spirituality that could he contends serve to ground the work of ecological restoration **Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e.g. the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles

autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers

Major Problems in American Environmental History Carolyn Merchant, 2005 This volume traces the history of environmental conditions in the United States through the examination of critical issues such as pollution conservation and wilderness preservation The Second Edition of this popular text includes several new essays and documents and pays particular attention to multiculturalism and gender throughout In order to place American environmental issues in a larger context the text emphasizes international relations and globalization

Preserving the Legacy Allen G. Noble, Frank J. Costa, 1999-01-01 Though only a relatively recent topic of worldwide discussion and interest the concept of sustainable development traces its origins to the late eighteenth century when concern for resource conservation and environmental integrity first arose From this beginning the concern for sustainable development progressively expanded from being purely local to having a regional and national relevance and finally to being a global concern of import Preserving the Legacy examines this expansion while discussing several general approaches to the understanding and application of the concept of sustainability Also discussed are such weighty issues as the balancing of development aspirations with environmental management in developing countries and the means by which residents in an urbanizing region in a developed country can be induced to consider sustainable development as both a goal and a limiting factor in the conversion of agricultural land Offering both real world examples of sustainability issues and a forecast for the future of sustainability theory and practice this fascinating volume will prove invaluable to scholars of the environment geography and urban planning
